**MIVARDI**  
ORIGINAL QUALITY

MIVARDI is the single most important brand in the Czech Republic and one of the most recognised brands across Central Europe. Within the Mivardi product range, you will find a premium selection of carp fishing tackle and baits denoted with our M-CARP symbol. We also produce top quality products focused on both the advanced match and feeder fishing sectors, alongside the pleasure angler.

### Tradition

The MIVARDI brand was first established in 2004 and since that time, we have massively increased our product range, focusing on high level carp, feeder and match fishing tackle. MIVARDI products are now being used by thousands of satisfied anglers throughout Europe.

### Quality

The aim of MIVARDI as a brand, is to offer better quality products than our competitors, yet at the same price levels. We always emphasise the precise technical design of every product, the functionality, strict selection of materials used, plus the quality and production standards which set MIVARDI apart.

### Innovation

In our product range you will find many products that come from our exclusive design and development team. The new ideas, technical solutions and innovations provided by our products often follow requests from our customers, who continuously require more and more advanced products. MIVARDI frequently create special construction and technical solutions not offered by any other brands.

### Warranty

In the unlikely event of a problem, with all MIVARDI products, you always get a fast repair service. We only use original spare parts and full after sales service is available across our entire range of our products.

## MIVARDI product brands

The M-CARP range indicates premium level fishing tackle made for the most demanding of carp anglers. These products were developed with the emphasis on the use of top quality materials, perfect manufacturing quality and long lifespan. The M-CARP logo helps to identify these specially selected products within the wide range of MIVARDI goods.

# RAPID

Within the RAPID carp baits family, you will find the full MIVARDI range of read-made boilies, pop ups, pellets, attractors and liquids. Our ongoing programme of development and testing, using both our own team, plus feedback from customers Europe-wide, means the effectiveness of our baits is on the cutting edge at all times. We are proud to say, all of our Bass are produced in our own production plant so quality control is 100% assured. PLUS, here at MIVARDI, we have developed our own, unique stabilisation process utilising our R-FACTOR additive, which ensures a very long shelf life, without the need for preservatives. R-FACTOR is used across our complete ranges of boilies, pop ups and pastes.

### G50 MK2

Mivardi's flagship carp rods. After two years of strenuous development, we introduce a rod that breaks all the boundaries of its class and ranks among the absolute top in the market. Extremely powerful first-generation blank is now lighter, but it offers even greater dynamics and 30% higher shock resistance. All versions of the rod have gone through a thorough tuning of blank, test curves, and balancing. The emphasis is still on extreme performance when casting and at the same time on serious function of the blank when playing the fish. The rod is fitted with high quality SIC Ultralight Oversized guides with a diameter of 16mm at the tip and 50mm at the bottom. Blank is fully reinforced with 1K cross woven carbon. The laser sanded blank surface guarantees durability and long life span in any weather conditions. Of course you can expect the FUJI reel seat and precise manufacturing quality together with detailed output control of each piece. In the new G50 MK2 series you can find the full-cork versions as well. They are also fitted with FUJI reel seat.

Code	Length	Sections	C.W.	Transp. length (cm)
MIV-G502360M	3,60 m	2	2,75 lb	188
MIV-G502360H	3,60 m	2	3,00 lb	188
MIV-G502360SH	3,60 m	2	3,50 lb	188
MIV-G502390SH	3,90 m	2	3,50 lb	202

### G50 MK2 SHX

The SHX is a special version of the G50 MK2. It is designed for long range distance casts. This model is fitted with five guides and the reel seat is slightly moved forward. The G50 SHX MK2 offers much better control and casting accuracy. Due to the higher dynamic of the blank, however, it is possible to achieve extreme distances with less effort.

### G50 FC

Mivardi's flagship carp rods. After two years of strenuous development, we introduce a rod that breaks all the boundaries of its class and ranks among the absolute top in the market. Extremely powerful first-generation blank is now lighter, but it offers even greater dynamics and 30% higher shock resistance. All versions of the rod have gone through a thorough tuning of blank, test curves, and balancing. The emphasis is still on extreme performance when casting and at the same time on serious function of the blank when playing the fish. The rod is fitted with high quality SIC Ultralight Oversized guides with a diameter of 16mm at the tip and 50mm at the bottom. Blank is fully reinforced with 1K cross woven carbon. The laser sanded blank surface guarantees durability and long life span in any weather conditions. Of course you can expect the FUJI reel seat and precise manufacturing quality together with detailed output control of each piece. In the new G50 MK2 series you can find the full-cork versions as well. They are also fitted with FUJI reel seat. The handle is made from the highest quality cork (AAA grade). The action is identical to the models with abbreviated handle.

## Stalker FC

A luxurious series of carp rods with an extremely slim but very powerful blank. They feature low weight, great handling and superb action of the blank. They are designed for fishing at short distances, stalking, urban fishing, etc.. They are also suitable for fishing or playing the fish from the boat. Due to the short transport length they are easy to carry. The handle is made from the highest quality cork and fitted with FUJI reel seat. The 3K cross woven carbon surface perfectly fits the style of this rod. Of course the high quality SIC Ultralight guides are used as well.

Code	Length	Sections	C.W.	Transp. length (cm)
MIV-ST AFC9M	2,70 m	2	2,75 lb	141
MIV-ST AFC9H	2,70 m	2	3,00 lb	141
MIV-ST AFC10M	3,00 m	2	2,75 lb	156
MIV-ST AFC10H	3,00 m	2	3,00 lb	156

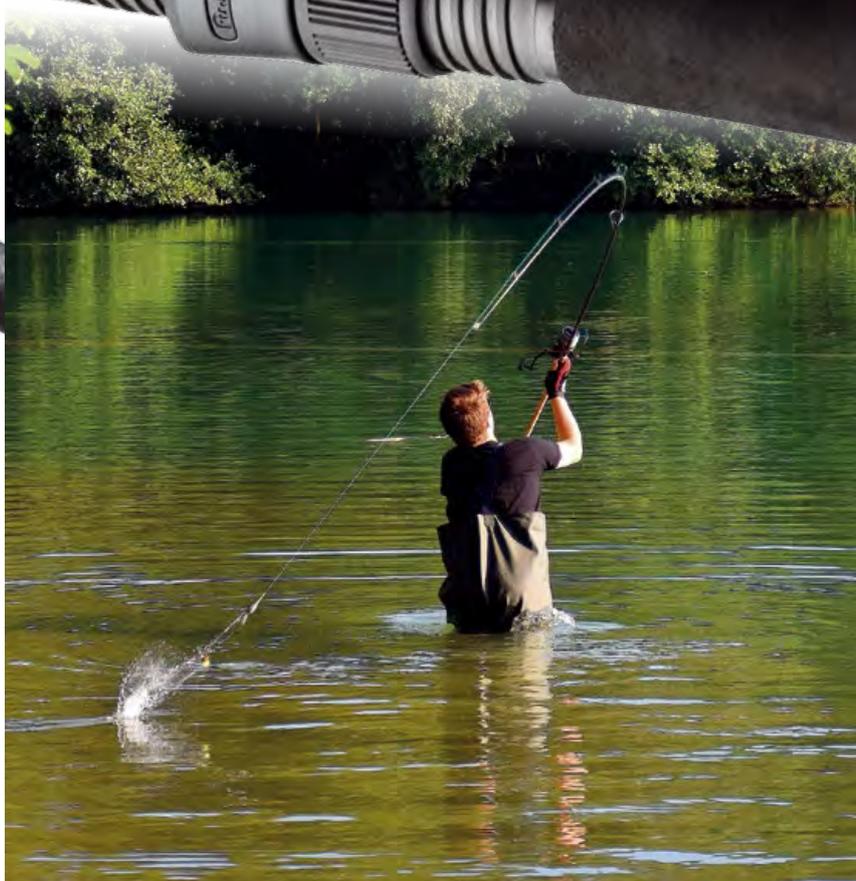

## Spotter

Precisely built rod with extraordinary strength but still very slim blank. The surface is completely reinforced by the 1K Cross Woven Carbon mesh. This rod is perfect for playing fish or dropping rigs from a boat. It is a great stalking rod as well. Thanks to the properties of the blank it has a nice casting ability and this is why this rod is a real stylish allrounder. It is fitted with the FUJI reel seat and a high quality full duplon handle.

Code	Length	Sections	C.W.	Transp. length (cm)
MIV-SPOX330L	3,30 m	2	2.50 lb	173
MIV-SPOX330M	3,30 m	2	2.75 lb	173

MIV-SPOX360H	3,60 m	2	3.00 lb	188

### Vector Carp MK2 - 2sec. / 3sec.

Replacing our very popular and well proven Vector MK1 carp rods, the Vector MK2 is a perfect combination of blank action and dynamic. Models for use with heavier leads are fitted with a 50 mm butt ring (5 plus tip ring configuration) to achieve maximum casting distances with big pit reels. Every detail of these rods, from their FUJI reel seats to their high level, SIC, oversized guides, is high quality whilst still maintaining very reasonable price.

A three section version of the Vector Carp MK2 rod, for easy transportation, yet retaining an action very close to the 2 section standard models. The manufacturing quality, components and the awesome dynamics are exactly same. The higher test curve versions are fitted with a large 50 mm butt ring for casting at long distances normally only achievable with two section rods.

Code	Length	Sections	C.W.	Transp. length (cm)

## G50 Spod MK2

A second generation of ultra-powerful spod rods designed for casting and baiting at long distances. The blank is completely reinforced with 3 K cross woven carbon for maximum durability. An optimised set of guides with a 50 mm bottom and 16 mm top ring effectively increases casting length. The reel seat is slightly moved forward for even more casting power. The G50 Spod MK2 rods allow surprisingly easy casting at the long distances even with fully loaded rockets or bait catapults.

Code	Length	Sections	C.W.	Transp. length (cm)
MIV-G50S2360EH	3,60 m	2	5,00 lb	186

## Bomber Spod

Powerful, durable, reliable and made for baiting at long distances. The blank has enough power reserve to cast fully filled spod and bait rockets easily. With a 50 mm butt ring to 16 mm tip configuration, great casting distances can be achieved.

Code	Length	Sections	C.W.	Transp. length (cm)

## Nuclear Spod

New designed, powerful spod rod, that offers a really high value for money. It is made for casting heavy spods or to be used with a bait sling. It can, of course, also be used as a marker rod as well. Similar to most (much higher priced) rods, they are fitted with a 50mm butt ring to 16mm tip ring configuration.

### C-Traveller

Telescopic carp rod with a surprisingly good action. It has a parabolic curve but still offers a sufficient speed and power for casting. All this with a durability comparable to 2 or 3 section rods. Thanks to the minimal transport length, it can be easily attached to carp backpacks / bags. It is the perfect solution if you need to minimise the dimensions of transported luggage, for example when walking on overgrown terrain.

Code	Length	Sections	C.W.	Transp. length (cm)
MIV-TRA360H	3,60 m	6	3,00 lb	102
MIV-TRA360SH	3,60 m	6	3,50 lb	102

### Nuclear Carp

Two and three section carp rods which offers durability and manufacturing quality previously only found in the highest level of rod design. Everything from the 50 mm butt ring to 16 mm tip configuration, combined with its powerful carbon blank, reinforced by spiral woven carbon tape, allow casting at long distances, yet it has a forgiving through action for playing fish of any size in the margins.

Code	Length	Sections	C.W.	Transp. length (cm)
MIV-NUCC360M2	3,60 m	2	2,75 lb	185
MIV-NUCC360H2	3,60 m	2	3,00 lb	185
MIV-NUCC390SH2	3,90 m	2	3,50 lb	202
MIV-NUCC330M3	3,30 m	3	2,75 lb	115
MIV-NUCC360M3	3,60 m	3	2,75 lb	125
MIV-NUCC360H3	3,60 m	3	3,00 lb	125
MIV-NUCC390SH3	3,90 m	3	3,50 lb	135

### Sentinel Carp

A modern designed 3 section carp rod for classic fishing conditions with a heavy method feeder or with boilie rigs. The blank is manufactured from ExHMC70/55R carbon and is reinforced by a cross winding that allows for extreme range casting. This rod utilises the same concept and design elements as higher level rods while still maintaining an economical price.

Code	Length	Sections	C.W.	Transp. length (cm)
MIV-SC360M	3,60 m	3	2,75 lb	126
MIV-SC360H	3,60 m	3	3,00 lb	126
MIV-SC360SH	3,60 m	3	3,50 lb	126
MIV-SC390SH	3,90 m	3	3,50 lb	136

### Enigma Carp

Very popular, three section carp rod. The blank is manufactured from ExHRC65 carbon keeping a slim rod diameter which is further reinforced by cross winding of twelve fibres. Thanks to its robust construction this rod can be used for various carp fishing techniques including method feeding and boilie fishing.

Code	Length	Sections	C.W.	Transp. length (cm)
MIV-ENC360MH3	3,60 m	3	2,75 lb	127
MIV-ENC360H3	3,60 m	3	3,00 lb	127
MIV-ENC390SH3	3,90 m	3	3,50 lb	137

## Professional Feeder

A feeder rod for anglers demanding the highest quality. A very slim but fast action blank made from IM9 carbon, reinforced by cross woven carbon, the Professional Feeder rod is available in both two or three sections. Carefully positioned SIC guides create a smooth action and perfect control when playing fish. This rod is complemented by a Duplon handle and is supplied with four tips.

Code	Length	Sections	C.W.	Transp. length (cm)
MIV-PRF330M2	3,30 m	2 + 4	20 - 70 g	142

MIV-PRF390H3	3,90 m	3 + 4	30 - 100 g	135

## Genesis Feeder

A heavy duty feeder rod of the highest quality, with extreme durability and a huge power reserve. This specially designed blank is reinforced by cross wound carbon tape, has over sized guides to aid in long distance casting and to perform faultlessly with heavier diameter lines. The ergonomically shaped full-cork handle ensures a comfortable grip whilst playing fish.

MIV-NIF390H	3,90 m	3 + 3	40 - 100 g	134

### Symphony Feeder

New designed feeder rod manufactured with a really light and rigid blank. It comes in all the most popular sizes and actions including a heavy and super heavy version. These models can easily cover all situations from fishing for skimmers in the small ponds to heavy feeder fishing on fast moving rivers. There are 3 tips supplied with each rod.

## Bomber Method

A strong and durable rod designed for light carp fishing. It is suitable for casting at long distances with heavy method feeders. This is also aided by large guides and a special bottom guide which improves line movement and increases the casting distance. This rod always has enough power reserves to play a larger fish.

Code	Length	Sections	C.W.	Transp. length (cm)

## Entrix Method

Rod developed for heavier method and feeder fishing. Due to the use of significantly bigger sized guides it is excellent for long distance casting. Stronger action perfectly meets the requirements of the rod for big fish and carp fishing with method feeders on rivers or lakes. Great versatility is facilitated by a special design of the blank with a short insert that allows this rod to be used in two different lengths to accommodate specific conditions at the selected location. The rod comes with 3 tips fitted with large guides.

### Enigma Feeder

A precision manufactured feeder rod with a medium action. Supplied with three calibrated tips, ergonomically shaped handle and with a smooth finish. It offers a totally new level of quality in its price bracket. A thin and fast blank manufactured from ExHRC70 carbon allows for an extremely low weight blank with an excellent action.

Code	Length	Sections	C.W.	Transp. length (cm)
MIV-ENF300M	3,00 m	2 + 3	20 - 75 g	155
MIV-ENF330M	3,30 m	3 + 3	20 - 75 g	116

MIV-ENF390SH	3,90 m	3 + 3	40 - 120 g	137

### Enigma Picker

An extremely sensitive rod for small feeder fishing or very light spinning in still waters. A slim blank manufactured from ExHMC90 carbon ensures an excellent action with a stiff lower section and sensitive top section. This rod is fitted with an ergonomically shaped handle and precisely placed light SIC guides.

Code	Length	Sections	C.W.	Transp. length (cm)
MIV-ENP240	2,40 m	2 + 3	10 - 25 g	128
MIV-ENP270	2,70 m	2 + 3	10 - 25 g	141
MIV-ENP300	3,00 m	2 + 3	10 - 25 g	156

### Magion Feeder

This entry level feeder rod is available in the most demanded sizes and casting weights. For an extremely attractive price it still offers a high quality blank that you can usually find in higher price levels. Thanks to the overall durability, this rod works well even if playing carp or other large fish. This rod comes with two tips.

Code	Length	Sections	C.W.	Transp. length (cm)
MIV-MAF330M	3,30 m	3 + 2	20 - 75 g	116
MIV-MAF360M	3,60 m	3 + 2	20 - 75 g	127
MIV-MAF360H	3,60 m	3 + 2	30 - 90 g	127
MIV-MAF390H	3,90 m	3 + 2	40 - 100 g	136

## X-Centrix Spinn

A newly designed family of precision spinning rods built on a fast and extremely light weight blank manufactured from SHMC carbon. The fast tip action of this rod is complemented by a set of lightweight guides with optimal placement. The excellent response of this blank provides perfect contact with the lure and ensures more bites are converted to landed fish. An ergonomically shaped handle with two sections of hard EVA gives a comfortable grip whilst reducing the rods overall weight.

## Avantgarde Spinn

A luxurious spinning rod with a modern style two-piece handle. This rod is intended for freshwater and light sea spinning. The rods are fitted with high quality SIC guides and an exclusive reel seat that is ergonomically designed and equipped with micro adjustment. A light and very fast blank allows for continued accurate casting for long durations without fatigue. When playing larger fish, the blank has enough power in reserve to deal with any situation.

### Imperium Spinning II

Our successful range of spinning rods, now built with an updated design, to offer an even better action. The blank is made from ExHMC85 carbon and offers a fast tip action. These rods are fitted with SIC guides for long and accurate casting. An ergonomically shaped cork handle is included with a specially designed reel seat.

### Accord Spinn

An attractively designed series of spinning rod rods with abbreviated handle. They are characterised by low weight, excellent balance and comfortable handling. They are fitted with extremely light single-foot SIC guides that do not interfere with the action of the rod. They offer excellent action and durable blank even for playing the big sized fish. The available lengths and casting weights fully cover all the important techniques of spinning - from the light drop shot fishing from the boat to the heavy spinning or casting heavy lures at longer distances from the bank.

Code	Length	Sections	C.W.	Transp. length (cm)

### Reactor Spinn

A full range of spinning rods offering fantastic value for money. A durably constructed blank made from ExHRC55 carbon excels because of its quality tip action and speed of recovery. A wide choice of lengths and test curves allows you to choose the most suitable rod for your needs. These rods are fitted with SIC guides and a cork handle with an attractive butt cap.

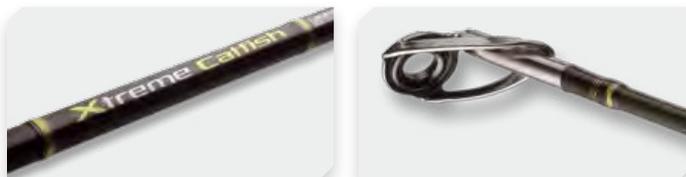

Code	Length	Sections	C.W.	Transp. length (cm)
MIV-RES180L	1,80 m	2	5 - 20 g	94
MIV-RES210L	2,10 m	2	5 - 20 g	110

MIV-RES300MH	3,00 m	2	30 - 60 g	156

## Xtreme Catfish

A well designed catfish rod on a powerful and durable blank offering increased power for uncompromising situations whilst playing large fish and suitable for fishing from the bank or from a boat. A large diameter and comfortable EVA handle ensures a reliable and comfortable grip and all components have been selected and tested to work faultlessly under extreme load conditions when playing large catfish.

Code	Length	Sections	C.W.	Transp. length (cm)
MIV-XTCF240	2,40 m	2	250 - 450 g	125
MIV-XTCF270	2,70 m	2	250 - 450 g	142
MIV-XTCF300	3,00 m	2	250 - 450 g	157

## Fanatic Catfish

A powerful catfish rod available in three lengths. Suitable for fishing from the bank as well as from a boat. The rod is manufactured from composite materials with the emphasis on both durability and its power reserve, necessary when encountering the largest of specimen fish. Fitted with heavy duty SIC guides.

Code	Length	Sections	C.W.	Transp. length (cm)
MIV-FCF240	2,40 m	2	200 - 400 g	125
MIV-FCF270	2,70 m	2	200 - 400 g	138
MIV-FCF300	3,00 m	2	200 - 400 g	158

### Enigma TeleCarp

A telescopic, multi-purpose carp rod suitable for larger sized fish. A powerful blank manufactured from ExHRC65 carbon is completely reinforced by cross winding from twelve fibres. This rod has plenty enough in reserve when casting to and playing fish. Fitted with SIC guides and a modern abbreviated handle.

Code	Length	Sections	C.W.	Transp. length (cm)
MIV-ENTC360MH	3,60 m	5	50 - 100 g	108
MIV-ENTC360H	3,60 m	5	60 - 120 g	108
MIV-ENTC390SH	3,90 m	5	80 - 150 g	108

### Insignia Tele

A complete series of multi-purpose telescopic rods. Thanks to a wide range of available lengths and test curves these rods are suitable for various situations. They can be used as a universal fishing rod for predatory fish and carp angling. They offer a short transport length, good manufacturing quality and an optimal action. SIC guides and cork handles are used as standard.

Code	Length	Sections	C.W.	Transp. length (cm)
MIV-IT21025	2,10 m	6	5 - 25 g	53
MIV-IT24025	2,40 m	7	5 - 25 g	58

### Akasa TeleCarp

A range of telescopic rods manufactured in two differing test curves. They are suitable for method feeder, carp fishing and various other fishing styles. A quality blank construction offers a surprisingly fast action while still maintaining a slim blank diameter on the lower section. These rods are fitted with a hard EVA handle, SIC guides and an orange coloured tip.

Code	Length	Sections	C.W.	Transp. length (cm)
MIV-AKTC24060	2,40 m	5	20 - 60 g	86
MIV-AKTC27060	2,70 m	5	20 - 60 g	86
MIV-AKTC30060	3,00 m	6	20 - 60 g	87
MIV-AKTC33060	3,30 m	6	20 - 60 g	87
MIV-AKTC30090	3,00 m	6	40 - 90 g	87
MIV-AKTC33090	3,30 m	6	40 - 90 g	87
MIV-AKTC36090	3,60 m	7	40 - 90 g	88

### Active TeleCarp

A telescopic rod with a universal casting weight range of 40 g – 80 g. This rod offers a good action, short transport length plus reliability and durability. This rod is an ideal choice for those anglers who want a very practical rod at the lowest possible cost.

Code	Length	Sections	C.W.	Transp. length (cm)
MIV-ATC24080	2,40 m	5	40 - 80 g	64
MIV-ATC27080	2,70 m	6	40 - 80 g	66
MIV-ATC30080	3,00 m	6	40 - 80 g	67
MIV-ATC33080	3,30 m	7	40 - 80 g	67

### Active Pole

Economic telescopic poles made from fibreglass with the addition of composite materials. The rods are suitable for small fish but they are robust enough for use with carp or larger fish. All poles are fitted with a tip connector for rapid connection of line.

Code	Length	Sections	C.W.	Transp. length (cm)
MIV-AP300	3,00 m	3	5 - 25 g	114
MIV-AP400	4,00 m	4	5 - 25 g	116
MIV-AP500	5,00 m	5	5 - 25 g	115
MIV-AP600	6,00 m	6	5 - 25 g	115

# Team MIVARDI

## Team Mivardi Match

A re-designed three section match rod of the highest grade manufactured from SHMC85/75R carbon with extraordinary casting ability. The sensitive tip provides long and accurate casting with a fixed or sliding waggler. It is suitable for medium and long distance angling for large roach, bream and carp. The rod is fitted with an ergonomically designed handle for easy grip and comfort whilst playing fish.

Code	Length	Sections	C.W.	Transp. length (cm)
MIV-TMM430	4,30 m	3	10 - 30 g	149
MIV-TMM460	4,60 m	3	10 - 30 g	159

## Superior Match

A three section match rod manufactured from high modulus carbon SHMC50 - SHMC65. The rods offers extreme quality with a fast action and an unusually low weight. The blank has plenty of torque to deal with larger species of fish.

Code	Length	Sections	C.W.	Transp. length (cm)
MIV-SM390	3,90 m	3	8 - 22 g	136
MIV-SM420	4,20 m	3	8 - 22 g	148
MIV-SM450	4,50 m	3	8 - 22 g	158

## Easy Match

These entry level match rods are manufactured from SHMC55-HRC50 carbon and have three sections. Together with an excellent price they provide a surprisingly dynamic action. High durability and blank torque allows for use with larger fish including carp.

Code	Length	Sections	C.W.	Transp. length (cm)
MIV-EAMA360	3,60 m	3	5 - 18 g	128
MIV-EAMA390	3,90 m	3	5 - 20 g	138
MIV-EAMA420	4,20 m	3	5 - 25 g	158

### Evo Xtreme

An exclusive Bolognese rod in a new design with an improved action. Designed for the most demanding anglers and competitors. A reinforced blank manufactured from SHMC60 - SHMC75 ensures a fast and rigid action whilst maintaining a sensitive tip and an extremely low weight. Therefore this Bolognese rod is suitable for longer casting with heavier floats and for use with larger fish.

Code	Length	Sections	C.W.	Transp. length (cm)
MIV-EVOX600	6,00 m	6	10 - 30 g	145
MIV-EVOX700	7,00 m	7	10 - 30 g	144

### Shangrila F3

A newly designed bolognese rod suitable for use with larger fish using heavier floats and larger diameter lines. Manufactured from high modulus carbon SHMC55 - SHMC65 and reinforced with cross winding of the carbon. Due to this unique construction a fast, rigid and strong Bolognese rod was created. The rod is fitted with a high quality reel seat and long-leg line guides.

Code	Length	Sections	C.W.	Transp. length (cm)
MIV-SHF3600	6,00 m	6	10 - 30 g	150
MIV-SHF3700	7,00 m	7	10 - 30 g	152

### Phenomena B2

A bolognese rod manufactured from SHMC55 - SHMC60 carbon in a new design with a series of improvements to the blank. The rod offers a fast action with sensitive tip and low weight combined with the finest in manufacturing quality. Suitable for fishing with fine hooklengths (from 0,09 mm) and for use with medium sized fish.

Code	Length	Sections	C.W.	Transp. length (cm)
MIV-PHB2500	5,00 m	5	10 - 20 g	148
MIV-PHB2600	6,00 m	6	10 - 20 g	149
MIV-PHB2700	7,00 m	7	10 - 20 g	153

### Perfecta

A recently designed bolognese rod with an attractive matt coated blank made from SHMC 65-70 carbon. Optimum stiffness and rigidity combined with a very low weight ensures ease of handling. This rod is a perfect choice if you want to enjoy bolognese fishing in slow or medium currents.

Code	Length	Sections	C.W.	Transp. length (cm)
MIV-PERF500	5,00 m	5	10 - 20 g	138
MIV-PERF600	6,00 m	6	10 - 20 g	139
MIV-PERF700	7,00 m	7	10 - 20 g	141

### Maniac Bolo

A re-designed model of bolognese rod with an excellent quality / price ratio and luxurious design. The rod is extremely light and offers a surprisingly fast action with a sensitive tip that is typical of much higher end rod designs. Suitable for multi-purpose use and when fishing for medium to larger sized fish with a low diameter line.

Code	Length	Sections	C.W.	Transp. length (cm)
MIV-MB500	5,00 m	5	10 - 25 g	145
MIV-MB600	6,00 m	6	10 - 25 g	147

### Spherea

A highly durable bolognese rod with a matt coated blank, manufactured from SHMC 60-50R carbon. The medium to strong-rigid action of the rod is suitable for fishing with heavy floats and has adequate power reserves for playing larger fish in moving water.

Code	Length	Sections	C.W.	Transp. length (cm)
MIV-SPHE500	5,00 m	5	10 - 40 g	138
MIV-SPHE600	6,00 m	6	10 - 40 g	139
MIV-SPHE700	7,00 m	7	10 - 40 g	141

## Supreme Bolo

A well built bolognese rod, at an economical price, with an appealing modern design including high quality long-leg SIC line guides. A well balanced blank manufactured from ExHRC75 carbon that is designed to be comfortable and light weight in those longer sessions. The rod has plenty enough torque however, for use with larger fish.

Code	Length	Sections	C.W.	Transp. length (cm)
MIV-SUB0500	5,00 m	5	5 - 25 g	127
MIV-SUB0600	6,00 m	6	5 - 25 g	127
MIV-SUB0700	7,00 m	7	5 - 25 g	129

## Predator Tele

A unique telescopic rod manufactured for predator fishing with a live bait and a float. The rod's construction is similar to that of a bolognese rod, but the blank is completely redesigned and further reinforced. The upshot of which is a rod that can easily deal with large pike and predatory fish, yet despite this strong reinforcement, the blank manufactured from ExHRC75 carbon is sufficiently lightweight to be comfortable during longer sessions.

Code	Length	Sections	C.W.	Transp. length (cm)
MIV-PRTE500	5,00 m	5	40 - 80 g	133
MIV-PRTE600	6,00 m	6	40 - 80 g	135
MIV-PRTE700	7,00 m	7	40 - 80 g	138

## Aquaris

High level telescopic poles manufactured from SHMC80/75 carbon with a slim blank diameter. Equipped with an extremely sensitive full carbon tip. Available in longer lengths whilst still maintaining a low weight and fast action for effortless casting and handling.

Code	Length	Sections	Transp. length (cm)
MIV-AQP600	6,00 m	6	131
MIV-AQP700	7,00 m	7	131
MIV-AQP800	8,00 m	7	134
MIV-AQP900	9,00 m	8	133
MIV-AQP1000	10,00 m	9	136

## Phenomena P2

These durable telescopic poles are newly designed and manufactured from SHMC55 - SHMC60. They offer a slim blank diameter, low weight and a very fast and rigid action. Suitable for use with medium to larger sized fish, they can be utilized in top level competitions or for general angling.

Code	Length	Sections	Transp. length (cm)
MIV-PH2600	6,00 m	6	142
MIV-PH2700	7,00 m	7	142
MIV-PH2800	8,00 m	7	142
MIV-PH2900	9,00 m	8	142

## Entera

A range of telescopic poles manufactured from SHMC and ExHRC carbon. These poles offer a medium action, with good sensitivity, due to the tip section being manufactured from solid carbon. This poles low weight is ideally suited to those rapid match fishing conditions whilst catching lots of smaller sized fish. This pole still has immense torque in reserve for use with larger fish.

Code	Length	Sections	Transp. length (cm)
MIV-ENTP400	4,00 m	4	142
MIV-ENTP500	5,00 m	5	142
MIV-ENTP600	6,00 m	6	142
MIV-ENTP700	7,00 m	7	142

## Alborella Rainbow II

A redesigned range of bleak whips, manufactured from SHMC55, with a specially designed anti-slip handle. This whips fast tip action was created for the angler with long term experience of angling for bleak and other small fish on a whip. These whips are extremely high quality.

Code	Length	Sections	Transp. length (cm)
MIV-AR2250	2,50 m	3	121
MIV-AR2300	3,00 m	4	121
MIV-AR2350	3,50 m	4	121
MIV-AR2400	4,00 m	5	121
MIV-AR2450	4,50 m	5	121
MIV-AR2500	5,00 m	6	121

# Team MIVARDI

## Team Mivardi **TMX 12000**

Mivardi's Flagship Pole. Fast and stiff, which also offers extraordinary resistance when fishing in strong wind or using heavy rigs on running waters. Thanks to its very low weight and perfect balance, it allows precise control and easy and accurate manipulation with your float. These properties were achieved while maintaining the overall robustness and strength of the walls. The big advantage is 100% compatibility of all sections with the other Mivardi TMX poles. This pole comes with reinforced joints (CWC system) and a special surface treatment, ensuring smoother gliding in the hands when rolling. A mini extension is supplied with the pole.

Code		Length	Sections	Transp. length (cm)
MIV-TMX1213		13,00 m	9	177
MIV-TMX12KIT5	Kit 5 sec.	6,15 m	5	160
MIV-TMX12KIT4	Kit 4 sec.	4,50 m	4	145
MIV-TMX12TIP	Original tip	-	1	67

## Team Mivardi **TMX 9000**

A high grade of long pole with a fast action and great rigidity. The pole is low in weight, has perfect balance as the centre of gravity is effectively moved rearwards. Newly developed CWC technology ensures high durability of the joints reducing abrasion. Available with a cupping kit and a special two-piece carp kit with long sections.

Code		Length	Sections	Transp. length (cm)
MIV-TMX913		13,00 m	9	177
MIV-TMX9KIT5	Kit 5 sec.	6,15 m	5	163
MIV-TMX9KIT4	Kit 4 sec.	4,50 m	4	150
MIV-TMX9TIP	Original tip	-	1	67

## Team Mivardi **TMX 7000**

Optimal position of the centre of gravity and extreme durability featured heavily in this poles evolution. Therefore, it is suitable for carp fishing with a float, for fishing with heavy floats in strong currents or in harsh conditions. For a very economical price this pole offers a fast action and a surprisingly low weight. All sections of this pole are interchangeable with other poles in this range.

Code		Length	Sections	Transp. length (cm)
MIV-TMX713		13,00 m	9	177
MIV-TMX711		11,50 m	8	177
MIV-TMX7KIT5	Kit 5 sec.	6,15 m	5	160
MIV-TMX7KIT4	Kit 4 sec.	4,50 m	4	146

## Team Mivardi **TMX 5000**

Optimal position of the center of gravity and extreme durability feature in this rods evolution. Therefore it is suitable for carp fishing with a float, for fishing with heavy floats in strong current or for harsh conditions. For a very economical price this rod offers a sufficiently fast action and a surprisingly low weight. All sections of this rod are interchangeable with other poles in this range.

Code		Length	Sections	Transp. length (cm)
MIV-TMX513		13,00 m	9	177

## Lynx

Mivardi's flagship reel. This precisely manufactured reel will satisfy even the most demanding advanced carp angler. A number of proven technologies and components are never seen in this price category and can be found only within the Mivardi range. Key features of this model include a full-titanium shaft, which is extremely lightweight and resistant to deformation. The weight is reduced further by a very powerful carbon braking system. With the quick adjustment system, (an original Mivardi design) you can control the entire working range of the brake within half a turn of the drag.

Another key feature is the super slow oscillation system with accurate line lay. This ensures level line winding, which contributes to longer casting distances. The use of ten shielded stainless bearings guarantees complete smooth running and with the heavy duty gear, they help retrieve heavy loads even from long distances. The large spool diameter helps with casting at extreme distances due to the retrieve of line per turn of the handle. This reel comes with two CNC machined spools (sizes 8000 and 10000), there is also a extreme capacity spool available separately (size 12000).

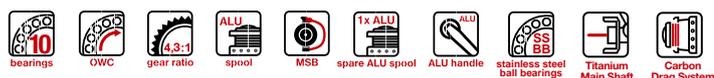

Code	Size	Ball bearings	Gear ratio	Capacity
MIV-RLYNX	8000 / 10000	9 + 1	4,3 : 1	0,30 / 480
MIV-RLYNXS080	Spare spool 8000	-	-	0,30 / 480
MIV-RLYNXS100	Spare spool 10000	-	-	0,30 / 800
MIV-RLYNXS120	Spare spool 12000	-	-	0,30 / 950

## Lynx LX

A reliable technology and perfect functionality in a lightweight and compact body. This is a brief characteristic of the Lynx LX. Technically, it is derived from the larger LYNX reel and ranks among the top class of Mivardi reels. It is equipped with a titanium axis and a carbon brake system with fast and accurate adjustment of the front drag knob. Despite the compact size of the spool, this reel has a large capacity when using a deep spool. Shallow spool suitable for casting is also included. Slow oscillation ensures precise line spooling. High quality of used materials and internal components results in smooth spooling, high reliability and long service life.

Code	Size	Ball bearings	Gear ratio	Capacity
MIV-RLYNXLX	5000 / 7000	9 + 1	4,3 : 1	0,30 / 545
MIV-RLYNXLXS50	Spare spool 5000	-	-	0,30 / 280
MIV-RLYNXLXS70	Spare spool 7000	-	-	0,30 / 545

## Panther SHX

This uncompromising reel is unrivalled for build quality and is designed for extreme range fishing. Developed for the high demands of today's modern carp anglers. A slow oscillation ensures a superb line lay for optimal achievable casting distances. A titanium coated line roller prevents the line from twisting. This reel is supplied with 2 spools, an extra deep spool (size 10000) or the optional higher capacity spool (size 12000) with a capacity of 0.30 mm / 800 m. This reel is fitted with 12 double shielded stainless steel bearings and an oversized one way clutch together with a double reinforced stainless steel shaft. The CNC machined metal handle has a comfortable and ergonomically designed large, easy rubber grip. The spools weight is lowered by large holes machined around its periphery. The precise adjustable drag with carbon washers (F.A.C.D.) and unique water sealing (W.R.S) ensures for a precise and reliable drag function even in the harshest of conditions.

Code	Size	Ball bearings	Gear ratio	Capacity
MIV-RPANSHX	8000 / 10000	12 + 1	4,6 : 1	0,30 / 800

MIV-RPANSXHS120	Spare spool 12000	-	-	0,30 / 900

## Panther LX

A compact sized and lightweight model in the family of Panther reels. With fast drag adjustment (F.A.C.D.) and water resistant system (W.R.S.) these top end spec reels defy their price point. As with all the Panther range key features include the heavy duty main shaft manufactured from stainless steel, double-shielded stainless steel ball bearings, titanium coated anti-twist line roller, CNC machined metal handle with oversized, easy rubber grip. A second metal spool with increased capacity is also supplied.

Code	Size	Ball bearings	Gear ratio	Capacity
MIV-RPANLX	6000 / 7000	12 + 1	4,6 : 1	0,30 / 600 m

### Panther FS

Our premium level reel for those who prefer a free spool system. An advanced construction together with high quality materials creates a reel that is exceptionally reliable. The long spool with a large diameter has a specially designed spool edge optimized for perfect line release whilst casting. The water-resistant spool (W.R.S.) protects the drag mechanism against the harmful effects of water. The heavy duty main shaft is machined from stainless steel. The worm drive shaft has a slow oscillation that ensures exceptional line lay. The reel is precise and smooth because we have used twelve double-shielded stainless steel ball bearings and a titanium coated anti-twist line roller. The CNC machined metal handle has an oversized rubber grip. This reel is supplied with an 2nd metal spare spool as standard.

Code	Size	Ball bearings	Gear ratio	Capacity
MIV-RPANFS	6000 / 7000	12 + 1	4,6 : 1	0,30 / 340
MIV-RPANFS060	Spare spool 6000	-	-	0,30 / 340
MIV-RPANFS070	Spare spool 7000	-	-	0,30 / 510

### Maximus

An excellent big pit reel with front drag, designed for big carp or catfish. The reel is fitted with eleven stainless steel ball bearings, a heavy-duty drive gear, a worm shaft and a CNC machined metal handle for maximum power transmission when retrieving line. The body is manufactured from a hard graphite alloy. A special line roller prevents the line from twisting and a sensitive front drag with micro adjustment. Supplied with two long metal spools as standard.

Code	Size	Ball bearings	Gear ratio	Capacity
MIV-RMAX	8000 / 12000	10 + 1	4,5 : 1	0,30 / 370
MIV-RMAXS080	Spare spool 8000	-	-	0,30 / 370
MIV-RMAXS120	Spare spool 12000	-	-	0,30 / 560

**NEW**

### Omicron LX

Compact reel for light carp fishing and combination with stalker rods. At a very reasonable price, it offers reliability, low weight, smooth running. It benefits from the use of quality materials and components. The rigid and solid graphite alloy body is fitted with a stainless steel worm shaft and nine shielded stainless steel bearings. The sensitive front drag is equipped with a quick adjustment system. A shallow spare spool with reduced capacity for fishing from the bank is available for this reel (supplied separately).

Code	Size	Ball bearings	Gear ratio	Capacity
M-ROMILX	5000 / 6000	8 + 1	5,1 : 1	0,30 / 260
M-ROMILXSS5000	Spare spool 5000	-	-	0,30 / 260
M-ROMILXSS6000	Spare spool 6000	-	-	0,30 / 360

### Omicron

Robust, large-capacity reel for long distance fishing. It is a perfect choice for all carp anglers who are looking for a fully featured, large, serious quality and reliable reel in a lower price range. The solid and durable body made from graphite alloy is fitted with a massive worm gear and nine shielded stainless steel bearings. The braking system allows a very fast and precise adjustment within a half turn of the front nut. The large diameter spools provide great line retrieve (more than 1m) per one turn of the handle. The eccentric handle knob ensures an extremely stable and comfortable grip. There are the spare spools available in three different capacities from shallow to extremely deep (supplied separately).

Code	Size	Ball bearings	Gear ratio	Capacity
MIV-ROMI	10000	8 + 1	4,5 : 1	0,30 / 720
M-ROMISS6000	Spare spool 6000	-	-	0,30 / 270
M-ROMISS10000	Spare spool 10000	-	-	0,30 / 720
M-ROMISS12000	Spare spool 12000	-	-	0,30 / 750

### Omicron FS

Robust, large-capacity reel with the free spool system suitable for long distance fishing. It is a perfect choice for all carp anglers who are looking for a fully featured, large, serious quality and reliable reel in a lower price range. The solid and durable body made from graphite alloy is fitted with a massive worm gear and nine shielded stainless steel bearings. The braking system allows a very fast and precise adjustment within a half turn of the front nut. The large diameter spools provide great line retrieve (more than 1m) per one turn of the handle. The eccentric handle knob ensures an extremely stable and comfortable grip. There are the spare spools available in three different capacities from shallow to extremely deep (supplied separately).

Code	Size	Ball bearings	Gear ratio	Capacity
MIV-ROMIFS	10000	8 + 1	4,5 : 1	0,30 / 720
M-ROMISS6000	Spare spool 6000	-	-	0,30 / 270
M-ROMISS10000	Spare spool 10000	-	-	0,30 / 720
M-ROMISS12000	Spare spool 12000	-	-	0,30 / 750

## Kappa

Free spool reel with high level manufacturing standards and mechanical quality. It is available in many sizes starting from compact versions suitable method feeding up to large and heavy duty models made for carp fishing at long distances. The front drag and running drag are very sensitive and this reel has 10 ball bearings and durable gear system for perfect oscillation as standard.

Code	Size	Ball bearings	Gear ratio	Capacity
M-RKAP40	4000	10 + 1	5,2 : 1	0,25 / 190
M-RKAP50	5000	10 + 1	5,2 : 1	0,30 / 280
M-RKAP60	6000	10 + 1	5,2 : 1	0,30 / 350
M-RKAP70	7000	10 + 1	5,2 : 1	0,30 / 550
M-RKAP80	8000	10 + 1	5,2 : 1	0,30 / 775

## Bandit

A robust large spooled reel for catfish, carp or saltwater fishing. The reel offers more features and greater performance than any other reel in the medium quality price bracket. Fitted with six covered ball bearings that are well suited for saltwater fishing. A CNC machined metal handle, precise front drag, heavy duty drive gear and a metal spool ensure high durability and long life even in extreme conditions.

Code	Size	Ball bearings	Gear ratio	Capacity
MIV-RBAN80	8000	5 + 1	4,5 : 1	0,30 / 540

### Delta

Model of the reel with free spool. It has a compact size and very strong graphite body. It is fitted with a computer-balanced rotor and seven ball bearings for smooth function. The CNC machined metal spool in two-tone design is lightened by elongated holes and it is suitable for long distance casting. The die cast metal handle in the body colour has a large sized knob for a comfortable grip. Of course, there is a good quality drag system with a minimal rear free spool knob and responsive front drag.

Code	Size	Ball bearings	Gear ratio	Capacity
MIV-RDEL40	4000	6 + 1	5,2 : 1	0,25 / 260
MIV-RDEL50	5000	6 + 1	5,2 : 1	0,30 / 280
MIV-RDEL60	6000	6 + 1	5,2 : 1	0,30 / 360

### Gamma

Free spool reel with a light and compact graphite body. It is fitted with seven ball bearings for smooth spooling and a computer-balanced rotor with an anti-twist line roller. The CNC machined metal spool helps to cast at longer distances. A carefully developed drag system allows for more sensitive adjustment and improved fish control.

Code	Size	Ball bearings	Gear ratio	Capacity
MIV-RGAM40	4000	6 + 1	5,2 : 1	0,25 / 260
MIV-RGAM50	5000	6 + 1	5,2 : 1	0,30 / 280
MIV-RGAM60	6000	6 + 1	5,2 : 1	0,30 / 360

## Daemon

Luxury high-speed reel with a precise front drag for use with match or feeder rods. Very light graphite body together with a super-fast line retrieval rate. The two colour, fully anodised, aluminium spool helps to keep down the total weight and this reel comes with a spare aluminium spool in the box.

Code	Size	Ball bearings	Gear ratio	Capacity
MIV-RDAE	4000	9 + 1	6,0 : 1	0,18 / 210

## Turbo FD

This high-speed reel was developed for match and float anglers. Thanks to the 6.2:1 gear ratio and optimal size of the spool, it offers a very fast line retrieval and extremely low weight. It is fitted with a precise front drag with an extremely sensitive adjustment. Our M-STROKE system brings an optimal retrieval and line lay and the double handle ensures stability when retrieving rapidly.

Code	Size	Ball bearings	Gear ratio	Capacity
MIV-RTUR35F	3500	6 + 1	6,2 : 1	0,18 / 150

## Marvelis

A precisely made free spool reel that provides a unique combination of high technology and classically shaped medium sized body. The reel is fitted with ten ball bearings, reinforced main shaft and lightweight metal spool. A spare metal spool is supplied with this reel.

Code	Size	Ball bearings	Gear ratio	Capacity
MIV-RMAR	6500	9 + 1	4,8 : 1	0,30 / 460

## Methodix

Medium size reel with light and strong graphite body, precisely balanced double handle and computer-balanced rotor. It is fitted with eight ball bearings, an anti-twist roller and CNC machined spool for long casting. This reel is perfect for method and feeder fishing. A spare spool is included.

Code	Size	Ball bearings	Gear ratio	Capacity
MIV-RMET40	4000	7 + 1	5,2 : 1	0,25 / 260
MIV-RMET50	5000	7 + 1	5,2 : 2	0,30 / 280

## Quanta

A premium level, ultra light bodied reel with a completely new build, incorporating high-grade drive gears. Seven ball bearings and one precision one-way roller bearing on the rotor ensure a very smooth spool operation under load conditions. A precise front drag with micro adjustment highlights the superb operation and reliability of this reel.

Code	Size	Ball bearings	Gear ratio	Capacity
MIV-RQUAN20	2000	7 + 1	5,0 : 1	0,18 / 300
MIV-RQUAN30	3000	7 + 1	5,0 : 1	0,18 / 400
MIV-RQUAN40	4000	7 + 1	5,5 : 1	0,20 / 420

## Hercules BR / RD

Series of reels with CNC machined metal spool lightened by the holes and the lightweight graphite body. They are equipped with a strong graphite handle and five ball bearings including a one-way clutch for an instant anti-reverse. The computer-balanced rotor is fitted with an anti-twist line roller. The drag system allows very fine adjustment. One spare spool is included. In the Hercules series you will find a model with a free spool system (model BR) and a reel with a rear drag (model RD).

Code	Size	Ball bearings	Gear ratio	Capacity
MIV-RHER30B	3000	4 + 1	5,2 : 1	0,25 / 250
MIV-RHER40B	4000	4 + 1	5,2 : 1	0,25 / 290

## CamoCODE

Luxurious landing net that meets the most demanding requirements for functionality, quality and design. It's uniquely designed three section 9ft handle allows you to select the length of the landing net according to the fishing conditions. Both the arms and the pole are made from carbon fibre and are reinforced with 3K cross wave carbon along the full length. Even at maximum length, the pole and arms remain very stiff and the landing net is still perfectly manageable and surprisingly light. The CNC machined central block and arm spigot joints guarantee maximum durability and long life. The strong, fast-drying mesh made from polyester fibres is 100% fish friendly and it can be easily attached to the handle using the attached clip. The camouflage mesh design emphasises the overall uniqueness of this landing net.

Code	Length	Size
M-LNCCSET	2,65 m	100 x 100 x 100 cm

### Spare mesh

Code	Length	Size
M-LNCCSM	-	100 x 100 x 100 cm

## Executive MK2

High-quality landing net with robust construction and fish friendly quick-drying mesh. The milled center block and the stainless steel spigot joints on the arms guarantee uncompromising quality and durability. This landing net has excellent stiffness due to the carbon arms and the two-section reinforced carbon handle. All this while maintaining a low weight.

Code	Length	Size
M-LNEXMK2SET	1,80 m	100 x 100 x 100 cm

### Spare mesh

Code	Length	Size
M-LNEXMK2SM	-	100 x 100 x 100 cm

**LevelM**

A robust, lightweight and durable landing net with a spreader block manufactured from high tensile strength graphite alloy with reinforced carbon arms. Available in two sizes. Extremely light weight mesh is fish friendly and ensures ease of movement in the water and dries rapidly. The set comes with the two-section pole made from carbon fibre.

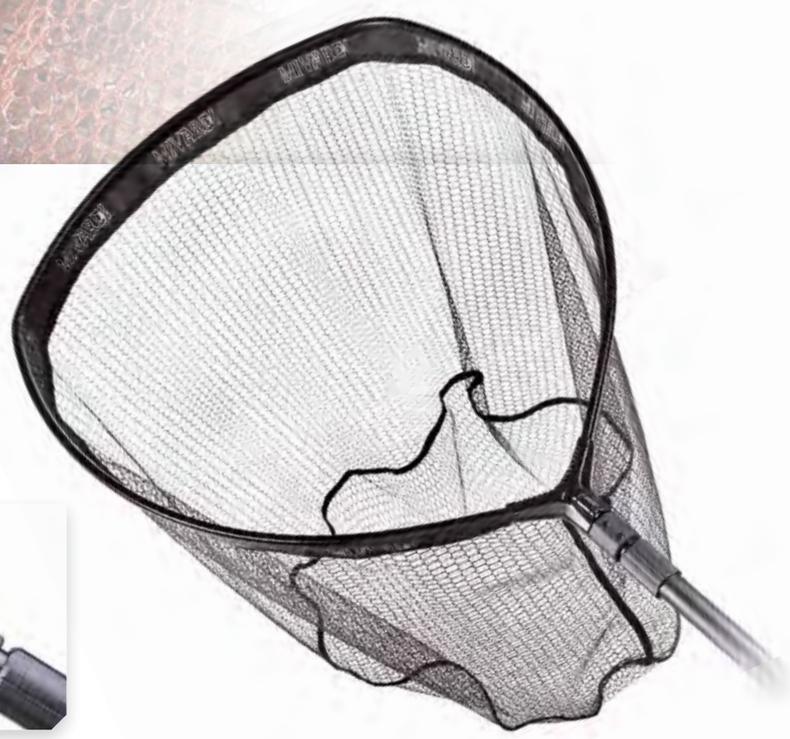

Code	Size
M-LNLM40SET	net + handle Professional Twin
M-LNLM35SET	net + handle Professional Twin

**Hardcore**

An uncompromising and heavy duty landing net with solid frame and detachable full-metal handle. Perfect when fishing at weedy waters where you may need to net fish and weed together. The durable rubber coated mesh dries quickly, doesn't absorb smells and a two section handle allows the length to be adjusted easily.

Code	Length	Size
M-LNHC	2,5 m	80 x 70 x 60 cm

## Landing net Executive X-light

A luxurious carp landing net with one meter long arms, manufactured from reinforced carbon. The durable spreader block is CNC machined from stainless steel. It is supplied with a fish-friendly and extremely light mesh in an olive green colour.

		Spare mesh	
Code	Size	Code	Size
M-LNEXX	100 x 100 x 100 cm	M-LNEXXSM	100 x 100 x 100 cm

## Landing net LevelM

A robust, lightweight and durable landing net with a spreader block manufactured from high tensile strength graphite alloy and with reinforced carbon arms. Available in two sizes. Extremely light weight mesh is fish friendly and ensures ease of movement in the water and dries rapidly.

Code	Size
M-LNLM40	100 x 100 x 95 cm
M-LNLM35	90 x 90 x 90 cm

## Landing net Carp Specialist MK2

A large landing net for carp angling that is supplied with a heavy duty spreader block and light but reinforced composite arms. The fast drying mesh, in a new dual-colour, is designed for effortless manipulation in the water. The size of this net is sufficient for the largest of fish.

Code	Size
M-CSMK2	100 x 100 x 100 cm

### Vario

A unique and rugged telescopic landing net handle, adjustable in length. It is manufactured from ExHMC carbon and is specially designed for carp fishing in varied conditions. Easy to transport in its closed position and the handle has similar strength as the other high level carp net handles.

Code	Length	Sections	Transp. length (cm)
MIV-VHLN180	1,80 m	2	106 cm
MIV-VHLN300	3,00 m	2	180 cm

### New Dynasty / New Dynasty Twin

An extremely thin, rigid and lightweight landing net handle manufactured from ExHMC carbon fibre with a heavy duty screw mechanism. Available as one section or two section „Twin“ version.

Code	Length	Sections	Transp. length (cm)
MIV-LNHND	1,80 m	1	180 cm
MIV-LNHNDT	1,80 m	2	98 cm

### Professional / Professional Twin

A strong, durable and lightweight landing net handle manufactured from high resistance carbon fibre. Available as one section or two section „twin“ version.

Code	Length	Sections	Transp. length (cm)
MIV-LNHPR	1,80 m	1	180 cm
MIV-LNHPRT	1,80 m	2	98 cm

### Extreme Twin

A heavy duty two section landing net handle manufactured from ExHRC carbon. It is both rigid and durable.

Code	Length	Sections	Transp. length (cm)
MIV-LNHEXV2T	1,80 m	2	98 cm

### Premium Twin

A reinforced net handle manufactured from a composite material. Thanks to its 2 piece construction it's easy to transport and effortless to handle and it's ideal for boat use.

Code	Length	Sections	Transp. length (cm)
MIV-LNHPRET	1,80 m	2	98 cm

### Easy

A basic carp landing net handle manufactured from reinforced glass fibre for reduced weight.

Code	Length	Sections	Transp. length (cm)
MIV-LNHEA180	1,80 m	1	180 cm

## Metal Pro

An exclusive range of folding landing nets constructed from anodized aluminium and including a patented folding mechanism manufactured from a high specification plastic material which is very durable. The net is fitted with a new type of fast drying MnM mesh, manufactured from nanofibers, that do not absorb water.

Code	Length	Sections	Size
M-LNMPR2170	2.10 m	3	70 x 70 cm
M-LNMPR2370	2.30 m	3	70 x 70 cm
M-LNMPR2570	2.50 m	3	70 x 70 cm

## Metal NEW

A newly innovated model of a very successful landing net with a unique MIVARDI spreader block. Thanks to its shape and design quality, it allows for a faster and safer breakdown of the net. The landing net is fitted with reinforced arms and a new fast-drying mesh in a dual colour design.

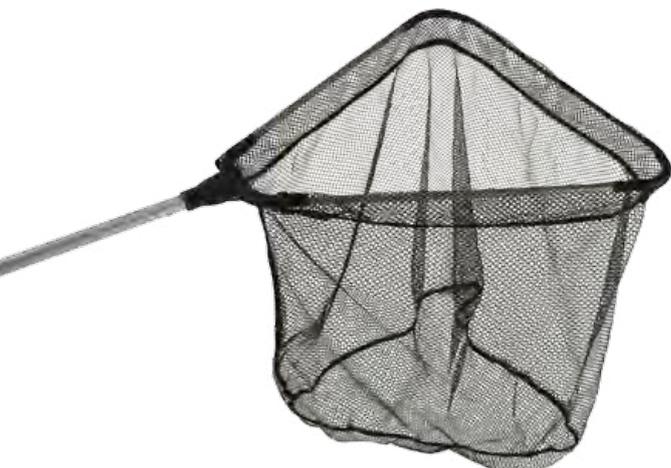

Code	Length	Sections	Size
M-POMEN1560	1,50 m	2	60 x 60 x 50 cm
M-POMEN1860	1,80 m	3	60 x 60 x 50 cm
M-POMEN2060	2,00 m	3	60 x 60 x 50 cm
M-POMEN2070	2,00 m	3	70 x 70 x 50 cm
M-POMEN2265	2,20 m	3	65 x 65 x 50 cm
M-POMEN2570	2,50 m	3	70 x 70 x 55 cm
M-POMEN2270	2,20 m	3	70 x 70 x 55 cm
M-POMEN2580	2,50 m	3	80 x 80 x 60 cm

## Eco

Simple, rapid folding landing nets with a newly developed spreader block manufactured from an extremely light and durable plastic. Reinforced arms and a strong telescopic handle are supplied. These landing nets offer superb durability and great value for money.

Code	Length	Sections	Size
M-POECO15	1,50 m	2	60 x 60 x 50 cm
M-POECO18	1,80 m	3	60 x 60 x 50 cm
M-POECO21	2,10 m	3	60 x 60 x 50 cm
M-POECO24	2,40 m	3	65 x 65 x 50 cm

### Speedy Nano

A landing net with a short handle and an ultra-light frame manufactured from anodized aluminium. Fitted with MnM zero water absorption mesh utilising nanofiber technology.

Code	Size
M-LNSPNS	45 x 35 cm
M-LNSPNL	50 x 40 cm

### Speedy

A landing net with a short and well-shaped handle fitted with an elastic loop, perfect for wading anglers or when spinning from the water's edge.

Code	Size
M-SPLN	50 x 40 x 30 cm

### Folding Nano L

A carefully designed landing net for match or feeder fishing. Once the net is unscrewed from the net handle it allows for rapid folding and minimal size for transporting. Fitted with MnM mesh, made from Nanofibers, that exhibits zero water absorption.

Code	Size
M-LNFNL	55 x 45 cm

### Folding Match LN1 / LN2

A landing net for feeder or match fishing that allows for rapid breakdown and simple transportation. The spreader block is manufactured from robust, heavy duty plastic.

Code	Size
M-FMLN1	56 x 58 x 32 cm
M-FMLN2	51 x 53 x 30 cm

### Carp Match

A landing net designed for carp fishing with a feeder or match rod and suitable for use with larger fish. A new construction of the spreader block helps to spread the load when lifting larger fish from the water.

Code	Size
M-POCM6052	60 x 52 x 30 cm

### Champion LN Rubber

A landingnet with a light weight rubber coated mesh and nylon edge for easier manipulation in the water.

Code	Size
M-CHLNR	50 x 45 x 30 cm

### Competition

This is the most popular model of MIVARDI landing nets. It offers an excellent quality and value for money. The net has a wider mesh on the sides to ensure that the net moves freely in the water and the denser mesh on the lower section prevents tangling.

Code	Size
M-POMAC4555	45 x 55 x 25 cm

### Rubber 1

A landing net with a rubber coated, fast drying, hook resistant mesh. This model has a fine 4mm x 4mm bottom mesh and a 6mm x 6mm side mesh, suitable for rapid landing of small and medium sized fish. Netting the fish over the edge of the landing net is particularly easy as the mesh is fitted inside the oval frame.

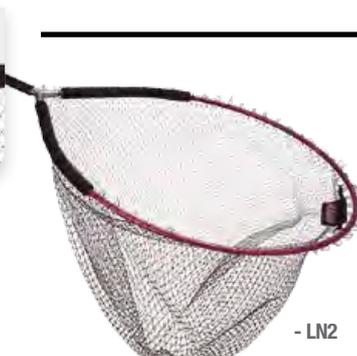

Code	Size
M-RU14840	48 x 40 x 25 cm

### Rubber 2

A landing net with a fast drying, rubber coated mesh, that is also hook resistant. The net has a 6mm x 6mm bottom mesh and 8mm x 8mm side mesh. The size of this landing net is universal and can be used for either feeder or match fishing.

Code	Size
M-RU215045	50 x 45 x 25 cm

### Team Mivardi LN1 / LN2

Extremely light weight landing nets with a special mesh made from nylon monofilament. The LN2 model is fitted with floating foam.

Code	Size
M-TMLN1	45 x 55 x 25 cm
M-TMLN2	45 x 55 x 25 cm

# Team MIVARDI

### Team Mivardi

A high quality, four section, landing net handle manufactured from ExHMC carbon fibre. It is the best choice for competitors and enthusiastic match or feeder anglers who are looking for a long, light but extremely strong handle.

Code	Length	Sections	Transp. length (cm)
MIV-TMLNH440	4,40 m	4	106 cm

### Magnum

An extremely durable landing net handle manufactured from high modulus and high resistance carbon fibres. The screw thread fittings, to attach your landing net head, are on both first and second sections.

Code	Length	Sections	Transp. length (cm)
MIV-MALN330	3,30 m	3	144 cm
MIV-MALN460	4,60 m	4	147 cm

### Xcelsion

A handle manufactured from ExHMC carbon fibre. The handle is extremely light and provides exceptional handling. The handle is of the highest quality and equal to that of all the best match handles. Available in all popular lengths.

Code	Length	Sections	Transp. length (cm)
MIV-XCLN350	3,50 m	3	133 cm
MIV-XCLN440	4,40 m	4	121 cm

### Powerstick

A net handle manufactured from composite materials, in differing lengths, at exceptional value for money.

Code	Length	Sections	Transp. length (cm)
MIV-PSLN200	2,00 m	2	108 cm
MIV-PSLN300	3,00 m	3	119 cm
MIV-PSLN400	4,00 m	4	119 cm

### Power Net

The result of a combination of technological innovations across most popular MIVARDI net handles, these telescopic units are suitable for use with carp or other specimen fish.

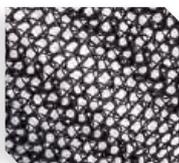

Code	Length	Sections	Transp. length (cm)
MIV-PN300	3,00 m	3	101 cm

### Keepnet TMX Round 400 / Square 400

Keepnets for match and feeder angling. Durable rings in two sizes together with inner handles allow easy access to the fish at the bottom part of the net. The heavy duty covers around the rings provide a highest protection to the mesh.

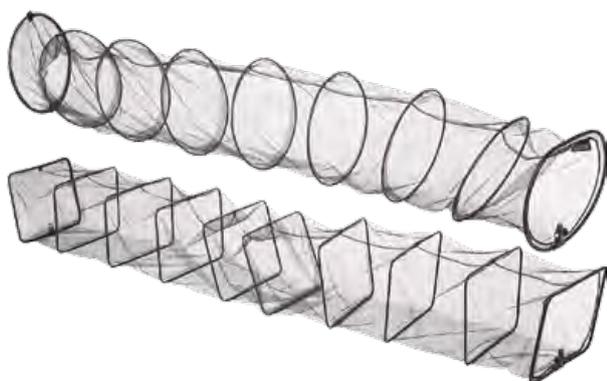

Code	Length	Size
M-KNTMXR4	4,00 m	55 cm
M-KNTMXS4	4,00 m	55 x 45 cm

**Team MIVARDI**

### Keepnet Easy Round / Square

A keepnet for match and feeder angling with square (Easy square) or round (Easy round) shaped rings and rapid-drying mesh.

Code	Length	Size
M-KNES	3,50 m	50 x 45 cm

Code	Length	Diameter
M-KNER	3,00 m	45 cm

### Keepnet Match Pro Square / Round

Keepnets for match and feeder angling. A new type of the rapid-drying mesh protects the fish and is also extremely tear and abrasion resistant.

Code	Length	Size
M-KNMP54	4,00 m	50 x 45 cm

Code	Length	Diameter
M-KNMPR4	4,00 m	50 cm

### Keepnet Classic / Classic MM

A newly designed version of a classic keepnet with a fine and rapid-drying mesh.

Code	Rings	Size
M-VECL3	3	65 x 35 cm
M-VECL4	4	85 x 35 cm
M-KNCLMM3	3	65 x 35 cm
M-KNCLMM4	4	85 x 35 cm

### Keepnet Big Carp Soft

A keepnet with a large diameter and a very fine mesh. Suitable for larger fish.

Code	Rings	Size
M-KNBCS	4	130 x 45 cm

### Keepnet Super Simple

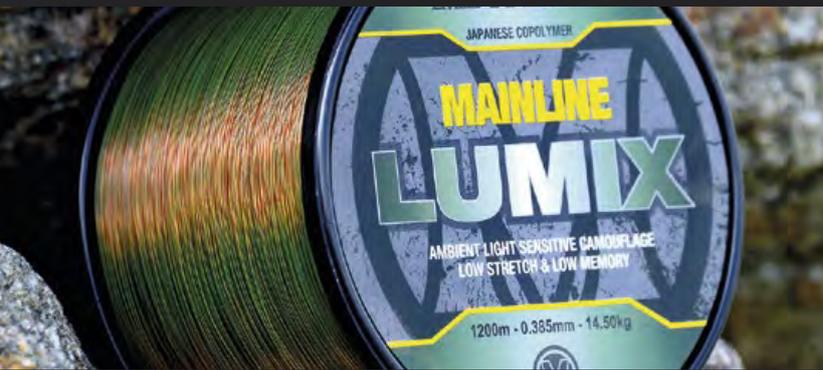

A very simple and reasonably priced keepnet with soft rings and a fine, rapid-drying mesh.

Code	Length	Diameter
M-KNSS100	1,00 m	40 cm
M-KNSS150	1,50 m	40 cm
M-KNSS200	2,00 m	40 cm
M-KNSS250	2,50 m	40 cm

## CamoCODE Mainline

Top class carp fishing line. Its variable colouring in four different shades ensures perfect blending over different terrains. It is characterised by great flexibility and minimal twist. Very low elasticity is suitable for long distance fishing. High abrasion resistance will increase your chances if you are fishing in difficult situations such as snags.

Code	Diameter	Strength	Length

MIV-LCM12038	0,385 mm	14,5 kg	1200 m

## Lumix Mainline

A unique line with special camouflage technology. Its colour varies depending on the intensity of ambient light. The mechanical properties will satisfy even the most demanding requirements when fishing for carp. Minimal elongation, extreme abrasion resistance, almost zero memory and perfectly smooth surface make this line an ideal choice for casting but it can be successfully used when fishing using a boat.

Code	Diameter	Strength	Length
MIV-LLM6025	0,255 mm	6,45 kg	600 m
MIV-LLM6028	0,285 mm	8,65 kg	600 m

MIV-LLM12038	0,385 mm	14,5 kg	1200 m

## Carbon Carp

Premium quality line for carp fishing specialists. Thanks to its extreme "shock strength" this line is suitable for long range casting without, necessarily, needing a shock leader. It's perfect knot and tensile strength together with excellent abrasion resistance really set this line apart and its dark colour helps to minimise line visibility whilst on the lakebed.

Code	Diameter	Strength	Length
MIV-LCC3523	0,235 mm	6,30 kg	350 m
MIV-LCC3526	0,260 mm	7,50 kg	350 m
MIV-LCC3528	0,285 mm	9,40 kg	350 m
MIV-LCC3532	0,320 mm	10,90 kg	350 m
MIV-LCC3535	0,350 mm	12,50 kg	350 m
MIV-LCC3538	0,380 mm	14,60 kg	350 m
MIV-LCC6023	0,235 mm	6,30 kg	600 m
MIV-LCC6026	0,260 mm	7,50 kg	600 m
MIV-LCC6028	0,285 mm	9,40 kg	600 m
MIV-LCC6032	0,320 mm	10,90 kg	600 m
MIV-LCC6035	0,350 mm	12,50 kg	600 m
MIV-LCC6038	0,380 mm	14,60 kg	600 m

### Shocker

Special, high-abrasion-resistant shock leader. It is supple, almost invisible and sinks well. It takes the load of casting well by distributing the shock throughout the leader. The small knot on the thin end of the shock leader glides smoothly and easily through the guides and significantly prolongs the casting distance.

Code	Diameter	Strength	Length
MIV-LSTL2647	0.26 - 0.47 mm	5.35 kg	5 x 12 m
MIV-LSTL2847	0.28 - 0.47 mm	6.95 kg	5 x 12 m
MIV-LSTL3047	0.30 - 0.47 mm	8.65 kg	5 x 12 m
MIV-LSTL2857	0.28 - 0.57 mm	6.95 kg	5 x 15 m
MIV-LSTL3057	0.30 - 0.57 mm	8.65 kg	5 x 15 m

Abrasion Protection Layer

High Density Molecular Structure

Easy Sliding Layer

### Zig-Link

A perfectly clear floating line with a completely smooth surface suitable for making zig rigs. Its suppleness ensures a natural presentation of the bait. Extraordinary tensile strength and knot strength increase your chances of landing large fish even when using this line in the thin diameters.

Code	Diameter	Strength	Length
MIV-LZL1023	0.230 mm	6.30 kg	100 m
MIV-LZL1025	0.255 mm	7.50 kg	100 m
MIV-LZL1028	0.285 mm	9.25 kg	100 m
MIV-LZL1030	0.305 mm	10.40 kg	100 m

Abrasion Protection Layer

Constant Diameter Technology

High Density Molecular Structure

Easy Sliding Layer

### Shock & Shield

Maximum resistance snag leader manufactured from 100% fluorocarbon with increased strength. It is also available in larger diameters for use in extremely rough conditions, mussel beds, etc.

Abrasion Protection Layer

Constant Diameter Technology

High Density Molecular Structure

Code	Diameter	Strength	Length
MIV-LSSH0342	0.420 mm	15,45 kg	30 m
MIV-LSSH0350	0.500 mm	19,75 kg	30 m

MIV-LSSH0280	0.800 mm	48,65 kg	20 m

AND SHIELD  
FIELD  
100% FLUOROCARBON.  
ABRASION RESISTANCE.  
PERFECT SINKING

All Mivardi lines use some unique technological solutions that, in combination with high-quality Japanese polymers, allow for the lines to reach the highest strength whilst maintaining all other required characteristics.

### HDMS HIGH DENSITY MOLECULAR STRUCTURE

 Perfect tension and knot strength and also a number of further mechanical features are affected by the molecular structure of the line. Thanks to the special composition of materials used a high molecular density in circular levels is reached during the process of polymerization under extreme temperature. Thanks to this procedure the Mivardi lines can offer excellent characteristics.

### DSS DIRECT SPOOLING SYSTEM

 The overall quality of line is especially affected whilst spooling during the production process. When the line is spooled in a standard manner it is always slightly twisted and laid with a variable tension. The Mivardi lines are spooled using the Direct Spooling System which ensures for perfectly laid parallel layers. This process ensures 100% quality is preserved until you load the line onto your reel.

### CDT CONSTANT DIAMETER TECHNOLOGY

 A very common problem of some lines is their unequal diameter. These deviations are caused by an unequal elasticity of differing line components and can cause an overall decrease of the line strength. All Mivardi lines use a technology that ensures a constant diameter throughout the spools the entire length. Thereby all parts of the line are equally pressed under tension and the line achieves better overall tensile strength.

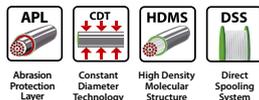

### APL ABRASION PROTECTION LAYER

 Thanks to the unique manufacturing process there is a very compact and smooth layer on the line surface which expressively improves the mechanical resistance of the line. The difference in durability can be easily recognized by anglers. The APL technology also helps the knot resistance of the line and thereby increases the overall line strength.

### Carbon Feeder

A premium level, dark coloured line for feeder fishing specialists, characterised by high abrasion resistance fluorocarbon and high tensile strength in low diameters.

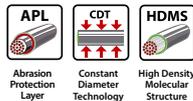

Code	Diameter	Strength	Length
MIV-LCF2014	0,145 mm	2,18 kg	200 m
MIV-LCF2016	0,165 mm	3,05 kg	200 m
MIV-LCF2018	0,185 mm	4,15 kg	200 m
MIV-LCF2020	0,205 mm	4,80 kg	200 m

### Ultra sinking Feeder

A new generation of sinking line designed for feeder fishing. The main features of this line are its low stretch and high abrasion resistance. The lines dark color is suitable for use with distance markers and camouflages the line whilst on the bottom.

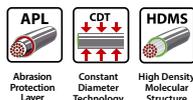

Code	Diameter	Strength	Length
MIV-LUSF1514	0.148 mm	2.65 kg	150 m
MIV-LUSF1516	0.168 mm	3.20 kg	150 m
MIV-LUSF1518	0.185 mm	3.95 kg	150 m
MIV-LUSF1520	0.205 mm	4.65 kg	150 m
MIV-LUSF1522	0.225 mm	5.35 kg	150 m

### Ultra sinking Match

A special, deep red coloured match line created for wagglor fishing. The line sinks rapidly to help to keep the line under the water surface in any weather conditions.

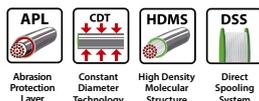

Code	Diameter	Strength	Length
MIV-LUSM1512	0.128 mm	2.30 kg	150 m
MIV-LUSM1514	0.148 mm	2.90 kg	150 m
MIV-LUSM1516	0.168 mm	3.70 kg	150 m
MIV-LUSM1518	0.185 mm	4.50 kg	150 m

### Competition Evo-X

A very high quality, neutrally coloured, fishing line with excellent tensile and knot strength. The line is supple but also equally abrasion resistant. The addition of a fluorocarbon coating ensures low visibility of the line in the water.

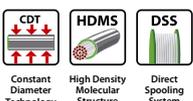

Code	Diameter	Strength	Length
MIV-LCE1510	0.100 mm	1,12 kg	150 m
MIV-LCE1511	0.112 mm	1,54 kg	150 m
MIV-LCE1512	0.128 mm	2,13 kg	150 m
MIV-LCE1514	0.148 mm	2,78 kg	150 m
MIV-LCE1516	0.168 mm	3,35 kg	150 m
MIV-LCE1518	0.189 mm	4,28 kg	150 m

### Carp & Feeder

A universal line designed for carp, feeder and other fishing styles. The line incorporates a high abrasion resistance and improved tensile and knot strengths. The employed DSS spooling technology ensures the lines longevity.

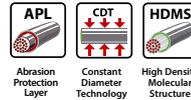

Code	Diameter	Strength	Length
MIV-LCF216	0,165 mm	2,80 kg	200 m
MIV-LCF218	0,185 mm	3,40 kg	200 m
MIV-LCF220	0,205 mm	4,20 kg	200 m
MIV-LCF222	0,225 mm	5,90 kg	200 m
MIV-LCF225	0,255 mm	7,20 kg	200 m
MIV-LCF228	0,285 mm	8,40 kg	200 m
MIV-LCF230	0,305 mm	9,80 kg	200 m

Code	Diameter	Strength	Length
MIV-LTFM05128	0.128 mm	2.150 kg	50 m
MIV-LTFM05148	0.148 mm	2.650 kg	50 m
MIV-LTFM05165	0.165 mm	3.230 kg	50 m
MIV-LTFM05185	0.185 mm	3.920 kg	50 m
MIV-LTFM05205	0.205 mm	4.830 kg	50 m
MIV-LTFM05225	0.225 mm	5.560 kg	50 m
MIV-LTFM05245	0.245 mm	6.340 kg	50 m

### Terminal Feeder & Match

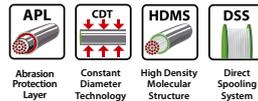

An extremely strong hook length line for playing larger fish on feeder or match rods. The crystal clear colour and lines natural suppleness, ensures a natural presentation of the bait.

Code	Diameter	Strength	Length
MIV-LTE0506	0.065 mm	0,74 kg	50 m
MIV-LTE0508	0.085 mm	0,98 kg	50 m
MIV-LTE0510	0.105 mm	1,38 kg	50 m
MIV-LTE0512	0.125 mm	2,15 kg	50 m
MIV-LTE0514	0.145 mm	3,05 kg	50 m
MIV-LTE0516	0.165 mm	3,70 kg	50 m
MIV-LTE0518	0.185 mm	4,75 kg	50 m

### Terminal Evo-X

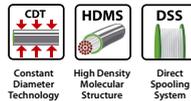

A high-level fishing line for producing hook lengths particularly in matches and competitions. This line's quality is constantly monitored during its manufacture. The line offers extreme strength and low visibility in the water thanks to its fluorocarbon technology. The line is supple for a very natural presentation of your bait.

Code	Diameter	Strength	Length
MIV-LTM0308	0.08 mm	0,82 kg	30 m
MIV-LTM0310	0.10 mm	1,05 kg	30 m
MIV-LTM0312	0.12 mm	1,53 kg	30 m
MIV-LTM0314	0.14 mm	2,12 kg	30 m
MIV-LTM0316	0.16 mm	3,05 kg	30 m
MIV-LTM0318	0.18 mm	4,13 kg	30 m
MIV-LTM0320	0.20 mm	5,22 kg	30 m

### Terminal M1

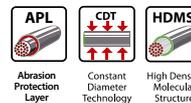

A multipurpose hook length line for match or feeder fishing in crystal clear colour.

Code	Diameter	Strength	Length
MIV-LHPL356	0.565 mm	33.80 kg	300 m
MIV-LHPL371	0.715 mm	46.30 kg	300 m

### Hi Power Line

A special range of fishing lines with high diameters and extreme tensile and knot strengths. The line has excellent abrasion resistance. Designed for catfish and saltwater angling.

Code	Diameter	Strength	Length
MIV-RC322	0,225 mm	6,70 kg	300 m
MIV-RC325	0,255 mm	8,30 kg	300 m
MIV-RC328	0,285 mm	9,90 kg	300 m
MIV-RC330	0,305 mm	11,20 kg	300 m
MIV-RC333	0,345 mm	12,90 kg	300 m
MIV-RC622	0,225 mm	6,70 kg	600 m
MIV-RC625	0,255 mm	8,30 kg	600 m
MIV-RC628	0,285 mm	9,90 kg	600 m
MIV-RC630	0,305 mm	11,20 kg	600 m
MIV-RC633	0,345 mm	12,90 kg	600 m

### Royal Carp

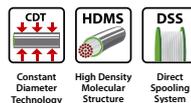

High calibre, versatile, abrasion resistant line, with excellent knot strength, aimed specifically at carp anglers. Thanks to its shock resistance this line is well suited to extreme range casting. The line is ideally coloured which ensures its invisibility whilst in the water.

Code	Diameter	Strength	Length
MIV-RF214	0,145 mm	2,60 kg	200 m
MIV-RF216	0,165 mm	3,20 kg	200 m
MIV-RF218	0,185 mm	3,90 kg	200 m
MIV-RF220	0,205 mm	4,80 kg	200 m
MIV-RF222	0,225 mm	6,70 kg	200 m

### Royal Feeder

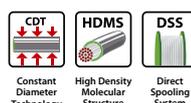

A unique line for feeder fishing. It features high strength, abrasion resistance and durability. Its dark colour ensures concealment in the water.

Code	Diameter	Strength	Length
MIV-RS214	0,145 mm	2,60 kg	200 m
MIV-RS216	0,165 mm	3,20 kg	200 m
MIV-RS218	0,185 mm	3,90 kg	200 m
MIV-RS220	0,205 mm	4,80 kg	200 m
MIV-RS222	0,225 mm	6,70 kg	200 m
MIV-RS225	0,255 mm	8,30 kg	200 m

### Royal Spinning

High abrasion and tensile stress resistance makes this line suitable for spinning. Extremely low stretch meaning ideal, direct contact with the lure, and, in turn higher catch rates. The lines smoke grey colour is optimal for minimal visibility in the water.

### DirectContact Sinking braid

Real sinking braided line, developed for the long distance carp fishing. Zero elasticity ensures perfect contact with the fish and immediate bite indication. The composition of the fibres and the style of braiding help to maximise the abrasion resistance and the total strength. A specific gravity of 1.18 guarantees real sinking. The colour in the tone of water grasses allows perfect blending with the bottom.

Code	Diameter	Strength	Length
MIV-BLDCSB6018	0,18 mm	25 lb	600 m
MIV-BLDCSB12018	0,18 mm	25 lb	1200 m

### Method & Feeder Sinking Braid

Real sinking, fine braided line in bronze-brown colour. It is excellent for feeder fishing. It offers high knot strength and good shock resistance for casting. The thin diameter ensures better function in the moving water and provides perfect bite indication even for the most delicate bites.

Code	Diameter	Strength	Length
MIV-BLMFB1510	0,10 mm	6,45 kg	150 m
MIV-BLMFB1514	0,14 mm	8,65 kg	150 m

### Terminal D-Braid

A newly innovated series of popular braided lines, suited to the production of rigs or shock leaders. Their high strength, softness and abrasion resistance allows for use in multiple conditions. Available in two colours.

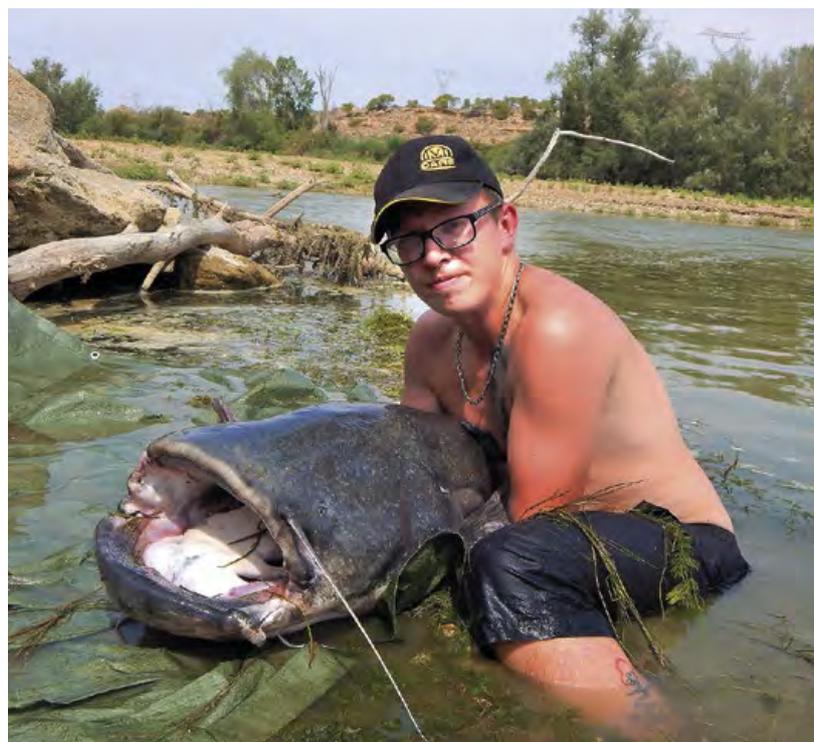

Code	Diameter	Strength	Length
MIV-BLTDBG1508	0.08 mm	6,90 kg	15 m
MIV-BLTDBG1510	0.10 mm	8,15 kg	15 m
MIV-BLTDBG1512	0.12 mm	9,25 kg	15 m
MIV-BLTDBG1514	0.14 mm	10,30 kg	15 m
MIV-BLTDBG1516	0.16 mm	11,90 kg	15 m
MIV-BLTDBG1518	0.18 mm	12,80 kg	15 m
MIV-BLTDBG1522	0.22 mm	17,25 kg	15 m
MIV-BLTDBG1526	0.26 mm	22,70 kg	15 m
MIV-BLTDBC1508	0.08 mm	6,90 kg	15 m
MIV-BLTDBC1510	0.10 mm	8,15 kg	15 m
MIV-BLTDBC1512	0.12 mm	9,25 kg	15 m
MIV-BLTDBC1514	0.14 mm	10,30 kg	15 m
MIV-BLTDBC1516	0.16 mm	11,90 kg	15 m
MIV-BLTDBC1518	0.18 mm	12,80 kg	15 m
MIV-BLTDBC1522	0.22 mm	17,25 kg	15 m
MIV-BLTDBC1526	0.26 mm	22,70 kg	15 m

### Monster Reflex Braid

Extremely strong braided line with smooth and compact surface. It is made from 8 strands with great abrasion resistance. This specifications makes it perfect for catfish. Its reflective colour helps to track the line direction when playing the fish.

Code	Diameter	Strength	Length
MIV-BLMR2060	0,60 mm	72,00 kg	200 m
MIV-BLMR2070	0,70 mm	83,00 kg	200 m
MIV-BLMR2080	0,80 mm	98,00 kg	200 m

## Yamatsu Carp

A new eyed hook developed by leading English and French carp specialists. The hook's ideal shape and maximum sharpness dramatically improves your chances of hooking and successfully landing the fish.

Code	Size	Colour	Flatted/Ringed

## Bivvy New Dynasty XL

A larger bivvy (2,5 to 3 man we'd estimate it), manufactured from M-Tec 410 with a 10 000 mm H/H. It is the enlarged and improved version of the award winning New Dynasty Bivvy (which claimed Bivvy of the Year and became the best selling bivvy in the Czech Republic and Slovakia). This bivvy has significantly enlarged internal

space but maintains an identical footprint. We have now included additional loops for storm poles if required, to ensure tightness on all sides of the bivvy. One look at the M-Tec 410 material will distinguish it for you from all other standard bivvies on the market. This bivvy is based on a classic pram hood design, with 19 mm reinforced ribs. The extended hood protects the entrance area from rainfall and provides a spacious porch. Internally within the bivvy are no less than thirteen loops for hanging various accessories (three on the rear rib).

The width of the bivvy can be set in three positions (increments of 15 cm). The maximum height of the bivvy is 170 cm. The front and the rear windows have been greatly enlarged. All Velcro straps on the windows are double sized to hold the windows closed even during the worst of weather conditions. We have fitted a ventilation flap on the door to decrease humidity and large Easy Grip zips on the front door can be illuminated with isotopes if desired. There are four Velcro fasteners for attaching your rods to the bivvy.

Code	Capacity	Size	Waterproofness
M-BIVNDXL	2 - 3 men	335 x 295 x 170 cm	10 000 mm

**BIVVY OF THE YEAR 2013**  
(2453 visitors voted at the tackle show Moderní Rybář 2013)

## Overwrap New Dynasty XL

A full overwrap for the New Dynasty XL bivvy. The overwrap is manufactured from the same M-Tec 410 material as the bivvy, follows the positions and contours of the windows and thanks to the innovated shape of the front it creates a very spacious porch area. The overwrap also significantly lowers condensation, increases thermal comfort and increases stability of the bivvy in extreme conditions. It is supplied with a full set of high quality pegs.

Code	Waterproofness
M-BIVNDXLO	10 000 mm

### Bivvy New Dynasty

Our award winning, luxurious and spacious bivvy constructed from M-Tec 410 with a 10 000 mm H/H. One look at the quality and thickness of this material confirms it as the premier material on the market. The frame is made from 19mm reinforced poles and based upon a classic pram hood construction with a front porch canopy. The extended porch protects the door from the ingress of rain. The bivvy has ten loops to hang lights and other accessories. The New Dynasty Bivvy stands 160 cm high and can be set in 3 different width positions. The groundsheet is fixed with two metal clips and velcro along the bivvy's skirt. The door is fitted with a ventilation flap to ensure a good circulation of air and to lower the humidity level inside the bivvy and the large, high set, rear mozzie windows ensure excellent airflow in summer months. The reinforced zips are equipped with large Easy Grip tags that can be illuminated with isotopes. On the front of the bivvy are four Velcro fasteners to hold the rods securely.

Code	Capacity	Size	Waterproofness
M-BIVND	2 - 3 men	325 x 295 x 165 cm	10 000 mm

**BIVVY OF THE YEAR 2012**  
(2754 visitors voted at the tackle show Moderní Rybář 2012)

### Overwrap New Dynasty

An overwrap for the Professional Bivvy. This overwrap is manufactured from the same material as the bivvy. The three full sized windows have three layers with 25 mm velcro on the front and two layers with 50 mm velcro on the rear that follow the shape and contour of the bivvy windows. There are 4 velcro rod holders and heavy duty zips with Easy Grip tags supplied as standard. This overwrap helps to eliminate condensation, increases thermal comfort and ensures the bivvy is even more stable in extreme wind.

Code	Waterproofness
M-BIVNDO	10 000 mm

### Bivvy floor mat New Dynasty

Luxurious bivvy floor mat made with top quality materials in every detail. It is easy to wash and it comes with a neoprene insulating layer.

Code	Size
M-BIVFMND	90 x 60 cm

## Bivvy Professional

Medium sized bivvy made from the uncompromising M-TEC 410 material. The frame utilises two 19 mm ribs and upright walls provides a large inner area whilst maintaining a compact overall size. The pram hood helps to protect the door area and to make a spacious porch area if the overwrap is used. As you'd expect from Mivardi, this bivvy is complete with Velcro rod retaining straps, quality zip tags, accessory hanging points inside the bivvy, ventilation flap above the door and large windows.

Code	Capacity	Size	Waterproofness
M-BIVPR	2 men	295 x 280 x 150 cm	10 000 mm

## Overwrap Professional

An overwrap for the Professional Bivvy. This overwrap is manufactured from the same material as the bivvy. The three full sized windows have three layers with 25 mm velcro on the front and two layers with 50 mm velcro on the rear that follow the shape and contour of the bivvy windows. There are 4 velcro rod holders and heavy duty zips with Easy Grip tags supplied as standard. This overwrap helps to eliminate condensation, increases thermal comfort and ensures the bivvy is even more stable in extreme wind.

Code	Waterproofness
M-BIVPRO	10 000 mm

## Bivvy floor mat Premium XL

Extremely large floor mat suitable for use inside the bivvy as well as outside the bivvy near to your rods, etc. It is waterproof, easy to wash and very resistant to mechanical damage.

Code	Size
M-BIVFMPRXL	128 x 70 cm

Code	Capacity	Size	Waterproofness
M-BIVEX	1 - 2 men	275 x 265 x 140 cm	10 000 mm

### Bivvy Executive

A medium sized bivvy constructed from M-Tec 410 material with 10 000 mm H/H. The bivvy can be set to 3 separate width configurations and has a system for fixing the groundsheet with Velcro fastening in combination with two metal clips. The bivvy includes ten loops inside to hang lights and other accessories. The Easy Grip zip tabs can be illuminated by isotopes. On the front of the bivvy are four Velcro fasteners to securely hold your rods and the windows and door can be mesh, PVC or closed. There is one window on the rear of the bivvy with a mesh cover secured by two full length quality zips.

### Overwrap Executive

An extending overwrap for the Executive bivvy supplied with an additional full sized rib. This overwrap provides an extra-large area between outer and bivvy for those times you need something a little bigger than a compact sized shelter. The material is the same top quality M-Tec 410, identical to that used for the bivvy and the window sizes, positions and contours are identical to that of the bivvy.

Code	Waterproofness
M-BIVEXO	10 000 mm

### Peg set + hammer

A high quality set of bivvy pegs and a rubber mallet. The pegs are extremely strong for the hardest of ground and the set comes complete with a luxury bag.

Code	Pcs / set
M-BIPESET	10 + 1

## Bivvy Easy XL

Full sized bivvy designed for two bedchairs. The construction with two ribs and additional reinforcements is designed with a focus on quick assembly and disassembly but sufficient rigidity, stability and durability even in extreme conditions. The bivvy is equipped with a large rear window with mesh and a three-layer door panel with a mesh and transparent PVC cover. Of course, there are high-quality pegs, well taped seams, seven hooks for hanging small accessories, two holders of the rods and a detachable floor. All of this comes with a minimised transport weight and an extremely attractive price.

Code	Capacity	Size	Waterproofness
M-BIVEAXL	2 men	310 x 300 x 160 cm	8000 mm

## Overwrap Easy XL

A full overwrap for bivvy Easy XL. It comes with a large rear window and a front door panel with a mesh. With this overwrap, you will significantly increase the thermal comfort in the bivvy and eliminate water condensation on the walls.

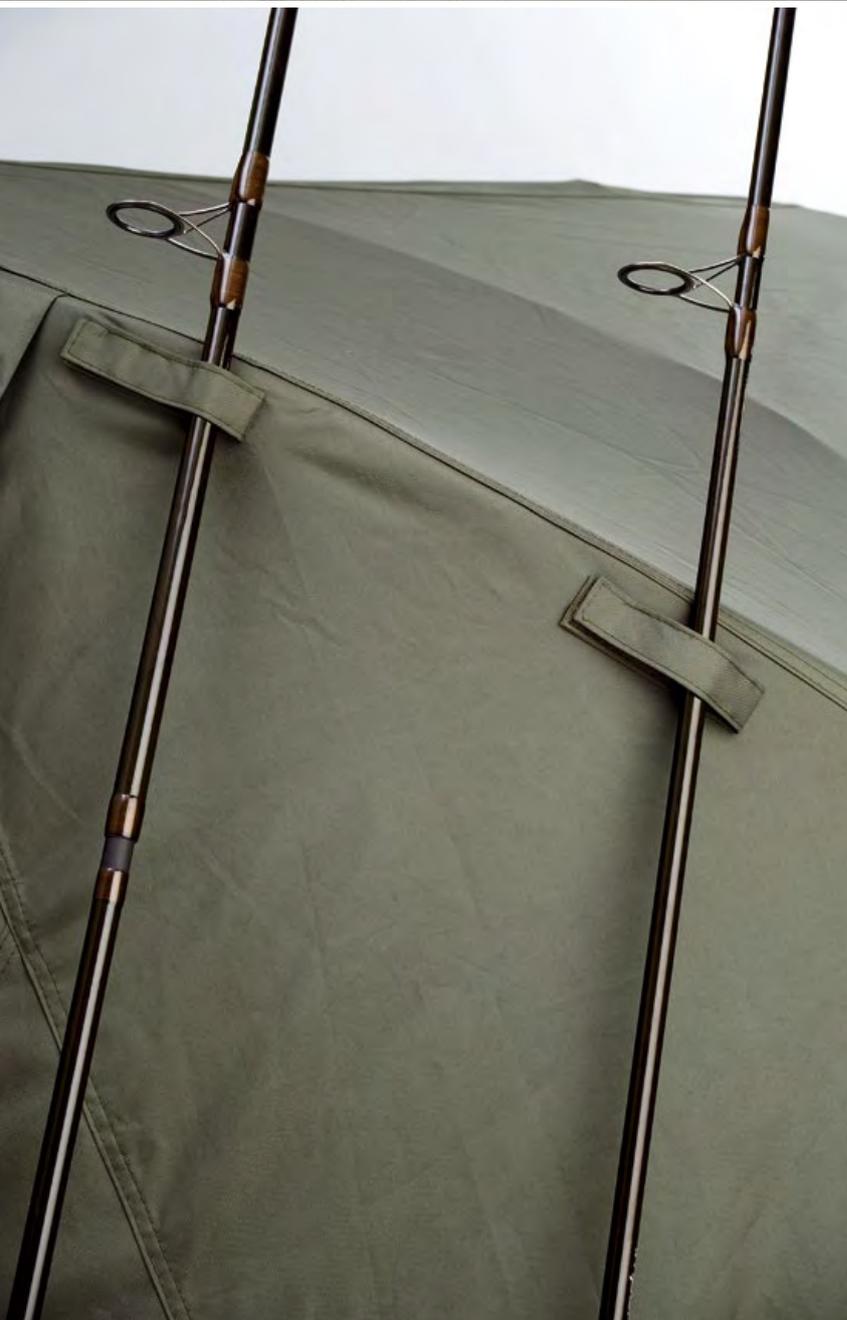

Code	Waterproofness
M-BIVEAXLO	8 000 mm

## Bivvy extending canopy

A uniquely innovated Mivardi product. This multi-purpose extending canopy is designed to fit the majority of current bivvies. A front PVC cover is suitable for use in rainy or windy conditions and the full sized high quality front mesh protects against insects. This canopy provides a large inner area for storage of tables, chairs or other bulky items that you wish to protect against the elements. This canopy can be attached to either a bivvy or overwrap.

Code	Size	Waterproofness
M-BCAN	350 x 140 x 170 cm	3 000 mm

### Technical details of MIVARDI bivvies:

- ▶ Three layer window with mozzie mesh
- ▶ Velcro fasteners for rods
- ▶ Adjustable strap to set the bivy width
- ▶ Illuminated Easy Grip puller
- ▶ Heavy duty 19 mm bivy poles

## Shelter Base Station

A multifunctional shelter for a comfortable stay on the bank. Its construction allows very fast assembly and disassembly. Massive 19mm tubes, heavy duty pegs and additional guylines ensure perfect stability in any weather. The design of this shelter allows many options of setting and opening of door and panels, side and front windows. A large pram protects the front door area from rain. The ground sheet is attached to the canopy using two long and heavy duty zippers. This shelter is perfect as a lounge, kitchen, dining room, large warehouse or large bivvy. It is designed to be used with two large bedchairs and, thanks to its height, allows unrestricted movement of adults throughout the interior. Another big advantage is the extremely low transport weight and compact transport size.

Code	Capacity	Size	Waterproofness
M-SHEBS	2 - 3 men	225 x 225 x 185 cm	8000 mm

## Overwrap for Shelter Base Station

This full overwrap allows you to significantly increase the utility value and improve the climate comfort of the Base Station shelter. Large windows on the front and rear panels ensure perfect ventilation. Two layers improves the indoor climate at high and low temperatures while minimising water condensation on the inside of the material. With this overwrap you get an additional covered floor space at the front. At the same time, stability and wind resistance will be increased. In strong winds, it is recommended to secure the shelter with the enclosed anchoring cords. The special construction of the front wall and double pegging rings allow easy tensioning of the cover even in uneven terrain. The overwrap folded into the carry bag surprises with its small transport dimensions and, above all, its very low weight.

Code	Waterproofness
M-SHEBSO	8000 mm

## Shelter Premium XL + front panel

A lightweight, compact, handy shelter. Easy to transport and enough space for a bedchair or two chairs inside. Can be erected in under a minute. A simple but cleverly designed frame which is stable in windy conditions and the cover is 210D nylon with 5 000 mm H/H. The shelter is available with or without a detachable front panel.

Code	Capacity	Size	Waterproofness
M-SHEPRXLSET	1 man	260 x 180 x 140 cm	5000 mm

### Shelter Quick Set

Extremely light and variable shelter with multifunctional use. Thanks to its minimal weight and transport dimensions, it is ideal for short sessions, but it will also serve well as an additional shelter even on longer expeditions. Set up and closing of this shelter is a matter of seconds! After securing with a few pegs, the shelter immediately gains unexpectedly great stability. A huge advantage is the many options for choosing the height and width in its position. You can easily place one or two chairs in it while maintaining enough internal height. After lowering and stretching the side walls, the shelter is suitable for use with a bedchair. The variable front panels can be adapted to all situations and allow the front part to be partially closed.

Code	Capacity	Size	Waterproofness
M-SHEQU	1 man	210 x 145 x 135 cm	5000 mm

### Shelter Quick Set XL

Light and compact sized shelter with a simple and extremely quick set up. It is designed for one bedchair and at the same time offers enough space for luggage, a table, baits and other accessories. The walls are reinforced with strong but flexible fibreglass rods, which ensure the stability of the shelter. In extreme situations, this can be further increased with anchor cords and thus ensure resistance even to very strong winds. The delivery includes a hanging organiser for small accessories that you can easily attach to the wall. After packing into the carry bag, you will also appreciate the minimum transport dimensions of this shelter.

Code	Capacity	Size	Waterproofness
M-SHEQUXL	1 man	200 x 225 x 164 ccm	5000 mm

## Brolly New Dynasty

A newly developed high quality broolly, manufactured with eight 8 mm fibreglass ribs. Four of the ribs are securely on the ground and the remaining ribs are connected by a reinforcing pole. Manufactured from our superb M-TEC 410 material (which has a 10 000 mm H/H) the New Dynasty Brolly is extremely durable and stable and the market leader for quality. A great advantage of this umbrella is its two large rear windows and a space saving central joint. This umbrella comes with a high quality and durable PVC ground sheet, two short and two long storm poles and a set of heavy duty pegs.

Code	Capacity	Size	Waterproofness
M-BROND	1 man	220 x 250 x 145 cm	10 000 mm
M-BRONSET	Brolly + front panel + front mesh + ground sheet		

### Brolly New Dynasty - front wall

Zip on front section for the New Dynasty Brolly with two side windows and a 3-layer door panel. This front can be fixed to the ground in varying positions to suit the required height of the umbrella. The door zip tabs have isotope inserts for night time illumination.

Code  
M-BRONDFW

### Brolly New Dynasty - front mesh

Zip on, high quality and durable front mesh for the New Dynasty Brolly offering protection from bugs and insects whilst ensuring perfect ventilation. The door is fitted with two heavy duty zips.

Code  
M-BRONDFM

### Umbrella Camou PVC

A large, high quality umbrella with a classic frame and tilting system. The covering is manufactured from a lightweight and 100% waterproof material in an attractive camou colour with taped seams. A reinforced pole ensures maximum stability.

Code	Diameter
M-AUC250C	2,5 m

### Umbrella Camou PVC + side cover

A high-quality fishing umbrella with a tilt mechanism and side panels. Fitted with a reinforced pole for strength. The cover is manufactured from lightweight but 100% waterproof rubber coated material in a unique camouflage design with welded seams.

Code	Diameter
M-AUSC250C	2,5 m

### Umbrella Camou PVC + full cover

An umbrella with a side cover and removable front cover (door). It comes with one front and two side windows. The covering is manufactured from a lightweight but 100% waterproof "rubber coated" material in a unique, camouflage design with welded seams. A reinforced umbrella pole ensures great stability.

Code	Diameter
M-AUSC250FC	2,5 m

### Umbrella Green FG PVC

A large umbrella from the latest generation of developments with fibreglass ribs that are resistant against strong gusts of wind without a risk of them breaking. Fitted with a reliable angle lock and strong pole. The covering is manufactured from a green coloured lightweight material with taped seams.

Code	Diameter
M-AUG250FG	2,5 m

### U Umbrella Green PVC + side cover

A high-quality fishing umbrella with a tilt mechanism and side panels. Fitted with a reinforced pole for strength. The cover is manufactured from lightweight but 100% waterproof "rubber coated" material in a green colour with welded seams.

Code	Diameter
M-AUSG250C	2,5 m

### Umbrella Easy nylon + side cover

A high-quality fishing umbrella with tilt mechanism and side panels. Fitted with a reinforced pole for strength. The cover is made from a lightweight but 100% waterproof "rubber coated" material in a green colour with welded seams.

Code	Diameter
M-AUSE220	2,2 m

### Umbrella Competition FG PVC

A large umbrella from the latest generation of developments, with fibreglass ribs that are resistant to strong gusts of wind without a risk of them breaking. Fitted with a reliable angle lock and strong pole. The covering is manufactured from a black and red coloured lightweight material with taped seams.

Code	Průměr
M-AUN230	2,3 m

### Bait umbrella

A square 1m x 1m sized umbrella with tilt mechanism, single transparent section and a long reinforced pole to help protect against the elements.

Code	Size
M-AUB100	100 x 100 cm

### Stainless steel pole for umbrella

A heavy duty umbrella pole manufactured from stainless steel. Length 120 cm.

Code	Length
M-AUSSP	120 cm

### Spike holder for umbrella

A robust metal holder designed to erect your umbrella when the ground is hard and dry, includes two metal spikes for additional stability.

Code
M-AUSH

### Screw holder for umbrella

A solid metal umbrella holder with a spike that can be easily screwed into hard ground.

Code
M-AUSCH

**M CAMOCODE**  
EXCLUSIVE DESIGN BY MIVARDI

### Bedchair CamoCODE Air8

A luxury eight-leg bedchair with double mattress. Inside the mattress there is a very durable self-inflating mattress with a valve easily accessible from the back of the pillow. Above this air mattress there is hollow fibre padding, covered with a warm and comfortable fleece cover in a unique CamoCODE design. This combination provides unprecedented comfort and thermal insulation. This bedchair is 100% flat. Advanced tensioning system in the mid frame allows to increase the overall „hardness“ of the mattress. Self-extending legs are operated by simply pressing the locking lever and they are fitted with unique Mivardi mud feet.

Code	Size	Max. load
M-BCHCCAB	210 x 100 cm	160 kg

### Bedchair New Dynasty Air8

A unique 8-leg, fully flat bedchair with a fleece covered, inflatable air mattress which takes bankside sleeping to a whole new level. The air mattress ensures total comfort, comparable with your bed at home. This air layer also offers perfect thermal insulation, keeping you warmer in the winter and cooler in the summer. Utilising the lumbar supporting, advanced tensioning system in the mid frame together with air mattress, means you can have your bedchair as firm or as soft as you prefer. The legs are fitted with large mud feet and a reliable locking mechanism.

Code	Size	Max. load
M-BCHNDA8	215 x 98 cm	160 kg

### Bedchair CamoCODE Flat8

An extra light and fully flat bedchair in a digital camo design. The thick, fleece covered mattress is incredibly comfortable and the lumbar support can be adjusted by the advanced tensioning strap system underneath. A premium advantage of the CamoCODE is the maximum height achievable due to its long length adjustable legs, fitted of course, with large mud feet. Perfect for storing bags or chairs underneath in the bivvy. The CamoCODE bedchair comes in both an 8- and 6-leg version.

Code	Size	Max. load
M-BCHCC8	205 x 80 cm	160 kg

### Bedchair CamoCODE Flat6

An extra light and fully flat bedchair in a digital camo design. The thick, fleece covered mattress is incredibly comfortable and the lumbar support can be adjusted by the advanced tensioning strap system underneath. A premium advantage of the CamoCODE is the maximum height achievable due to its long length adjustable legs, fitted of course, with large mud feet. Perfect for storing bags or chairs underneath in the bivvy. The CamoCODE bedchair comes in both an 8-leg and 6-leg version.

Code	Size	Max. load
M-BCHCC6	205 x 80 cm	140 kg

### Bedchair Comfort XL8

A large, flat and absolutely comfortable bedchair. Soft pillow and well padded mattress with warm fleece cover provide great comfort even on longer sessions. The edges of the mattress are covered with a strong and washable material B-POL 600D which is almost indestructible and ensures a long service life. The legs are fitted with large swinging mud feet in an exclusive Mivardi design. The uniquely designed leg locks provide fast and convenient one-touch leg adjustment and maximum reliability. A very strong frame allows perfect tensioning of the mattress. The bedchair Comfort is available in a six or eight leg versions.

Code	Size	Max. load
M-BCHC08	213 x 86 cm	160 kg

### Bedchair Comfort XL6

A large, flat and absolutely comfortable bedchair. Soft pillow and well padded mattress with warm fleece cover provide great comfort even on longer sessions. The edges of the mattress are covered with a strong and washable material B-POL 600D which is almost indestructible and ensures a long service life. The legs are fitted with large swinging mud feet in an exclusive Mivardi design. The uniquely designed leg locks provide fast and convenient one-touch leg adjustment and maximum reliability. A very strong frame allows perfect tensioning of the mattress. The bedchair Comfort is available in a six or eight leg versions.

Code	Size	Max. load
M-BCHC06	210 x 86 cm	140 kg

### Bedchair Professional

A newly designed wider flat bedchair with a thick, fleece covered foam mattress and an integral large and extremely comfortable pillow. This bedchair uses an advanced tension system for lumbar support and has eight telescopic legs, with durable locking system and adjustable mud feet.

Code	Size	Max. load
M-BCHPRO8	208 x 84 cm	140 kg

### Bedchair CamoCODE Express 6

Compact and completely flat bedchair with a comfortable but rigid mattress. It offers excellent stability of eight-leg bedchairs combined with reduced weight and simplicity of opening and folding. All this at a very interesting price level with uncompromising quality of workmanship and materials used. The bedchair is equipped with self-extending legs and swinging mud feet. The front and rear individual legs are equipped with an automatic folding / unfolding lock. The distance connecting parts between the main sections of the frame allow this bedchair to be folded with a sleeping bag attached.

Code	Size	Max. load
M-BCHCCEX6	202 x 74 cm	120 kg

## Bedchair Premium XL8

Enlarged and upgraded version of the legendary bedchair Premium, which has gained great popularity with many thousands of satisfied customers. The bedchair is really wide and thanks to the 100% flat construction it is very comfortable. The mattress keeps its unique and unmistakable design and anatomical shaping. It is made from washable and very durable B-POL 600D nylon and follows the original colours of Premium bedchairs. Telescopic legs allow to raise the bedchair high above the ground. It makes sitting on this bedchair comfortable and it allows to store large bags under the bedchair. The legs are fitted with swinging, ergonomically shaped mud feet in the unique Mivardi design. The Premium XL bedchair is available with six or eight telescopic legs.

Code	Size	Max. load
M-BCHPRXL8	217 x 85 cm	160 kg

## Bedchair Premium XL6

## Additional single leg

A universal additional leg to be used with four or six leg bedchairs. Equipped with a flexible mud foot and reliable locking mechanism.

Code
M-ASLB

# URBAN FISHING

by Martin Kašik (Vltava / Prague, 2021)

## Sleeping bag New Dynasty Xtreme

A true 5 season, heavy duty sleeping bag, suitable for use down to sub-zero temperatures and complete with our unique Thermo Stop neck baffle collar for total comfort. However, with the simple removal of the middle layer, the bag becomes ideal for the summer months as well. The bag is manufactured using a special micro pore hollow fibre, that provides significantly better insulation compared to standard hollow fibres in the same thickness of padding. External baffles protect the bag against cold air from coming through the zips. The outer shell is manufactured from water resistant and breathable „Peach Skin“ material. The inner lining is manufactured from the highest quality microfleece. Fits all Mivardi bedchairs and most standard or wide beds from other manufacturers.

Code	Size
M-SLBNDX	225 x 95 cm

## Sleeping bag New Dynasty

A 4 season sleeping bag of the highest quality for use down to zero degrees. A double padded bottom layer increases insulation from the ground and the bag has two independent fully padded and insulated top layers. When both of the layers are combined the bag is suitable for very cold conditions. The special Thermo Stop collar also aids in insulation in these extreme conditions. Using only one of the layers is recommended in spring or autumn. The second layer can be used separately as a comfortable cover during the warmer weather. The „Peach Skin“ material on the outer shell is fully water resistant. The inner lining is manufactured from a premium quality microfleece that is extremely comfortable and warm. The oversized nature of this bag ensures both comfort and warmth during your stay on the bank.

Code	Size
M-SLBND	225 x 95 cm

## Thermo cover New Dynasty

Luxury thermo cover for bedchair or sleeping bag. It is extremely lightweight thanks to the multi-porous hollow fiber filling. In the warmer period of the year it can be used as a comfortable, large and warm blanket. The bottom part completely made from microfleece helps for maximum comfort. The outer layer made of waterproof, but soft and noiseless peach skin. The cover is equipped with smart designed clips for fixation to the frame, allowing fixation to any kind of bedchair with or without sleeping bag. This thermo cover can be fixed to the bedchair completely or leave one side partially or completely „unlocked“ for a quick start from the bedchair to the rods.

Code	Size
M-BCHTCND	245 x 150 cm

### Sleeping bag Professional

A large, extremely warm and comfortable sleeping bag with an outer waterproof rip-stop cover and a inner fleece with long hair that behaves just like a perfectly warm and dense sheep coat. Of course there are heavy duty zippers for easy and quick opening of the sleeping bag. They are protected from inside and outside by the baffles, which reliably keep you warm and prevent the cold air from entering inside. The comfortable THERMO STOP collar also greatly helps to maintain warmth while enhancing sleep comfort.

Code	Size
M-SLBPRO	230 x 100 cm

### Sleeping bag Premium

A sleeping bag with a large hollow fibre filling and with great insulating ability. The inner parts are made of soft and warm fleece material. Around the heavy duty zippers there are protective baffles on both sides to prevent cold air going inside. Integrated soft pillow and anatomically shaped THERMO STOP collar increase overall comfort in this sleeping bag. The outer material is water repellent and easy to clean. Sleeping bag is suitable for comfortable use even at low temperatures from spring to autumn.

Code	Size
M-SLBPRE	230 x 100 cm

### Sleeping bag Executive

A luxurious, large sleeping bag with a thick and comfortable padding and a modern design. The bag provides superb protection against the elements in the coldest of conditions and our unique Thermo Stop collar aids in insulation. An inner thermal fleece provides increased heat retention and the outer shell is water resistant.

Code	Size
M-SLBEX	2#5 x *1 cm

### Sleeping bag Easy

A light sleeping bag with an extremely comfortable fleece lining and water resistant outer material. Suitable for the summer season or in milder conditions plus the unzipped sleeping bag can be used as a comfortable cover.

Code	Size
M-SLBEA	220 x 90 cm

## Chair CamoCODE Quattro

A luxurious version of our best-selling Comfort Quattro armchair with an ultra-comfortable fleece mattress in the modern CamoCODE design. It uses the popular and completely reliable system of folding the backrest when lifting the armrests. It is built on an extremely light and rigid aluminium frame with a load capacity of 160kg. The armchair features new developed mud feet and new leg locks in the unique Mivardi design. Four self-opening telescopic legs can be easily controlled by short pressing the lock lever.

Code	Max. load
M-CHCCQ	160 kg

## Chair Comfort Quattro

A well designed, reclining, luxurious arm chair with a uniquely shaped mattress and a thick padded neoprene pillow and four telescopic legs. The legs are fitted with a reliable locking system and mud feet to prevent them from sinking into soft ground. The frame construction is extremely stable, surprisingly light and strong (weight capacity 160 kg). The chair reclines easily by simply lifting the arm rests.

Code	Max. load
M-CHCOMQ	160 kg

**CHAIR OF THE YEAR 2012**

(2754 visitors voted at the tackle show Moderní Rybář 2012)

## Chair Premium Quattro

A compact version of the popular Comfort Quattro armchair with an extremely strong steel frame with a load capacity of 175kg. The backrest position can be adjusted by lifting the armrests and tilting the backrest to the desired position. The mattress cover is made from strong and durable P-POL 600D nylon that is easy to wash. The armchair is fitted with new leg locks exclusively designed by Mivardi. The lock lever can be operated by stepping on or by simple pressing by hand. There is a good quality swinging mud foot on each leg.

Code	Max. load
M-CHPREQ	175 kg

## Chair Comfort

Luxurious, reclining chair, made with a uniquely shaped mattress and well padded neoprene pillow. The front telescopic legs are fitted with wide feet. The frame is extremely strong (maximum load is 160 kg) but extremely light. The chair reclines by simply lifting the arm rests.

Code	Max. load
M-CHCOM	160 kg

## Arm rest sleeves Comfort

High quality neoprene sleeves for handrests of Comfort / Comfort Quattro / CamoCODE Quattro / Premium Quattro chairs. They are warm, washable and do not absorb moisture. It will significantly increase the utility value of your chair.

Code
M-CHARSLCOM

## Chair CamoCODE Express

Compact but extremely stable and robust chair with four telescopic legs and firm armrests. The minimum transport dimensions predetermine it for short sessions and fishing in less accessible places. However, they do not reduce its overall strength or load capacity in any way. Thanks to the specially shaped seat frame, this chair offers an unexpectedly comfortable seat. Self-extending telescopic legs are equipped with swinging mud feet.

Code	Max. load
M-CHCCEX	140 kg

### Chair CamoCODE Arm

A unique designed and extremely light chair made using our new Duralite frame. It comes with comfortable and thick padded mattress in a digital camouflage design. With fully adjustable backrest, top level locks on the extendable legs and large mud feet, combined with an astonishing low weight and compact transportation size, this is a seriously comfortable chair for sitting in for long periods. Strong armrests of CamoCODE Arm version with neoprene sleeves increase the overall strength and comfort of the chair.

Code	Max. load	Weight
M-CHCCA	130 kg	4,2 kg

### Chair CamoCODE Combi

This uniquely designed chair allows normal use as a lightweight and fast-folding medium-sized chair with four telescopic legs. Within seconds, it can be adjusted to be placed over the bedchair with a sleeping bag. The specially shaped rear part of the frame lays on the bedchair, thus preventing local damage of the sleeping bag filling or the bedchair mattress. This chair is equipped with strong padding and with a comfortable fleece cover in a unique CamoCODE design. It is fitted with self-extending legs and originally designed mud feet.

Code	Max. load
M-CHCCC	140 kg

### Chair Premium Long

An easily transportable chair with a rapid folding back and one of our most popular designs. While maintaining an extremely stable construction with four telescopic legs and small transport size, it still offers a high and comfortable back rest. A well padded mattress ensures extreme comfort. The B-POL600D cover is 100% waterproof and is highly abrasion resistant.

Code	Max. load
M-CHPREL	120 kg

### Chair Premium

A lightweight, comfortable and easily transportable carp fishing chair with a stable frame including four telescopic legs. It is supplied with a well padded, comfortable mattress and is covered by B-POL600D material that is 100% water and abrasion resistant. This chair is both storable and light.

Code	Max. load
M-CHPRE	120 kg

### Chair Simple Power 140

A classic chair, extremely strong, for you bigger guys. Rated to more than 22 stone (140 kg.)

Code	Max. load
M-CHSIMPO	140 kg

### Chair Simple Pro

A simple and easily stored chair with a back rest and strong cover.

Code	Max. load
M-CHSIMPR	100 kg

### Chair Comfort Feeder

A special chair developed for the maximum comfort during feeder or match fishing sessions. It is based on our extremely popular and very effective frame construction and the backrest can be easily adjusted if you lift up and move the armrests. The vertically oriented front legs have the very common diameter 25 mm and they allow you to attach various holders and accessories available across the market. The high quality soft touch material makes the mattress extremely comfortable for use for many hours at a time.

**Grand Prix Award for the Best Product of the show FOR - FISHING 2018**

### Chair Feeder Master

This innovative and multi functional chair with a high back, which converts to a barrow in a matter of seconds, complete with pneumatic tyre, two comfortable handles and with a load capacity of 150 kg! It has 4 adjustable legs with large mud feet for stability and even an innovative system of holders for various accessories, almost „match-man“ style. Designed by Mivardi, it also comes with a cover to protect the chair mattress from getting dirty whilst carrying your gear in its barrow mode.

### Chair Feeder Master D25 adaptor

Original adaptor to attach any accessory with a standard 25 mm diameter to the Stalker Barrow.

### Chair Feeder Master Hand rests

Full sized and comfortable arm rests that you can add to your Stalker Barrow Chair within few seconds, still leaving several positions to attach other accessories via the D25 adaptors.

### Universal adaptors for Mivardi Chairs

Precisely designed universal adaptors to attach various types of accessories to fishing chairs or bedchairs. They are extremely strong and stable and manufactured from metal. They fit tube frames of different diameters and can be easily adjusted to keep the 25 mm bar in a vertical position to attach any standard accessory with a 25 mm diameter.

Code	
M-CHCOMD25	Univesal adaptor D25
M-CHCOMUH	Umbrella holder

### Barrow system Monster

An uncompromising barrow system designed for transporting all your tackle to your swim. The frame is designed to take the largest of carryalls and bags towards the front, over the wheel and the adjustable side arms provide an oversized large main area for storage of a bivvy, bedchair, chair and other oversized items. System storage bags can be fitted into the frame for incredible load space. Comfortable and adjustable handles combined with an optimised centre of gravity, ensures easy handling of a fully loaded barrow. Easily fitted with a second wheel if required for even greater stability.

Code

M-BAMONSET	Barrow system Monster (set of trolley + 2 wheels + 2 bags)
M-BAMONW	Barrow system Monster - additional wheel with frame
M-BAMONBL	Barrow system Monster - Large bag
M-BAMONBS	Barrow system Monster - Small bag

### Trolley Executive

A professionally designed large trolley for transporting large amounts of fishing tackle. Intelligently designed construction allows for rapid folding and unfolding of the trolley. Its compact size is particularly advantageous when transporting in a car. The wheel is placed exactly at the centre of gravity ensuring this barrow is effortless to push even when fully loaded.

Code

M-TROEX

### Trolley Premium

Transport trolley with two wheels and surprisingly large loading area. It can be folded to a minimum transport size in a moment. Extremely strong and rigid frame together with simple, reliable and extremely durable folding mechanism ensure great load capacity and great manoeuvrability.

### Rigid Match holdall Team Mivardi

A rigid holdall for match / bolognese rods with four compartments. It provides a highest level of protection for rods. The holdall is manufactured with 100% waterproof B-POL620D material. Also included are heavy duty zips, with MIVARDI signature zip tabs and a thick padded shoulder strap. Total length is 170 cm.

Code	Length	Compartments
M-TMRH	170 cm	4

### Match holdall Team Mivardi

A luxurious holdall, with four compartments, to store rods with reels. It is manufactured from the water-proof B-POL620D material. Fitted with a padded shoulder strap, a side pocket for accessories and heavy duty zips with MIVARDI zip tabs.

Code	Length	Compartments
M-TMMH	170 cm	4

### Pole holdall Team Mivardi

This pole holdall includes two main compartments and is manufactured from B-POL620D material. It is equipped with side pockets for the storage of an umbrella and other accessories. Fitted with heavy duty zips, Velcro straps to secure the plastic tubes, a comfortable carry handle and a well-padded shoulder strap.

Code	Length	Compartments
M-TMPH	190 cm	2

### Carryall XXL Team Mivardi

A luxurious XXL sized bag, suitable for carrying large and heavy accessories. Manufactured from the exceptionally resistant and waterproof material B-POL620D, its fitted with heavy duty locks, a thick padded strap and water resistant zips with exclusive MIVARDI zip tabs.

Code	Size
M-TMCARXXL	60 x 50 x 45 cm

### Carryall Compact Team Mivardi

A medium sized carryall for match and feeder accessories. The moulded lid can be used as table and the large front pocket plus two lateral pockets help to store your smaller accessories. The well padded shoulder strap allows for comfortable carrying of the bag.

Code	Size
M-TMCOM	45 x 35 x 30 cm

## Team MIVARDI

### Accessory bag Team Mivardi

Spacious and heavy duty bag for large match and feeder accessories. Waterproof and easily washable material ensures long life.

Code	Size
M-TMACB	100 x 27 x 22 cm

### Keepnet bag Square Team Mivardi

A spacious square shaped keepnet bag with two compartments. Manufactured from the waterproof material B-POL620D. For storage of keepnets, landing nets or other accessories.

Code	Length	Compartments
M-TMKBAGS	60 x 60 x 18 cm	2

### Keepnet bag waterproof Team Mivardi

A useful and waterproof keepnet bag. It protects the angler from water leakage and unpleasant odours in transport and in storage.

Code	Size
M-TMKBAGW	60 x 60 x 18 cm

### Cool bag XXL Team Mivardi

A spacious cool bag to store live bait or groundbait, supplied with practical side pocket.

Code	Size
M-TMBCXXL	48 x 25 x 26 cm

### Bag for catapults Team Mivardi

A handy bag to carry catapults. Manufactured from waterproof material B-POL620D.

Code
M-TMBCAT

#### GROUND BAIT MIXING BAG XL - COVER

Code	Diameter / Height
M-TMGBCXL	40 x 20 cm

#### GROUND BAIT MIXING BAG L - COVER

Code	Diameter / Height
M-TMGBCL	30 x 22 cm

#### GROUND BAIT MIXING BAG

Code	Diameter / Height
M-TMGB	40 x 15 cm

### Groundbait mixing bags

Folding bags to wet and mix groundbait. Available in different versions such as the low and wide diameter model without cover (TMGBCL), the high and narrow model with cover (TMGB) or the large model with cover (TMGBCXL). All of the mixing bags are 100% waterproof. The bags are manufactured with B-POL620D material that ensures ease of maintenance.

### Combo MX9 Wireless

A new model of fully functional bite alarms that sets new standards in their price bracket. Eight step control of volume, tone and sensitivity adjustment, manually operated nightlight, automatic tone synchronisation between each alarm and the receiver, long range operation and an anti-theft function. They even come complete with detachable snag ears, rubber inserts to stop rod movement and a power out socket for illuminated bobbins. Powered by standard 9v batteries with low power consumption.

Code	Packing
M-SOMX941	4 alarms + receiver
M-SOMX931	3 alarms + receiver
M-SOMX921	2 alarms + receiver
M-SOMX9A	Single alarm

### Rod Guards

Mivardi Snag Ears aid in securing the rod to the alarm in high wind conditions, when fishing with your line at an angle or near snags clamped up tight.

Code  
M-SORG

### Combo M1350 Wireless

Fully featured wireless bite alarms with an operation range testing function. The alarms offer volume, sensitivity and tone adjustments including a silent mode. The nightlight LED is operated manually. The receiver allows for adjustment of the volume and tone. The correct LED colour is assigned automatically when you add a new alarm.

Code	Packing

# SWING ARM

## MCX Stainless

Precise manufacturing quality and materials of the highest quality are the main features of these unique bite indicators. The stainless steel parts are precisely machined on CNC. The body of the indicator is equipped with a real 3K cross woven carbon tube or a precise plastic sleeve in a signal colour. Each piece is then carefully assembled and tested. MCX stainless indicators are available as Swing Arm with stainless steel arm or Hanger with stainless steel chain. The delivery includes an extra load and spare rubber rings. Extra loads are also available separately. MCX Stainless indicators are supplied in a single package (1 pc) and in practical sets.

## Rodpod Hardcore XL

Uncompromising and extremely stable rod pod. It comes with three pairs of easily adjustable telescopic legs in different lengths to suit any terrain. The central bar is adjustable to suit all lengths of rod and the 3 rod, fixed width buzzer bars are detached with a flick of a couple of clips. Complete with luxurious carry case for transport.

Code		Length
M-RPHC	Rodpod Hardcore XL	-
M-RPHCBB2S	Buzzerbar for 2 rods	24 cm
M-RPHCBB2L	Buzzerbar for 2 rods	30 cm
M-RPHCBB4S	Buzzerbar for 4 rods	60 cm
M-RPHCBB4L	Buzzerbar for 4 rods	75 cm

## Rodpod Professional

A compact, sturdy rod pod with four adjustable telescopic legs. Adjusting the total length of the pod and the height of buzzer bars is a breeze, via a simple couple of clips. Complete with transportation carry tube.

Code		Length
M-RPPRO	Rodpod Professional	-
M-RPPROBB2S	Buzzerbar for 2 rods	24 cm
M-RPPROBB2L	Buzzerbar for 2 rods	30 cm
M-RPPROBB4S	Buzzerbar for 4 rods	60 cm
M-RPPROBB4L	Buzzerbar for 4 rods	75 cm

### Tripod Monster

This is a large tripod with a robust, central joint & extra-long legs, manufactured from rigid tubing and extendable between the front and rear buzzer bars. Using a special joint assembly, the main arms can be tilted and set to infinitely variable rod positions for differing situations. A huge advantage of this tripod is the multifunctional and extremely wide buzzer bars designed for use with three or four rods and big pit reels. The material used for manufacture of the buzzer bars ensures high rod stability even during strong winds.

Code  
M-RPMON

### Tripod Premium

A high quality, 3 rod tripod manufactured from a very strong aluminium alloy with a solid, but compact design and an extra wide front buzzer bar (to fan out the rods). Equipped with heavy duty plastic locks and a metal joint with a dual tilt-locking mechanism. The legs can be locked in place by a slight turn. This tripod is supplied with a luxurious padded carry bag.

Code  
M-RPPRE

## Buzzbar green

High quality, 3 rod, fixed width aluminium buzzer bars with a powder coated finish in a dark olive colour and brass threads for bite alarms or rod rests.

Code	Length
M-BBG	51 cm
M-BBGL	66 cm

## Buzzbar Hardcore

A premium quality stainless steel buzzer bar for two rods, with spacing nuts, designed to be used with Hardcore Banksticks.

Code	Length
M-BBHCS	20 cm
M-BBHCL	28 cm

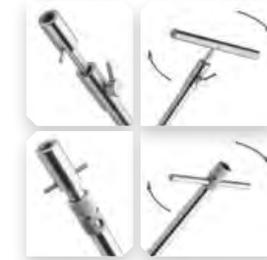

## Buzzbar Hardcore XL

A premium quality stainless steel buzzer bar for two rods, with spacing nuts, designed to be used with Hardcore XL Banksticks.

Code	Length
M-BBHCLS	20 cm
M-BBHCLL	28 cm

## Bankstick Hardcore

A heavy duty stainless steel bankstick with a unique auger drill point. The D shaped inner avoids turning when the locking screw is tightened and the bankstick is locked into position. Can also be used as an insert for the Hardcore XL Bankstick to gain valuable extra height.

Code	Length
M-BSHC85	50 - 85 cm
M-BSHC115	65 - 115 cm
M-BSHC145	80 - 145 cm

## Bankstick Hardcore XL

An uncompromising heavy duty stainless steel bankstick with a unique auger drill point and screw lock for ease of adjustment. A torque bar to insert the bankstick into the ground is also supplied. The inner portion of this bankstick can be interchanged with our standard width Hardcore bankstick to gain valuable extra height whilst remaining stable.

Code	Length
M-BSHCXL85	50 - 85 cm
M-BSHCXL115	65 - 115 cm
M-BSHCXL145	80 - 145 cm

## Screwing tool for bankstick Hardcore

A torque bar manufactured from stainless steel that enables the Hardcore Bankstick to be screwed into the hardest ground.

Code
M-BSHCST

## Bankstick Premium

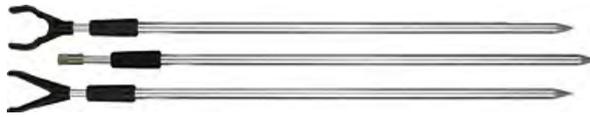

A telescopic bankstick with a cam lock and screw auger. It is manufactured from a strong aluminium with a powder coated finish in a dark olive colour.

Code	Length
M-BSPR105	60-105 cm
M-BSPR135	75-135 cm
M-BSPR165	90-165 cm

## Banksticks Aluminium

A classic telescopic bankstick with a heavy duty plastic lock. Available in U, V and screw thread versions.

Code	Length
M-ABSA90	50 - 90 cm
M-ABSA90U	50 - 90 cm
M-ABSA90V	50 - 90 cm
M-ABSA125	70 - 125 cm
M-ABSA125U	70 - 125 cm
M-ABSA125V	70 - 125 cm

## Spigot Banksticks Aluminium

A telescopic bankstick with a long solid metal spike for ease of penetration into hard ground. Available in U, V and screw thread versions.

Code	Length
M-ABSAS90	50 - 90 cm
M-ABSAS90U	50 - 90 cm

M-SRUM	U - micro

## Rubber rod rest

A rear rod rest top manufactured from soft rubber. Suitable for rods with a large diameter butt section.

Code
M-RRRE

### Screw rest soft U black / fluo (set 2pcs)

A luxurious rod rest manufactured from a flexible material that is easily adaptable to various rod or handle diameters. Model Fluo is luminescent and provides a glow in the dark effect for many hours after being exposed to daylight.

Code	Colour
M-SRSUB	black
M-SRSUF	fluo

### Rod rest MC1

These precisely manufactured and lightweight aluminium rests come in stylish black colour. The soft rubber inserts provide a perfect grip and excellent protection to your rods.

Code
M-RRMC1S
M-RRMC1L

### Adjusta-lok rest

A stainless steel back rest adjustable in width. The flexible arms hold the rod firmly but allow and easy movement when needed.

Code
M-RRAD

### Sure-lok rest

An excellent rear back rest with a simple but 100% reliable lock mechanism. It holds the rod safely and securely without sliding. The lock is quickly released whenever you lift up the rod.

Code
M-RRSL

### Butt-cup rest

Lightweight, full metal and really strong butt cap. Perfect for fishing rivers when you need the rod tip high to keep line off the water.

Code
M-RRBC

### Palm saver

This tool is great when pushing banksticks into hard ground to eliminate bruised palms. It can be used with a variety of banksticks and storm poles.

Code
M-ACOPASA

### Feeder Pod Multi

A multi position front rod rest for feeder fishing.

Code  
M-FPMULT

### Feeder Pod Simple

A rear rod rest for match or feeder rods.

Code  
M-FPSIMP

### Feeder Pod Multi Eva

An adjustable feeder rod rest manufactured from EVA foam.

Code  
M-FPMEVA

### Feeder Pod Multi Foam

A multi position front rod rest for feeder fishing.

Code  
M-FPMF

### Rod rest Match 12P

A rod rest manufactured from a high quality foam designed to store up to 12 rods or pole kits. Fitted with four telescopic legs and screw locks. The rear version (12P rear) is fitted with a specially shaped plate to prevent the pole from sliding.

Code  
M-RR12

### Rod rest Match 12P rear

A rod rest manufactured from a high quality foam designed to store up to 12 rods or pole kits. Fitted with three standard screw threads to secure it either to a tripod or bankstick with a standard thread. The rear version (12P rear) is fitted with a specially shaped plate to prevent the pole from sliding.

Code  
M-RR12R

### Rod rest Quattro 12P

A rod rest manufactured from a high quality foam designed to store up to 12 rods or pole kits. Fitted with four telescopic legs and screw locks. The rear version (12P rear) is fitted with a specially shaped plate to prevent the pole from sliding.

Code  
M-RRQ12

Code  
M-RRQ12R

### Rod rest Quattro 12P rear

A rod rest manufactured from a high quality foam designed to store up to 12 rods or pole kits. Fitted with four telescopic legs and screw locks. The rear version (12P rear) is fitted with a specially shaped plate to prevent the pole from sliding.

### Feeder Pod Vario

Special bankstick designed mainly for feeder fishing. It helps with perfect positioning of your rod close to your hand.

Code	Length
M-FPVAR45	45 cm
M-FPVAR75	75 cm

### Tripod UNI

An extremely stable tripod fitted with a standard thread and telescopic legs. It can be used with rod rests and other accessories with a standard thread.

Code  
M-TRIUN

### Pole roller Simple Light

A simple, lightweight and an easily transportable pole roller with four telescopic legs.

Code  
M-PRSL

Code  
M-PRMXL

### Pole roller Match XL

A new model of pole roller with an extra wide main roller, folding telescopic legs and side rollers.

### Pole roller Match Pro

An economic pole roller with strong telescopic legs and adjustable height. The hard EVA rollers can be folded for ease of transport.

Code  
M-PRMP

M-HREHMPLS04	4	Yes
M-HREHMPLS06	6	Yes
M-HREHMPLS08	8	Yes
M-HREHMPLS06B	6	No
M-HREHMPLS08B	8	No

## Carp Leads *CamoCODE*

A new generation of carp leads with an attractive design in three colours and increased resistance of the surface layer. All offered shapes are newly modified with regard to improving the function. The long casting models Distance comes with an improved aerodynamics. The Flat Pear and Gripper models have a significantly redesigned shape, which changes the position of the centre of gravity and increases the stability at the bottom and brings better ratio of successful strikes.

### Distance

A specially designed shape for fishing at long and extreme ranges. The aerodynamic shape and the optimum gravity centre allow for the big casts necessary.

Code	Weight
M-CLCCDI300	85 g / 3,00 oz
M-CLCCDI350	99 g / 3,50 oz
M-CLCCDI375	106 g / 3,75 oz
M-CLCCDI400	113 g / 4,00 oz
M-CLCCDI425	120 g / 4,25 oz

### Distance inline

Inline version of our Distance leads. A specially designed shape for fishing at long and extreme ranges. The aerodynamic shape and the optimum gravity centre allow for the big casts necessary.

Code	Weight
M-CLCCDI1300	85 g / 3,00 oz
M-CLCCDI1350	99 g / 3,50 oz
M-CLCCDI1400	113 g / 4,00 oz
M-CLCCDI1425	120 g / 4,25 oz

### Flat Pear

Probably the most popular and versatile shape of lead in use today across Europe.

Code	Weight
M-CLCCFP150	43 g / 1,50 oz
M-CLCCFP200	56 g / 2,00 oz
M-CLCCFP250	71 g / 2,50 oz
M-CLCCFP300	85 g / 3,00 oz
M-CLCCFP350	99 g / 3,50 oz
M-CLCCFP400	113 g / 4,00 oz

### Flat Pear inline

In-line version of our Flat Pear leads. Probably the most popular and versatile shape of lead in use today across Europe.

Code	Weight
M-CLCCFP150	43 g / 1,50 oz
M-CLCCFP200	56 g / 2,00 oz
M-CLCCFP250	71 g / 2,50 oz
M-CLCCFP300	85 g / 3,00 oz
M-CLCCFP350	99 g / 3,50 oz
M-CLCCFP400	113 g / 4,00 oz

### Gripper

A perfect lead for fast moving rivers or dropping rigs from a boat at long distance. The special shape with protrusions helps to keep the lead secure to the bottom.

Code	Weight
M-CLCCGR150	43 g / 1,50 oz
M-CLCCGR200	56 g / 2,00 oz
M-CLCCGR250	71 g / 2,50 oz

M-CLCCGR350	85 g / 3,00 oz
M-CLCCGR400	99 g / 3,50 oz
M-CLCCGR500	113 g / 4,00 oz
M-CLCCGR600	170 g / 6,00 oz
M-CLCCGR800	227 g / 8,00 oz

### Gripper inline

In-line version of our Gripper leads. A perfect lead for fast moving rivers or dropping rigs from a boat at long distance. The special shape with protrusions helps to keep the lead secure to the bottom.

Code	Weight
M-CLCCGRI150	43 g / 1,50 oz
M-CLCCGRI200	56 g / 2,00 oz
M-CLCCGRI250	71 g / 2,50 oz
M-CLCCGRI300	85 g / 3,00 oz
M-CLCCGRI350	85 g / 3,00 oz
M-CLCCGRI400	99 g / 3,50 oz
M-CLCCGRI500	113 g / 4,00 oz
M-CLCCGRI600	170 g / 6,00 oz
M-CLCCGRI800	227 g / 8,00 oz

### Back Lead Professional

Unique back leads developed by Mivardi. They are fitted with a 100% reliable magnetic clip designed specifically for use on dropping back lead. This ensures safe sliding on the 10m long cord even in strong wind and waves. Leads will drop off without risking line damage when striking and playing the fish. The optimally designed shape of the lead ensures a stable position on the bottom.

Code	Weight
M-BLP300	85 g / 3,00 oz
M-BLP400	113 g / 4,00 oz
M-BLP500	142 g / 5,00 oz

### Lead core SuperSoft - Stealth

A premium quality lead core in a digital camo pattern on an olive green base colour. Easy to splice with an extremely soft and flexible core helping to follow the contours of the lake bed.

Code	Length	Strength	Colour
M-HRELCST45	10 m	45 lb	Stealth

### Lead core SuperSoft - Snake camo

A premium quality lead core in a camouflage design of different tones of brown, almost invisible on a lake bed covered in decaying leaves and silt. Easy to splice with an extremely soft and flexible core helping to match the contours of the bottom.

Code	Length	Strength	Colour
M-HRELCSSC45	10 m	45 lb	Camou brown

### Hooklink Survivor

An uncoated and tightly woven hook link with an extremely high abrasion resistance made for fishing around snags. Despite its high strength it remains a thin diameter and very supple. The brown colour blends in well in muddy or silty bottoms and decaying plants.

Code	Length	Strength	Colour	Barva
M-HREHLSUR25	<b>NEW</b> 20 m	25 lb	Mud olive	Mud olive
M-HREHLSUR35	<b>NEW</b> 20 m	35 lb	Mud olive	Mud olive

### Fluorocarbon Xtra Supple

Soft and flexible fluorocarbon of the highest quality. It guarantees 100% invisibility under water and natural presentation of the bait. All this while maintaining minimum elongation, fast sinking and perfect abrasion resistance.

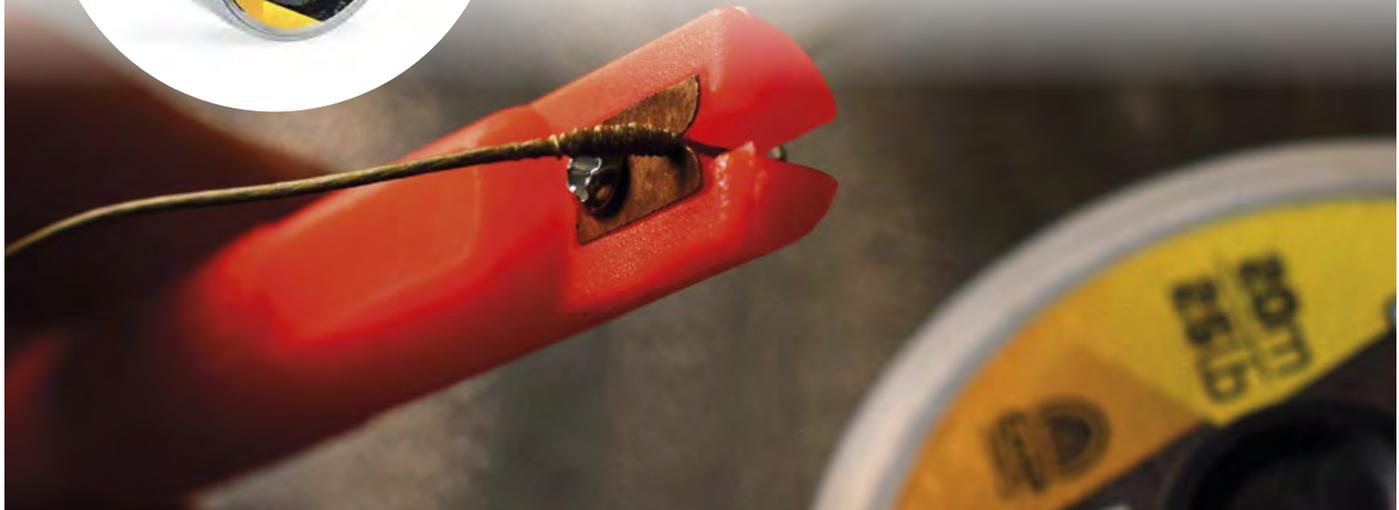

Code	Length	Strength
M-HREFCXS10	20 m	10 lb
M-HREFCXS15	20 m	15 lb
M-HREFCXS20	20 m	20 lb
M-HREFCXS25	20 m	25 lb

### Skinline StripShield

A strong, stiff coated hook link with a very supple braid at its core, for multiple rigs in any conditions. The stiff coating is easily stripped back but will not break with knot tying. The colour makes it almost invisible on the bottom.

Code	Length	Strength	Colour
M-HRELSSSH15	20 m	15 lb	Dark green
M-HRELSSSH25	20 m	25 lb	Dark green

## Rig Systems

**HELICOPTER RIG SYSTEM (+ QC SWIVEL + ANTI-TANGLE)**  
 A helicopter rig with a quickchange swivel and anti-tangle sleeve. Excellent for long distance casting without the risk of tangling. Length 35 cm

Code	Length
M-ACRSRHR	35 cm

**CHOD RIG SYSTEM (+ ANTI - TANGLE)**  
 A rig system made from 45 lb lead core that has a quickchange swivel to attach your chosen hook link and an anti-tangle sleeve. When fishing on a muddy bottom you can move the tube and QC swivel further away from the snap link. The lead is attached to the snap and sinks into the soft bottom but the hooklength stays on the bottom and provides an excellent bait presentation. Designed for long range casting. Length 80 cm.

Code	Length
M-ACRSLCCR	80 cm

**LEAD CORE SAFETY CLIP SYSTEM (+ QC SWIVEL + ANTI - TANGLE)**  
 The most popular rig system produced from 45lb lead core, high quality safety clip with pin, quickchange swivel and a tail rubber. Length 80 cm.

Code	Length
M-ACRSLCSC	80 cm

**LOOPED LEAD CORE + QC SWIVEL**  
 A professionally made 45 lb lead core rig with one loop and a quickchange swivel. Length 80 cm.

Code	Length
M-ACRSLCQC	80 cm

**DOUBLE LOOPED LEAD CORE**  
 A professionally made 45 lb lead core with two loops. Length 80 cm.

Code	Length
M-ACRSDLLC	80 cm

**WEED LOOK CAMO SYSTEM**  
 A pre-made rig made from imitation weed with lead core to hold the bottom perfectly. Supplied with a quick-change swivel, safety lead clip and tail rubber. Length 90 cm.

Code	Length
M-ACRSLWCS	90 cm

## Carp Ready Rigs - MTC hooks

### CLASSIC BOILIE RIG

A basic carp rig made with fast sinking line for use with boilies, pellets and other baits that should be presented on a hair. Strength 25 lb.

Code	Hook size	Length	Strength
M-ACRRCBR02	2	19 cm	25 lb
M-ACRRCBR04	4	19 cm	25 lb
M-ACRRCBR06	6	19 cm	25 lb

### LINE-ALIGNER RIG

A very popular rig with an olive green sinking hook link, a line aligner and anti-tangle sleeve to fix the rig to a quickchange swivel. Strength 25 lb.

Code	Hook size	Length	Strength
M-ACRRLAR02	2	19 cm	25 lb
M-ACRRLAR04	4	19 cm	25 lb
M-ACRRLAR06	6	19 cm	25 lb

### COMBI RIG

A unique rig made specially for Mivardi. The rig has semi Stiff Skinline with extremely stiff coating and a soft braided core. Strength 25 lb.

Code	Hook size	Length	Strength
M-ACRRCOR02	2	19 cm	25 lb
M-ACRRCOR04	4	19 cm	25 lb
M-ACRRCOR06	6	19 cm	25 lb

### ADJUSTABLE HAIR RIG

A ready rig with an adjustable length of hair to attach different sizes of bait without the need for special stoppers or for removing the hair.

Code	Hook size	Length	Strength
M-ACRRAHR02	2	19 cm	25 lb
M-ACRRAHR04	4	19 cm	25 lb
M-ACRRAHR06	6	19 cm <td 25 lb	

## Ready Rigs EASY

Professionally made, ready tied rigs for carp fishing. Japanese MIVARDI MTC hooks with teflon coating and high quality hook link material are used in this rigs manufacture. These rigs are available with different sizes of hook and various kinds of the hook link material. They offer an excellent value for money.

### CLASSIC BOILIE RIG EASY WITH SWIVEL

### Carbo Stick L / XL

Luxury throwing stick made from high modulus carbon and reinforced with 3K cross woven carbon. Thanks to its extremely low weight, it allows intensive baiting of boilies at long distances without the risk of fatigue. It comes supplied with a protective neoprene case.

Code	Diameter
M-CASTL	23 mm
M-CASTXL	29 mm

### Carbo Stick Bannana XL

Continuously curved throwing stick made from high modulus carbon and reinforced with 3K cross woven carbon. Many carp anglers prefer completely curved throwing stick because of the maximum rotation of the thrown boilies that helps to reach the longest casting distances. The Banana throwing stick is supplied with a protective neoprene sleeve.

Code	Diameter
M-CASTBXL	30 mm

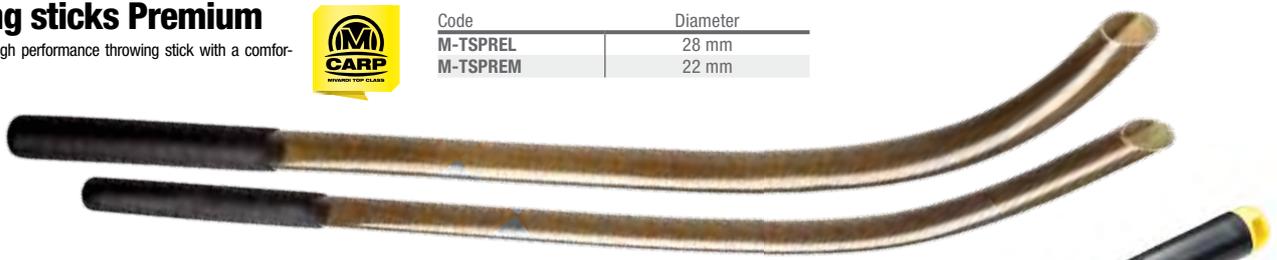

### Throwing sticks Premium

Lightweight and high performance throwing stick with a comfortable handle.

Code	Diameter
M-TSPREL	28 mm
M-TSPREM	22 mm

### Bait spoon

An optimum sized, light and solid bait spoon. It is perfect for throwing baits from the boat as well as preparing and mixing the baits on the bank.

Code
M-ACOBASP

### Throwing Spoon

A baiting spoon manufactured from a very durable plastic. Perfect for use with particle baits or method mix balls.

## Bivvy light New Dynasty RC

High power, remote control, moisture resistant, multi purpose bivvy light powered by built in lithium batteries with a battery life of up to 200 hours and a maximum power of 2w and 200lm. The round lamp cover ensures perfect light diffusion and the magnetic flat top surface allows you clip to the top or side of your bivvy or broly. The New Dynasty Bivvy Light provides several lighting modes in white or red colour, all easily changed via the remote control or using a button on the unit itself. Can be charged from any powerbank, car adaptor or AC adaptor with the standard USB connector.

Code  
M-LIBLNDRC

## Pouch for Bivvy light New Dynasty RC

An original protective and transport pouch for the New Dynasty bivvy light.

Code  
M-LIBLNDRC P

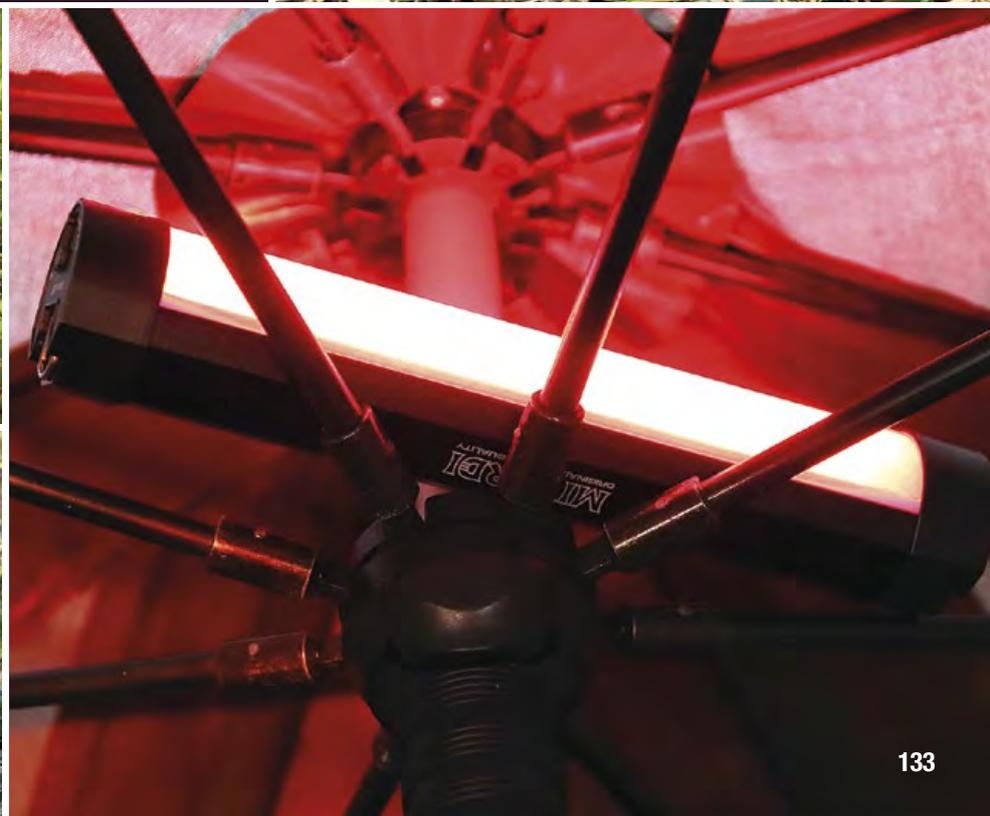

## Bivvy light Professional RC

An extremely handy and powerful hanging style bivvy light, powered by built in lithium batteries, with a maximum output 1.5 W and a maximum brightness of 150 lm. There are several lighting modes in both white and red, all accessed via the remote control. The Professional Bivvy Light can be charged from any powerbank, car adaptor or AC adaptor with the USB plug. Maximum continuous usage time of the fully charged lamp is approx. 30 hours.

## Inflatable boat M-BOAT AWB

A new generation of the M-BOAT inflatable boats with a lot of design and construction improvements. The significantly increased width and the modified shape maximise the interior space. This is also aided by a new design of the rear ends of the tubes that allows to place the oars as close as possible to the rear end of the tubes while keeping their function to maintain the sailing direction. The distinctly raised bow, coupled with a special front shaping, an inflatable keel over the entire length of the floor and a specially shaped oars provide excellent hydrodynamic properties and directional stability of the boat. It means a higher speed, easier control and lower power consumption when sailing with electric trolling motor. Reinforced material increases durability and puncture resistance. The inflatable floor with a double top layer is extremely durable and its green colour matches perfectly with the colour of the boat. The black oars and other accessories support the overall design of the boats.

### Inflatable boat M-BOAT

Unique range of inflatable boats, developed by Mivardi, specifically to be used with electric trolling engines. A specially shaped and raised bow section together with large diameter inflation tubes ensures perfect hydrodynamics and allows for higher speed whilst maintaining power efficiency. This series of boats provide a larger inner space in comparison to the common inflatable boats on the market. The models with an inflatable keel maintain sailing direction even in strong winds. The high specification Korean manufactured material offers incredibly low weight and the boats all come as standard with sliding seats with an anti-slip surface, folding oars manufactured from aluminium, powerful foot pump (with deflating function), transport bag and a repair set.

## BAIT BOATS

# CARP SCOUT

This completely new generation of Mivardi's Carp Scout bait boats, represents the most advanced technical and technological levels on the market. The new motors are capable of a much faster sailing speed, the innovative remote control unit has totally new software and user friendly interface. It provides much information from the fish finder, plus battery status, on board GPS details and many other improvements. The totally new system of two directional wireless transmission uses the 2.4GHz frequency with automatic channel hopping. The new GPS module is even more accurate and together with the new electronic compass they ensure straight sailing and accurate navigation in the AUTO and GPS modes. The remote control and all functions are same for every model in the new Mivardi Carp Scout family.

M-CSCOUTXLLN20

## CARP SCOUT XL

The Carp Scout XL is the largest model in the Carp Scout family. The trimaran hull has a capacity of 5kg of bait across the two independent hoppers (2.5kg in each hopper). Its perfect hydrodynamic shape is very stable even in windy conditions and the new propulsion system is incredibly power effective allowing sailing speeds up to 60 metres / minute.

### CARP SCOUT

The middle-sized model of the Carp Scout bait boat uses our well proven hull and new propulsion system. Capable of holding 2kg of bait across the two independent hoppers (1kg in each hopper) maximum sailing speed is up to 60 metres / minute. The batteries can be quickly changed thanks to the easy opening doors of the battery chambers and this model probably offers the optimum balance between size, weight, and the power.

M-CSCOUTLA10

### Bucket 25 l

A 25 litre groundbait bucket manufactured from a resilient plastic. The bucket is designed to be used with a separately offered groundbait bowl and cover.

### Bucket 17 l

A standard 17 l groundbait bucket manufactured from a durable plastic material. The cover is available separately.

Code	
M-GBBU25	Bucket 25 l
M-GBCOV25	Cover 25 l
M-GBBAS	Bassin 25 l
M-GBBU17	Bucket 17 l
M-GBCOV17	Cover 17 l

### Riddles

A complete range of round and square riddles suitable for all commonly used sizes of groundbait buckets. Available in various mesh diameters. Use to riddle multiple kinds of groundbaits, bloodworm and maggots.

Code	Mesh diameter	For bucket size
M-RID1734	3,4 mm	17 l
M-RID1754	5,4 mm	17 l
M-RID2534	3,4 mm	25 l

M-XBFHE25	2,5 mm	3 m
M-XBFHE28	2,8 mm	3 m
M-XBFHE35	3,5 mm	3 m

### Pole Cup Set

A set of lightweight plastic cups that ensure accurate feeding whilst pole fishing. The cups are fitted with a thread system that allows for rapid exchange and for simple storage.

Code
M-PCSET

### Feeder Tip Tube

Strong transparent tube for safe transport of feeder tips.

Code	Size
M-FTTT	60 x 8 x 5 cm

## Lightstick Aurora

A chemical lightstick with a superior lighting time with a high light output. A chemical lightstick with a superior lighting time with a high light output.

Code	Diameter	Colour
M-LSAURO3	3,0 mm	green
M-LSAURO45	4,5 mm	green

## Lightstick Clip On

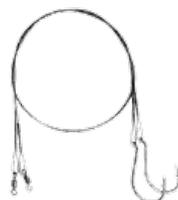

A chemical lightstick with an extraordinary operating time. They can be directly attached to a feeder tip. A separate adapter is not required.

Code	Diameter	Colour
M-LSCLONSS	0,6 - 1,4 mm	green
M-LSCLONS	1,5 - 1,9 mm	green

## Wire Leaders Predator

Wire leaders for predator fishing covered with a thin and elastic nylon coating. Fitted with heavy duty swivels and snap links. They are supplied in multiple versions with two pieces per bag.

Code	Length	Strength

26	M-PB2L	210 x 110 mm

These boxes are ideal for the storage of terminal tackle, rig bits, soft artificial baits etc.

## U Float Alborella

A long bodied float for bleak fishing in still or running water.

Code	Size
M-FLALB002	0,20 g
M-FLALB003	0,30 g
M-FLALB005	0,50 g
M-FLALB007	0,70 g
M-FLALB010	1,00 g

## U Float River R1

A pear shaped float for fishing in medium or fast running water. Suitable for holding back in the current.

Code	Size
M-FLRR1020	2,00 g
M-FLRR1030	3,00 g
M-FLRR1040	4,00 g
M-FLRR1050	5,00 g
M-FLRR1060	6,00 g

## U Float River R2

A sensitive float for fishing in slow or medium running rivers or in still waters with a high depth. Excellent for use when fishing with a long telescopic pole.

Code	Size
M-FLRR2003	0,30 g
M-FLRR2005	0,50 g
M-FLRR2007	0,70 g
M-FLRR2010	1,00 g
M-FLRR2015	1,50 g
M-FLRR2020	2,00 g

## U Float Canal C1

A popular float style for fishing in still or slow moving water with a high visibility and sensitive antenna.

Code	Size
M-FLCC1003	0,30 g
M-FLCC1005	0,50 g
M-FLCC1007	0,70 g
M-FLCC1010	1,00 g
M-FLCC1015	1,50 g
M-FLCC1020	2,00 g

## U Float Carp

This float with very strong body is perfect for carp fishing.

Code	Size
M-FLCC002	0,20 g
M-FLCC003	0,30 g
M-FLCC005	0,50 g
M-FLCC007	0,70 g
M-FLCC010	1,00 g

## U Float Bolo

A bolognese float with a thick and perfectly visible balsa antenna. Suitable also for fishing in strong currents.

Code	Size
M-FLB060	6,00 g
M-FLB080	8,00 g
M-FLB100	10,00 g
M-FLB120	12,00 g

### U Float S1

A float with an interchangeable antenna for a 3mm chemical light.

Code	Size
M-FLS1010	1,00 g
M-FLS1020	2,00 g

### U Float S2

A float with an interchangeable antenna for a 4.5mm chemical light.

Code	Size
M-FLS2010	1,00 g
M-FLS2020	2,00 g
M-FLS2030	3,00 g
M-FLS2040	4,00 g

### U Float S3

A sliding float used for predator fishing. Fitted with an interchangeable antenna for a 4.5mm chemical light.

Code	Size
M-FLS3040	4,00 g
M-FLS3060	6,00 g
M-FLS3100	10 g

### U Float PT1

A float for predator fishing. Fitted with interchangeable antenna for a 4.5mm chemical light.

Code	Size
M-FLPT1060	6,00 g
M-FLPT1080	8,00 g
M-FLPT1100	10 g
M-FLPT1150	15 g
M-FLPT1200	20 g

### U Float PT3

A fixed or sliding float designed for predator fishing. A 4.5mm chemical light can be inserted into the floats antenna.

Code	Size
M-FLPT3080	8,00 g
M-FLPT3100	10 g
M-FLPT3120	12 g
M-FLPT3150	15 g
M-FLPT3200	20 g

### U Float PT2

A sliding float used for predator fishing. The 4.5mm chemical light can be inserted into the antenna tube.

Code	Size
M-FLPT2040	4,00 g
M-FLPT2060	6,00 g
M-FLPT2080	8,00 g
M-FLPT2100	10 g

### U Float PT4

A fixed or sliding float for predators where the line passes through the body of the float. A 4.5mm chemical light can be inserted into the antenna tube.

Code	Size
M-FLPT4080	8,00 g
M-FLPT4100	10 g
M-FLPT4120	12 g
M-FLPT4150	15 g
M-FLPT4200	20 g

### U Float M1

A float for still water or a slow running rivers supplied with a visible antenna with the eye directly mounted on the antenna for increased sensitivity.

Code	Size
M-FLM1005	0,50 g
M-FLM1075	0,75 g
M-FLM1010	1,00 g
M-FLM1015	1,50 g

### U Float M3

A drop-style float with a visible plastic antenna. Suitable for fishing in rivers and for holding back in currents.

Code	Size
M-FLM3030	3,00 g
M-FLM3040	4,00 g
M-FLM3050	5,00 g
M-FLM3060	6,00 g
M-FLM3080	8,00 g

### U Float M4

A long-bodied float for sensitive fishing in moving waters.

Code	Size
M-FLM4010	1,00 g
M-FLM4015	1,50 g
M-FLM4020	2,00 g
M-FLM4030	3,00 g
M-FLM4040	4,00 g
M-FLM4050	5,00 g

### U Wagglers W1

A wagglers with a fixed loading capacity and a high quality multicolour antenna.

Code	Size
M-FLW10302	3 + 2 g
M-FLW10402	4 + 2 g
M-FLW10502	5 + 2 g
M-FLW10602	6 + 2 g
M-FLW10802	8 + 2 g

### U Wagglers W2

A wagglers with a fixed loading capacity and a highly visible antenna for longer and more accurate casting.

Code	Size
M-FLW20402	4 + 2 g
M-FLW20602	6 + 2 g
M-FLW20802	8 + 2 g
M-FLW21002	10 + 2 g
M-FLW21202	12 + 2 g

### U Wagglers W3

A wagglers with an adjustable weight using the supplied brass washers. Supplied with a quality multicolour antenna.

Code	Size
M-FLW30601	6 + 1 g
M-FLW30801	8 + 1 g
M-FLW31001	10 + 1 g
M-FLW31201	12 + 1 g

# M1

COMPETITION  
PREMIUM QUALITY FOR CHAMPIONS

## M1 - TEAM MIVARDI

The elite level of MIVARDI groundbaits, available in 1kg packs manufactured for competitions and situations when it is necessary to attract the fish from a distance and concentrate them in a single place. These groundbaits use extremely successful recipes developed by the members of several national teams. They contain high quality components usually not found in commercial mixtures because of their cost. The M1 groundbaits can be combined with the other Mivardi mixes or components from our Premium Additives range. In this way, a mixture for specific conditions can be prepared. In spite of this variability, it is still an easy to use and very effective range of groundbaits.

# Team MIVARDI

### M1 - Carp

A heavy binding groundbait, in a yellow colour, made for carp and larger fish. It is also suitable for combining with other M1 groundbaits and to use in fast moving water. This groundbait is ideal for the addition of maggots and live baits. It breaks down slowly on the bottom and keeps fish in the area for a sustained time period. Includes a lot of large particles that are ideal for attracting carp. These attractive particles stay firmly on the bottom and do not rise to the surface.

### M1 - Bream

An effective medium textured groundbait with an intensive and sweet aroma that is very attractive to bream. A Bright yellow-bronze colour and a medium texture help to make an attractive carpet on the bottom. This groundbait can be mixed with other M1 mixes to adjust the binding consistency and texture.

### M1 - Bream Pro

A sweet and coarse textured groundbait that has a yellow colour. Developed to attract big bream and other big fish, especially in rivers during the summer months. The high binding power allows for the addition of ample amounts of live baits if required.

### M1 - Black Roach

A very dark, almost black coloured groundbait, that is excellent for smaller roach or for fishing under difficult conditions. The fine texture does not feed the fish and the specific aroma intensively attracts them. This groundbait can be added to the other mixes to make their texture finer and darker and adapt them for fishing in clear or cold water.

### M1 - Big Roach

An excellent groundbait in a bronze-brown colour. Includes a lot of crushed hemp seeds plus other, very effective ingredients. It is intended for large roach and can be used as the base of 'all-round mixes' or even be used without any additives. Works well on the bottom or in mid-water, depending upon the added ingredients. A pleasant but not aggressive aroma attracts all kinds of fish and holds them in the feeding zone for extended time periods.

### M1 - River

A coarse textured and yellow coloured groundbait with high binding qualities. It is suitable for fishing in fast moving waters. After wetting, the mixture becomes sticky and can be combined with either high quantities of maggots or other livebaits. The groundbait has a sweet taste and unique and pleasant aroma.

Code	Name	Weight
M-GTM1BREA	M1 - Team Mivardi Bream	1 000 g
M-GTM1BRHE	M1 - Team Mivardi Bream Pro	1 000 g
M-GTM1RIVE	M1 - Team Mivardi River	1 000 g
M-GTM1LAKE	M1 - Team Mivardi Lake	1 000 g
M-GTM1CARP	M1 - Team Mivardi Carp	1 000 g
M-GTM1BIRO	M1 - Team Mivardi Big roach	1 000 g
M-GTM1BLRO	M1 - Team Mivardi Black Roach	1 000 g

### M1 - Lake

A binding groundbait with a medium texture. It is intended for use in lakes and slow moving waters and ideal for use in mid-water. When mixed with binding components or M1 groundbaits, it goes rapidly to the bottom and works starting to attract fish immediately. This groundbait is recommended to be used together with the other mixes and is designed for use with any species.

# D1

## DOUBLE POWER

CONCENTRATED & SUCCESSFUL

## D1 – DOUBLE POWER

The most popular and best selling range of groundbaits in the Czech Republic. Now supplied in new packing with an increased concentration of attractors. Until now this groundbait was marketed as 'LORPIO-MIVARDI recipe' in 1.9kg bags. Its huge success was thanks to the recipe being based on biscuit meal and grilled ingredients. It forms a perfect consistency after wetting and this in turn helps the groundbait to work more effectively in the water.

### D1 – Carp Nut

Carp love many kinds of nuts. This was our starting point when we designed our new groundbait with a dark bronze colour and unique formula. An intensive but not aggressive aroma helps to attract carp all year round. Suitable as well for use in difficult conditions when the fish are not so active.

### D1 – Carp Scopex

A popular groundbait in a bronze & yellow colour, it works best in warm water (from May to September). The consistency after wetting is optimal for use with a feeder or alternatively on its own. The attractive Scopex aroma is loved by carp and its effectiveness in various conditions is proven over many decades.

### D1 – Carp Halibut

A dark coloured, bronze tinged groundbait in the original MIVARDI formula. During its development, we worked closely with carp fishing specialists. This mix is designed for the very specific conditions of Czech venues and this is why it is one of the most successful groundbaits on the Czech market.

### D1 – Carp Honey

A successful groundbait with very light yellow colour developed by carp fishing experts. A fine but very stable honey aroma keeps the fish around groundbait for extended periods of time. A natural honey extract makes the groundbait sweet and increases its attractiveness. Excellent for use in spring till autumn.

### D1 – Carp Strawberry

A red coloured groundbait with a sweet taste and indulgent strawberry aroma. Works especially well in warmer water, therefore it is most suitable for using from May till September. It is made for fishing in ponds and lakes because it attracts fish from a long distance.

### D1 - Feeder Lake

A medium-dark coloured groundbait for feeder or method feeder fishing in still or slow moving waters. This groundbait mix was developed by Czech feeder specialists.

### D1 - Feeder River

A groundbait intended to be used for feeder fishing and developed by the Czech champions. It attracts all kinds of big fish. Suitable for fishing in deep water or when fishing in rivers with strong currents. Thanks to its binding properties it can be used with loads of maggots or other live baits.

### D1 - Roach Black

This dark coloured groundbait was developed for roach. It works well in mid-water, so it is suitable for lakes and ponds. It is an excellent groundbait for cold waters and in situations where the fish are difficult to catch.

Code	Name	Weight
M-GD1CANUT	D1 - Carp Nut	1900 g
M-GD1CASCO	D1 - Carp Scopex	1900 g

M-GD1ROBLA	D1 - Roach Black	1900 g
M-GD1FERIV	D1 - Feeder River	1900 g
M-GD1FELAK	D1 - Feeder Lake	1900 g

## V1 - EXTREME

A new generation of basic groundbaits in an economical 3kg package. The groundbaits are suitable for baiting by hand or for inclusion in a feeder. These groundbaits consist of various kinds of crushed breads, biscuits, seeds and other ingredients. Thanks to these ingredients the V1 groundbaits are more effective than other commonly used groundbaits in a comparative price range (based on 'aromatized corn meals').

### V1 - Carp Strawberry

A light and slightly red coloured groundbait with superb binding ability and a unique consistency when wet. The Intensive strawberry aroma attracts carp to the groundbait. Works best in the summer months.

### V1 - Carp Honey

A coarse textured groundbait in a yellow colour and with a very attractive honey aroma. This aroma together with the large particles in the groundbait ensure the fish stay in the baited area for long durations of time.

### V1 - Carp Special

An extremely coarse textured groundbait in a red colour. The sweet aroma is loved by carp of all sizes and whilst this groundbait works well at any time of year, it is excellent in cold water conditions.

### V1 - Carp Magic

A light coloured groundbait with a strong fruit aroma. Works well in warm water from May to September. Thanks to the consistency and the binding ability of this groundbait increased amounts of maggots and live baits can be added to this groundbait.

### V1 - Scopex / Vanilla

A strong flavoured groundbait with a coarse texture and light colour. Very attractive for carp and other big fish. Very effective groundbait especially in the warmer weather.

### V1 - Feeder

A superb basic groundbait mix for feeder fishing. The consistency after wetting ensures its perfect function in a feeder. The groundbait is a bright bronze colour.

### V1 - Carp Goulash

Medium coarse red-brown groundbait with an intense spicy aroma. It contains a unique mixture of spices and aromas of Carp goulash, which has been showing great results in carp fishing baits and groundbaits for many years. It is suitable for year-round use and works well in cold water.

### V1 - Carp Extra

An extremely coarse textured groundbait which will attract and hold carp for long periods. The uniquely sweet and slightly savoury flavour is based on the natural ingredients within. It is an effective groundbait all year round.

### V1 - Pineapple

Light yellow coloured and medium textured groundbait with a very intense pineapple aroma. Combined with the optimal consistency, which ensures active work in the water, this groundbait brings really quick results. It is perfect in cold water at the beginning of the season as well as in the biggest summer steams, when fish hardly react to other groundbaits.

Code	Name	Hmotnost
M-GV1CASTR	V1 - Carp Strawberry	3 000 g

M-GV1CAGOU	V1 - Carp Goulash	3 000 g

# Method Feeder MIX

A series of mixes developed specifically for method feeder fishing. Optimal consistency and texture causes an active work in the water and thus releasing of the intensive food signal. At the same time, it ensures the required working time / dissolving time in the feeder. Each mixture contains a significant proportion of the highest quality active ingredients, which bring long-term and proven quality results in the highest range of Mivardi boilies. For an extremely attractive price, you get a perfectly tuned mixture for method feeder, which does not deny its inspiration in boilie mixes of premium quality.

## Method Feeder MIX

Code	Name	Weight
M-GMFKRR01	Method feeder mix - Krill & Robin Red	1000 g
M-GMFCFP01	Method feeder mix - Cherry & fish protein	1000 g
M-GMFBHA01	Method feeder mix - Black halibut	1000 g

## MFM Black Halibut

A mixture of dark color with the typical aroma of halibut pellets. Contains selected fish meals, fish extracts and pre-digested fish protein. It is suitable for year-round use. It brings excellent results in warmer water if the fish eat the groundbaits just a little and very carefully.

## MFM Cherry & Fish protein

An interesting combination of our very effective and proven Cherry flavour, supplemented by a strong dose of soluble fish protein, fish meal and other extracts. The dark black-red color together with the optimal texture and solubility in the water make a fish magnet from each feeder you throw in the water.

## MFM Krill & Robin Red

A very effective mixture with a thorough proportion of krill meal and the original Haith's Robin Red. These components give the mixture a typical dark red color. The optimally designed consistency ensures endurance in the feeder during long casts and gradual dissolution after impact with water.

## Method Feeder PELLETS

Mini pellets, specially developed for Method and Feeder fishing. They are also a perfect additive to your PVA mixes when fishing for carp. They are full of high quality ingredients, which ensure their high efficiency and good digestibility. After wetting, they get sticky to hold securely in the feeder and dissolve slowly.

### Method Feeder PELLETS

Code	Name	Weight
M-GMPEKRR007	Method pellets - Krill & Robin Red	750 g
M-GMPECFP007	Method pellets - Cherry & fish protein	750 g
M-GMPEBHA007	Method pellets - Black halibut	750 g
M-GMPECAG007	Method pellets - Carp Goulash	750 g

### MFP Krill & Robin Red

Very effective feeder pellets with a thorough proportion of krill meal and the original Haith's Robin Red. These components give the mixture a typical dark red color. At the same time, they ensure high attractiveness and a strong food signal released immediately after being thrown into the water.

### MFP Cherry & Fish protein

An interesting combination of a very effective and proven cherry aroma, mixed with a serious portion of soluble fish protein, fish meal and other extracts. These pellets are characterized by a dark black-red color and a pleasant and intensive aroma.

### MFP Black Halibut

Dark coloured pellets with a typical halibut aroma. They contain selected fish meals, fish extracts and pre-digested fish protein. They are suitable for use in any period of the year. They provide excellent results in warmer water where they intensively release attractors and oils into a wide area.

### MFP Carp Goulash

These pellets contain very effective spice extracts and other typical ingredients used in Mivardi Carp goulash boilies and additives. Together with fishmeal, fish and milk proteins, they form a very attractive and effective bait with intensive spicy food signal. They work well all year round, including situations where the fish are not very active.

# RAPID

The range of RAPID carp baits are uniquely developed by Mivardi and produced only by us, in our own production plant in the Czech Republic. The medium and high level ranges of Rapid boilies and pellets, contain unique and extremely efficient ingredients such as pre-digested fish protein concentrate CPSP90, special krill meals, liver extracts, pure squid meal, specific mixes of spices, essential oils etc. These ingredients enhance dramatically, the natural attractiveness of these baits. All RAPID recipes contain the highest quality essences and flavours, designed exclusively for us, in specialist flavour laboratories in the UK. These boilie essences meet stringent requirements that other food industry flavourings simply cannot duplicate (stability over time). Every little detail ensures Mivardi Rapid baits are both supreme quality and highly attractive (such as the use of ONLY REAL eggs in all levels of our ready-made boilies). Mivardi also, of course, has an official supplier's certification from Haith's in the UK, for the use of their Robin Red (TM).

## R-FACTOR

A unique liquid additive developed by Mivardi, that is used in the production of Rapid baits.

The aim of this additive is to provide extremely gentle stabilization and conservation of the ready-made boilies and other products (Boilie paste, Pop Ups, etc.). This supplement does not change the pH level or the taste of the boilie in any way. With R-FACTOR we can achieve an optimum consistency and maintain the baits stability for extended time periods, however R-FACTOR in no way impedes the food signals from the boilie. An interesting side effect of this additive is a rich colour, as R-FACTOR enhances colour pigments. What is really impressive is the behaviour of the boilies in water. The surface of the boilie starts eroding over time, creating a cloud of food signals around the boilie. This effect continues gradually until the hard centre of the boilie is reached. The centre of the bait remains hard and compact and this aids in keeping the bait in the water for longer than 24 hours (water temperature dependant).

## NATURAL CONCEPT

Rapid Natural Concept is made with new production technology and equipment, which is one of the best in Europe. It allows us to produce boilies with the same parameters, structure and operation as you will get from home-made manual production. The new production is not limited by the roughness of the components and allows the addition of real fruit, liver and other fresh ingredients. Of course, fresh eggs are used in all produced boilies. Preservation and stabilisation is built to the maximum with natural substances and does not cause a change in the flavour or taste of the baits. You can recognise the new generation, not only by the complementary Natural Concept logo on the bag, but also by the interesting „more natural“ surface of the boilies. They are now heavier, denser and have a more accurate diameter and shape. Just like careful home production. This means a significantly longer range and higher accuracy when using a throwing stick. Last but not least, you will notice a much higher stamina life while the ball is in the water.

# BOILIES

# RAPID

# PLATINUM

If you are looking for an uncompromising carp bait you should choose the Rapid Champion Platinum range. Using only the finest available ingredients, this range was created to catch shy and educated carp who can recognise a real quality food source. The majority of the meals

have been extruded prior to production and the high-quality liquid foods, essential oils and essences, are made in UK, exclusively for Mivardi. Using the new R-FACTOR additive we can achieve the optimal consistency and conserve the boilie gently and effectively.

### RAPID PLATINUM

#### B17

Extremely high calibre bait based on the highest quality fish meals with a serious dose of krill and shrimp meals. The taste is initially very sweet and then it changes to extremely hot and spicy. An intensive flavour of marine ingredients and spicy extracts is complemented with the light tones of soft fruit. This bait surpassed all expectations on all venues where it has been tested and is now a clear choice for every single one of our testers. There is simply no better bait on the market.

### RAPID PLATINUM

#### CRAZY LIVER

Original, effective, highly attractive liver boilies. These are the new Crazy Liver boilies manufactured with an extremely high amount of Liver Powder, Liquid Liver Extract and Fresh Pork Liver. The aroma is gently enhanced by a high-quality liver flavour from the in UK.

### RAPID PLATINUM

#### SEA

Over many years this boilie has proved its ability to outsmart even the most cautious of carp. It contains a lot of pure and natural ingredients that the fish are actively searching for. These ingredients paint a picture of a natural food source to large carp and they lose any caution when they are feeding on these baits. Used by countless anglers that catch many specimen carp every year.

### Boilie Dry Bag New Dynasty

Perfectly breathable bag made of durable rubber mesh that does not absorb water or odours. It is designed to keep the baits dry and with perfect air access during your sessions or to dry the boilies slowly to maximum hardness. Thanks to the reinforcement the bag keeps its shape. The perfect manufacturing quality and the long life zippers are commonplace.

# BOILIES

# RAPID EXCELLENT

An all round family of boilies with a fast action. You can choose from either a sweet, spicy or fishy type boilie. The Rapid Excellent series is designed for day sessions when you do not have infinite time to build up a hot spot, yet, thanks to the ingredients used and

a well balanced mix, these boilies can be equally as successful in a longer baiting program. The superb R-FACTOR additive in the boilie works quickly in the water and the specific flavours, developed by Mivardi, means UK carp won't have encountered them before.

### RAPID EXCELLENT CARP GOULASH

It is not necessary to introduce this legendary boilie. This boilie is extremely desirable to carp and is successful wherever it is used. Its unique aroma from our own production plant, comes from the thirteen herbs added into the mix. This hot and spicy flavour works like a magnet for carp. It is well suited to those venues with a lot of silt on the bottom because it doesn't absorb the smell of the silt as much as the other boilies. The R-FACTOR helps this boilie release stable food signals for many hours.

### RAPID EXCELLENT MONSTER CRAB

Exciting news with the launch of the intensive Monster Crab flavour exclusively made for the Rapid range in the UK. Together with the carefully formulated mix of fish meals, soluble proteins and extruded ingredients, it makes an extremely effective bait. These boilies work well from spring to autumn even without prior pre-baiting.

### RAPID EXCELLENT KING PLUM

An interesting and very effective combination of a mix with a large proportion of fish meal, soluble fish proteins and liquid liver. The addition of sweeteners and high quality plum flavour created boilies with high attractiveness and very stable efficiency, regardless of your venue and period of season.

# BOILIES RAPID EASY CATCH

A totally new series of attractive and fast acting boilies. They work particularly well for shorter sessions. The composition of the mix with a high percentage of extruded ingredients supports good digestibility even in cold water conditions.

The high-quality essences and bright colours increase the attractiveness without the use of boosters or additional attractors. An optimum consistency with our R-FACTOR additive.

## RAPID EASY CATCH

### SQUID

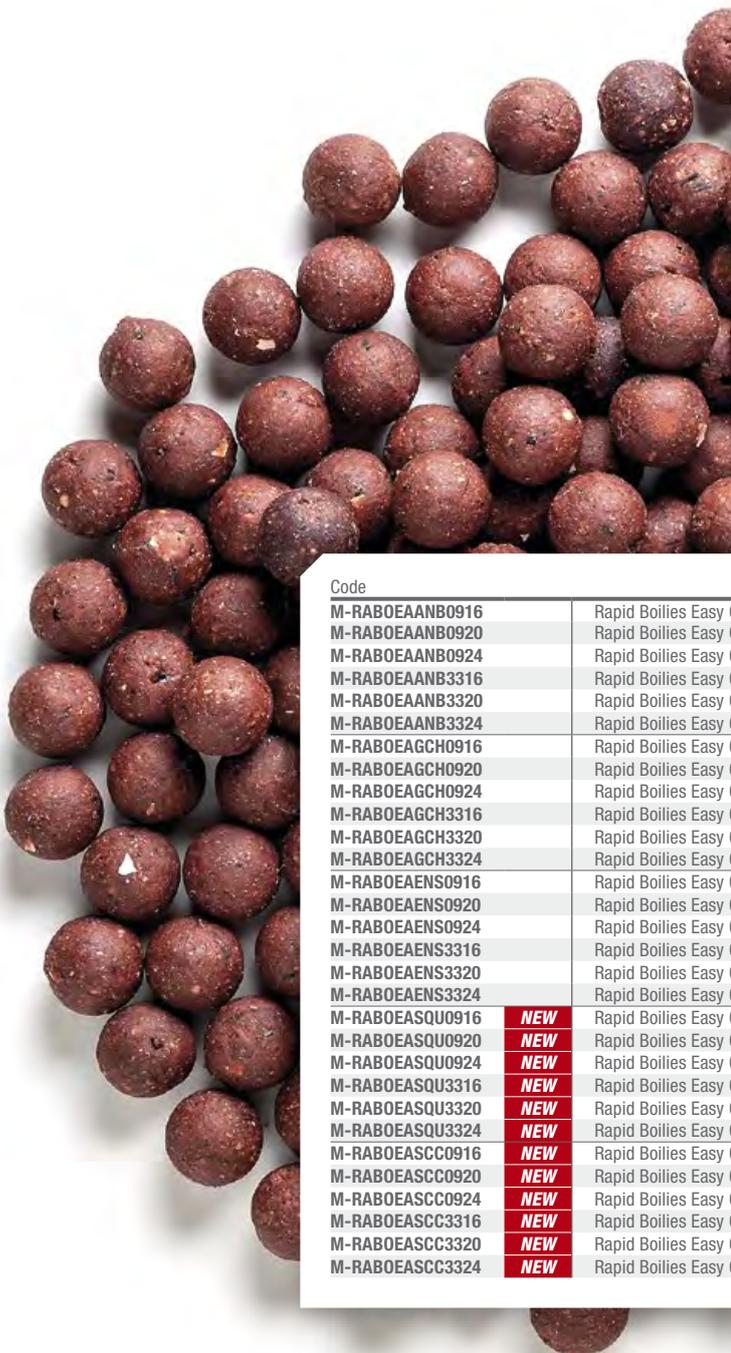

Boilies of the basic Easy Catch series with an efficiency and results that will probably beat much more expensive products. From the beginning of its testing, it brought a surprisingly high number of nice sized catches. It is characterised by reliable and very stable results in any conditions. These are achieved by an optimal combination of attractiveness, well balanced mix, slow but continuous solubility and good digestibility.

## RAPID EASY CATCH

### SCOPEX + CREAM

Highly attractive sweet boilies of creamy white colour with an intensive scopex and sweet cream flavour. Thanks to its excellent digestibility and gradual solubility, it is also suitable for massive baiting. It is really good choice for fishing in cold water.

### RAPID EASY CATCH

#### PINEAPPLE + N.BA.

Extraordinary results during the testing period (in cold water conditions) confirmed the high attractiveness of this bait. The sweet mixture mostly consists of extruded meals with the addition of a bird food.

### RAPID EASY CATCH

#### GARLIC + CHILLI

A really effective and easily digestible mix with a high ratio of extruded meals with the addition of pure Chilli spice and the superb garlic essential oil. Even in very low dosage the rich aroma works perfectly at the beginning of the season but it is also attractive all year round.

### RAPID EASY CATCH

#### ENGLISH STRAWBERRY

An intensively aromatic, sweet and bright red coloured boilie with fragrant strawberry flavour. It works rapidly and it does not require pre-baiting. This well-balanced mix formulated from extruded meals and bird food ensures a good digestibility even in cold water conditions where this boilie stands out from the rest.

## BOILIES RAPID BOOSTERED

Ready made boilies produced with Mivardi Natural Concept technology. These boilies are boosted and thoroughly soaked with the special mixture of all liquids and liquid foods used in the original recipe of the appropriate type of boilies.

This mixture of liquids is adjusted to stay in the jar for a very long time in a liquid state. The jar is hermetically sealed during production. During storage and distribution the liquid cannot dry out and there is no risk of leakage.

## BOILIES RAPID PRO ACTIVE

The long time awaited and carefully developed group of specially modified Rapid boilies from the Platinum and Excellent series. This extremely ambitious project aims to offer the well-known and proven series of Rapid boilies in a special version, which without any change in the key functional components

will bring perfect and active work in the water with an immediate start within seconds after throwing into the water. Gradual and continuous dissolving of the baits releases an attractive food cloud and a decent sludge into the surroundings. At the same time, this spreads a strong food signal even when used in very cold water. However, the center of the boilie remains firm until the last phase. Therefore, the catches on ProActive boilies of which only a small but still sufficient ball with a diameter of a few mm remains. This boilie significantly increases the quantity and frequency of the bites and, above all, it increases the chance to get a bite in a situation where the fish leave the other baits unnoticed.

## RAPID POP UP REFLEX DUMBELLS REFLEX

An exclusive series of fluoro coloured pop ups and dumbells, tough, yet easy to be cut or needled. Extremely high buoyancy, they can stay in the water for several days without losing colour or buoyancy. They are made by us, at the Mivardi production plant in the Czech Republic. The attractors and flavours are added into the mix for long term flavour release, unlike other pop us on the market that are made neutral and simply sprayed with flavour.

► Rapid Dumbells Reflex

## BOILIES RAPID MULTI MIX

Economic mixture of various kinds and sizes of Rapid boilies. They are suitable for heavy baiting. It contains mostly boilies from spicy or fish mixes but there is a small amount of sweet boilies in there as well.

Code	Name	Weight	Diameter
M-RABOMIX25	Rapid Boilies Multi mix	2,5 kg	mix
M-RABOMIX50	Rapid Boilies Multi mix	5 kg	mix
M-RABOMIX100	Rapid Boilies Multi mix	10 kg	mix

# RAPID BOILIE MIXES

The original recipe mixes as used in the production of Rapid Champion Platinum boilies. With these mixes, you can prepare your own home-made boilies with superb results. Detailed information regarding the available variants of these mixes can be found in the descriptions of our ready-made boilies. Home manufacture of boilies allows for preparation of various shapes and sizes of bait. Also, the flavour level of the baits can be altered for specific conditions at your venue. During preparation of your home-made boilies, use one bucket of our dry mix and add one bottle of the R-FACTOR additive plus one bottle of Rapid Aminoliquid plus 9 or 10 standard eggs. If you need to prepare very hard boilies you can add 15 - 30 grams of egg albumin per one kilo of dry mix.

## BOILIE MIX SEA

# R-FACTOR LIQUID

A unique liquid additive developed by Mivardi. It is used when preparing home-made boilies from our Rapid boilie base mixes. With R-FACTOR you will achieve a perfect texture and your boilies will remain stable over time without the need for freezing. R-FACTOR also helps to perfectly dissipate your flavour throughout the mix for optimal release in the water. One bottle of R-FACTOR should be used with one bucket of Rapid boilie mix.

Code	Name	Volume
M-RALARFA25	R-FACTOR liquid	250 ml

## Magicorn

Floating artificial corn kernels. Realistic shape and size. Available in several flavours.

Code	Name	Colour	Quantity
M-RAMCPSTR	MagiCorn Pop Up - Strawberry	mix	15
M-RAMCPSCO	MagiCorn Pop Up - Scopex	mix	15
M-RAMCPGAR	MagiCorn Pop Up - Garlic	mix	15
M-RAMCPFIS	MagiCorn Pop Up - Fish	mix	15
M-RAMCPSWE	MagiCorn Pop Up - Sweetcorn	yellow	15

## Magicorn stoppers

Hair stops in the shape of corn kernels. Available in three bright colours.

M-RAMCSTYEL	MagiCorn Stops - Yellow	neutral	15
M-RAMCSTORA	MagiCorn Stops - Orange	neutral	15
M-RAMCSTMAG	MagiCorn Stops - Magic Glow	neutral	15

## Magicorn nite glow

Buoyant and glowing imitation corn kernels. They glow for up to 7 hours. Can be re-charged by a torch, daylight or UV light.

Code	Name	Flavour	Quantity
M-RAMCPMAG	MagiCorn Pop Up - Magic Glow	neutral	15
M-RAMCSSMAG	MagiCorn Slow Sink - Magic Glow	neutral	15

Code	Name	Weight
M-RAMMCHA30	Method mix Rapid Champion	3000 g
M-RAMMEXC30	Method mix Rapid Excellent	3000 g

## METHOD MIX RAPID CHAMPION

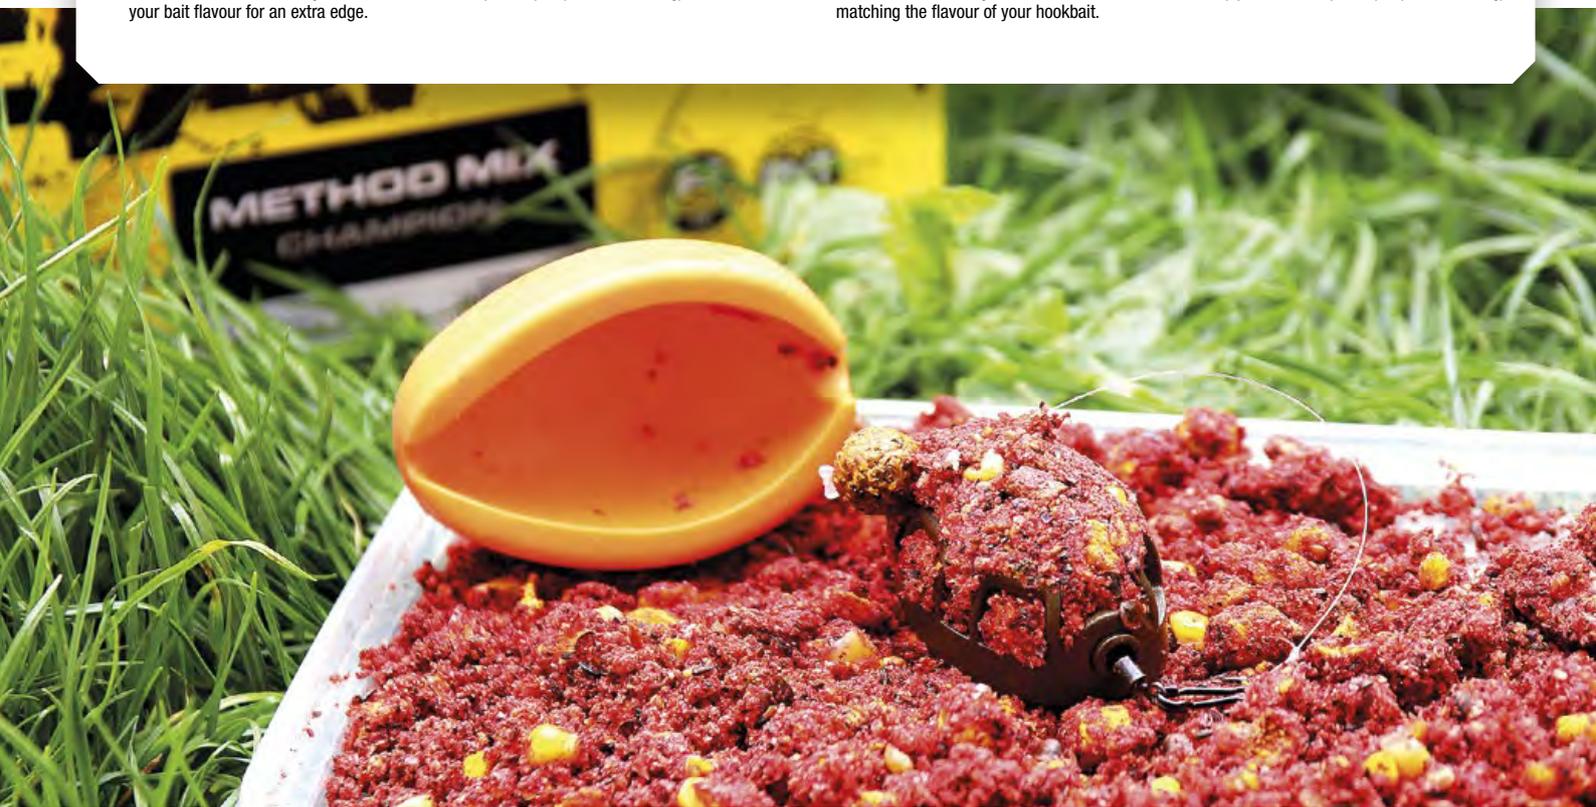

This specialist method mix contains crushed boilies, crushed pellets, soluble proteins, fish meal, liver powder and other attractive components and is a high-performing attractant suitable for fishing under difficult conditions such as fishing venues where boilie fishing in can be non-productive or when you need rapid results during matches. Add Aminoliquid Rapid (20 - 50 ml / kg) that matches your bait flavour for an extra edge.

## METHOD MIX RAPID EXCELLENT

This method mix helps attracting carp quickly during a short session. The recipe of the mix is similar to our boilie mixes but it has a much coarser texture to control the breakdown in the water. The mix forms an attractive cloud and strong food signal in the water. It is recommended to add up to 30% of a heavy leam when fishing a river. To boost this mix further, simply add Aminoliquid Rapid (20 - 50 ml / kg) matching the flavour of your hookbait.

## RAPID BOX

Exclusive plastic bait buckets for baits with our attractive Rapid design. They are supplied with transparent lid. Available in two sizes.

Code	Name	Volume
M-RABOX	Rapid Box	5,80 l
M-RABOXXL	Rapid Box XL	11 l

## RAPID PASTE PROACTIVE

An innovative boilie paste for wrapping a standard boilie or pop up. Will cling to the bait for a long period of time and can be cast a long way. The paste consists of the original boilie mix with a few 'trade secret' extra additives to achieve a sticky consistency and solubility, alongside quality essences, liquid foods and R-FACTOR. Once in water the paste starts to dissolve immediately ensuring a strong food signal around your hookbait.

Code	Name	Volume
M-RABPPAB17	Rapid Boilie Paste ProActive - B17	150 g
M-RABPPACLI	Rapid Boilie Paste ProActive - Crazy Liver	150 g
M-RABPPASEA	Rapid Boilie Paste ProActive - Sea	150 g

M-RABPPASQU	<b>NEW</b> Rapid Boilie Paste ProActive - Squid	150 g
M-RABPPASQU	<b>NEW</b> Rapid Boilie Paste ProActive - Scopex + Cream	150 g

## RAPID GEL ATTRACTOR

A mix of powder attractors such as soluble fish proteins, liver extracts and other specific ingredients that give off strong food signals. Wet your bait and then place it into this powder. A layer of special gel will be created on the surface. You can repeat these steps several times to get a real thick layer of gel, toffee apple style. This gel dissolves slowly in the water and

makes a cloud of food signals around the bait. If you let the gel layer on the boilie air dry then it will last for several hours in the water.

Code	Name	Volume
M-RAGACLI	Rapid Gel Attractor - Crazy Liver	50 g
M-RAGASEA	Rapid Gel Attractor - Sea	50 g
M-RAGACAG	Rapid Gel Attractor - Carp goulash	50 g
M-RAGAMOC	Rapid Gel Attractor - Monster Crab	50 g

## RAPID BOOSTER

These universal liquid boosters have been developed to significantly increase the attractiveness of boilies, pellets, method mixes and other baits and lures, including PVA mixes (does not dissolve PVA). They are available in many attractive flavours. Their composition ensures thorough soaking of baits and continuous releasing of attractors in the water. Their optimum viscosity helps to increase the stickiness of small method pellets or to coat the soaked baits with another dry attractors, mixes or extracts.

Code	Name	Volume
M-RABOOSQU	Rapid Booster - Squid	500 ml
M-RABOOSAL	Rapid Booster - Salmon	500 ml
M-RABOOCRA	Rapid Booster - Crab	500 ml
M-RABOOKRI	Rapid Booster - Krill	500 ml
M-RABOOSPI	Rapid Booster - Spice	500 ml
M-RABOOGAR	Rapid Booster - Garlic	500 ml
M-RABOOSCO	Rapid Booster - Scopex	500 ml
M-RABOOSTR	Rapid Booster - Strawberry	500 ml
M-RABOOVAN	Rapid Booster - Vanilla	500 ml
M-RABOOPIN	Rapid Booster - Pineapple	500 ml
M-RABOOPLU	Rapid Booster - Plum	500 ml

### RAPID AMINOLIQUID

A series of high quality liquid foods made to boost pellets or boilies before baiting. The liquids contain soluble proteins, liver extracts, amino acids, essences and other ingredients. They are also recommended to be used in method mixes (0.5 - 1 bottle per 1 bucket of Rapid Method Mix). The liquids are ideal to be added to small pellets and crushed boilies and all the liquids are PVA friendly.

Code	Name	Volume
M-RAALB17	Rapid Aminoliquid - B17	250 ml
M-RAALCLI	Rapid Aminoliquid - Crazy Liver	250 ml
M-RAALSEA	Rapid Aminoliquid - Sea	250 ml
M-RAALCAG	Rapid Aminoliquid - Carp Goulash	250 ml
M-RAALMOC	Rapid Aminoliquid - Monster Crab	250 ml
M-RAALKIP	<b>NEW</b> Rapid Aminoliquid - King Plum	250 ml

### RAPID LIQUID FOOD

New range of premium quality liquid foods supplied at their original concentration levels. One single smell and taste and you will immediately recognise their high quality. Can be used when making boilies at home or to boost ready made baits. They are PVA friendly so work well in stick mixes and bags.

Code	Name	Volume
M-RALFLIV	Rapid Liquid Food - Liver	250 ml
M-RALFSAL	Rapid Liquid Food - Salmon	250 ml
M-RALFTUN	Rapid Liquid Food - Tuna	250 ml

### RAPID DIP

An excellent additive to ensure your boilies, pellets or any other baits are more attractive. The dips are especially suited for use during shorter sessions when you need a highly attractive and fast-acting bait. Dipping time depends on the type of the bait you are using. For an extruded soft bait, a few seconds will suffice but a hard boilie should be dipped for several hours. Longer dipping time is always recommended when fishing at venues with a lot silt on the bottom.

Code	Name	Volume
M-RADICLI	Rapid Dip - Crazy Liver	100 ml
M-RADISEA	Rapid Dip - Sea	100 ml
M-RADICAG	Rapid Dip - Carp Goulash	100 ml
M-RADIMOC	Rapid Dip - Monster Crab	100 ml
M-RADIANB	Rapid Dip - Pineapple + N.BA.	100 ml
M-RADIGCH	Rapid Dip - Garlic + Chilli	100 ml
M-RADIENS	Rapid Dip - English Strawberry	100 ml
M-RADIKIP	<b>NEW</b> Rapid Dip - King Plum	100 ml
M-RADISQU	<b>NEW</b> Rapid Dip - Squid	100 ml
M-RADISCC	<b>NEW</b> Rapid Dip - Scopex + Cream	100 ml

### RAPID FLAVOUR

Top quality and maximum concentrated flavours for use in home made boilies or to enhance the smell of your baits.

Code	Name	Volume
M-RAFLCLI	Rapid Flavour - Crazy Liver	50 ml
M-RAFLMOC	Rapid Flavour - Monster Crab	50 ml

M-RAFLSQU	<b>NEW</b> Rapid Flavour - Squid	50 ml
M-RAFLSCC	<b>NEW</b> Rapid Flavour - Scopex + Cream	50 ml

# PELLETS

## RAPID EXTREME

A special series of extremely effective pellets. They are manufactured without additional added flavours, to allow the strong aroma from the main ingredients to come through. Most of these ingredients have been extruded to achieve perfect digestibility. With the Rapid Extreme series of pellets, you will see fast breakdown in the water and the quality of their mixes can be compared with our high level boilies.

## ENZYMATIC PROTEIN

An extremely effective pellet with a gentle but very stable aroma. Manufactured from pre-digested fish protein concentrate CPSP90 and carefully selected fish meals.

Code	Name	Weight	Diameter
M-RAPEXEP0116	Rapid Pellets Extreme - Enzymatic protein	150 g	16 mm
M-RAPEXEP0120	Rapid Pellets Extreme - Enzymatic protein	150 g	20 mm
M-RAPEXEP1004	Rapid Pellets Extreme - Enzymatic protein	1 kg	4 mm
M-RAPEXEP1016	Rapid Pellets Extreme - Enzymatic protein	1 kg	16 mm
M-RAPEXEP1020	Rapid Pellets Extreme - Enzymatic protein	1 kg	20 mm

## SPICED PROTEIN

A high attraction pellet that is full of high quality ingredients including pre-digested fish protein concentrate CPSP90 and a unique spicy additive. These pellets assist in getting the fish to feed even in the most difficult conditions. These pellets are non-flavoured so they tend to work consistently over longer-term sessions.

Code	Name	Weight	Diameter
M-RAPEXSP0116	Rapid Pellets Extreme - Spiced protein	150 g	16 mm
M-RAPEXSP0120	Rapid Pellets Extreme - Spiced protein	150 g	20 mm
M-RAPEXSP1004	Rapid Pellets Extreme - Spiced protein	1 kg	4 mm
M-RAPEXSP1016	Rapid Pellets Extreme - Spiced protein	1 kg	16 mm
M-RAPEXSP1020	Rapid Pellets Extreme - Spiced protein	1 kg	20 mm

## ROBIN RED

The characteristic name identifies this product's key ingredient. The high-quality mix of extruded meals, fish meals, protein concentrates and particularly the original Robin Red made by Haiths, make this pellet extremely effective. Unlike some products on the market, these are real Robin Red pellets and it simply makes a huge difference!

Code	Name	Weight	Diameter
M-RAPEXRRE0116	Rapid Pellets Extreme - Robin Red	150 g	16 mm
M-RAPEXRRE0120	Rapid Pellets Extreme - Robin Red	150 g	20 mm
M-RAPEXRRE1004	Rapid Pellets Extreme - Robin Red	1 kg	4 mm
M-RAPEXRRE1016	Rapid Pellets Extreme - Robin Red	1 kg	16 mm
M-RAPEXRRE1020	Rapid Pellets Extreme - Robin Red	1 kg	20 mm

## KRILL

The latest addition to the Extreme pellet family. They contain krill meal, selected fish meals, soluble fish proteins. Liquid fish extracts and liquid krill are used in production as well as for the final soaking. This composition ensures great results not only when baiting, but also allows you to use these pellets as a very attractive bait with fast effect and excellent solubility.

Code	Name	Weight	Diameter
M-RAPEXKRI0116	Rapid Pellets Extreme - Krill	150 g	16 mm
M-RAPEXKRI0120	Rapid Pellets Extreme - Krill	150 g	20 mm
M-RAPEXKRI1004	Rapid Pellets Extreme - Krill	1 kg	4 mm
M-RAPEXKRI1016	Rapid Pellets Extreme - Krill	1 kg	16 mm
M-RAPEXKRI1020	Rapid Pellets Extreme - Krill	1 kg	20 mm

## PELLETS RAPID CLASSIC

Extremely popular 'high oil' Halibut and Red Halibut pellets, available in various sizes. All diameters (except the 4 and 8 mm) are manufactured with a centre hole. This enables single or multiple pellets to be tied to a hair rig. They are manufactured here in our own production plant from very high quality ingredients.

Code	Name	Weight	Diameter

## PELLETS RAPID MULTI MIX

A mix of various sizes, flavours and types of Rapid pellets in an economic package, suitable for use when baiting heavily.

Code	Name	Weight	Diameter
M-RAPEMIX50	Rapid Pellets - Multi Mix	5 kg	mix
M-RAPEMIX100	Rapid Pellets - Multi Mix	10 kg	mix

## PELLETS RAPID SWEETCORN

Attractive pellets made with the maximum amount of extruded corn possible. Their main advantages are the high digestibility and attractiveness. They have a sweet flavour of dairy maize. They start to break down up to 10 minutes after entering the water and continue breaking down over several hours. Simply add some liquid food or boosters to increase their attractiveness and extend the dissolve time.

## PELLETS RAPID EASY CATCH

Highly attractive pellets which start to break down immediately once in the water. They are made from 100% extruded ingredients to achieve high digestibility and reliable function even in the cold water. High quality flavours enhance their attractiveness. After a few minutes of throwing into the water they start to make an attractive and slightly coloured/flavoured cloud whilst releasing small particles into the water column. One characteristic is they dissolve quickly, depending on the diameter and water temperature, this can be over several hours and can be extended by adding a coating of liquid food.

### PELLETS RAPID TURBO

A new range of pellets with an extremely fast action. They start dissolving immediately in the water and are completely dissolved within 20 - 60minutes (dependant on the pellet diameter and the water temperature). Developed to be used in short sessions, these pellets have a high amount of oil content that aids in the release of food signals into the water column. These pellets are also ideal for use when fishing with Zig Rigs. They do not contain any added flavourings or colourings and are manufactured from natural ingredients only.

## Xtra Performance Set 2in1

Perfectly functional suit for an active time spent on water and other outdoor activities in unfavorable conditions. It is made of extremely lightweight three-layer laminate M-TECH1512 with a water column of 15000 mm and breathability of 12000 g / m<sup>2</sup> / 24h. Of course it comes with taped seams and branded waterproof zips. Carefully designed cut is adapted to active movement, casting or sitting. The jacket is equipped with a removable hood, two outer zipped pockets, an inner pocket for a mobile phone, a flexible drawstring at the waist and a high-quality velcro straps on the sleeves. The pants have three pockets at the front and one at the back. All of them with zippers. The zippers at the bottom of the legs help to dress the trousers easier. The velcro straps allow easy pulling of the legs. Elasticated waistband with reliable fastening helps to choose the correct size and it makes wearing these trousers really comfortable.

## MCW 3in1 Hardcore set

An uncompromising suit developed for the most demanding anglers. The outer jacket and trousers consist of three layers, with two membranes, that provide an unparalleled level of comfort, waterproofing and breathability. Even in extreme conditions, these two membranes will keep you 100% dry. Of course, both of these membranes are completely breathable. The multi-layer system protects just as effectively against wind as well. The outer layer is made from a robust ripstop fabric combined with abrasion resistant fabric on the shoulders, knees and rear part of the trousers and both of these fabrics have advanced hydrophobic treatments. This impregnation significantly improves even further, the level of water protection and prevents the fabric getting dirty. The inner jacket is detachable, light, warm and extremely breathable. The well-designed cut of this suit allows for sitting, walking as well as casting, feeding or playing of fish. All leg openings are adjustable using wide Velcro tabs. The zip tabs with additional straps can be handled easily even if you are wearing gloves.
